

**BOULDER VALLEY**  
SCHOOL DISTRICT

1241 Accountability Task Force | March 12, 2024

# Large District Experience

---

# Realities of our Current Accountability System

- For higher wealth districts, our current accountability system promotes complacency, inequities within school systems and low accountability
- In 2018, with some of the largest achievement gaps in the state and one of the lowest achieving elementary schools in the state at the time (Alicia Sanchez ES), BVSD was graded as **DISTINGUISHED** on the District Performance Framework
- Because the current system relies on averages (Mean Scale Scores) and has a very limited scope of measures, the current accountability system negatively impacted our ability to advance academic opportunities and address inequities.
- Because of this, BVSD set out to redesign accountability for our district to support ALL students

---

# Improving Accountability

- In 2019 the State Legislature passed <https://leg.colorado.gov/bills/sb19-204>, to provide grant money to local education providers that adopt local accountability systems to supplement the state accountability system.
- BVSD was awarded a grant to redevelop our accountability system to help us improve opportunities and outcomes for all students

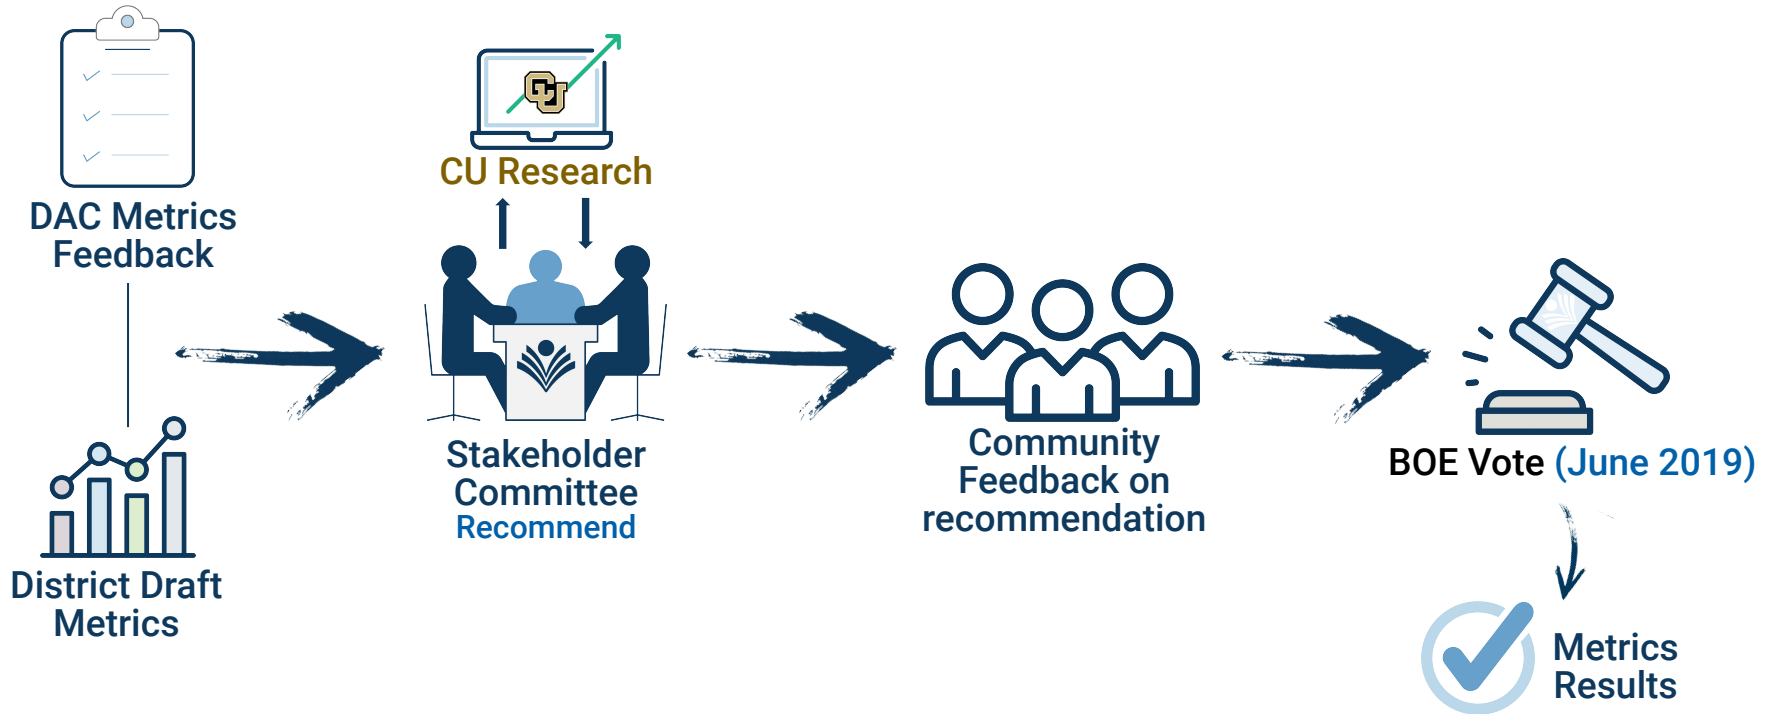

# Metrics

**The District Performance Framework alone will not lead to improvement for schools or districts**

# How our Strategic Plan Metrics Drive Improvement

- [Our Strategic Plan Metrics dashboard](#) is updated nightly for real time, fully transparent information
- Staff presents an update of our Strategic Plan Metrics twice a year (Fall/Spring) at a Board Work Session
- We train all our our School Accountability Committees on how to use the Strategic Plan Metrics dashboard to inform/develop school improvement plans
