<b>2020-21 Program or Services Updates</b>	<ol style="list-style-type: none"> <li>1. The IIRP now offers online professional development training in basic restorative practices implementation. Please see the link above for details.</li> <li>2. In addition to the training events included in the SaferSanerSchools™ program, the IIRP is offering a new event: Facilitating Listening Circles. With roots in indigenous cultures around the world, listening circles provide an opportunity to speak and listen to each other in an atmosphere of safety, decorum and equality. Listening circles emphasize storytelling for cultivating empathy. They can be used in schools, universities, workplaces, organizations, neighborhoods and families to help people gain a shared sense of understanding and emotional connection. During this event, participants experience a listening circle that is focused on a current topic and learn how to implement them in their professional settings.</li> </ol>
