Summary of 2019 Updates

Program Updates: Since 2018, Mass Insight has been working with Aurora Public Schools to develop and implement an instructional vision at Aurora Central High School. After collaboratively developing this instructional vision and set of instructional priorities, Mass Insight worked with the school to implement a PLC structure. It is now working with a core group of instructional leaders to implement rigorous, standards-based instruction in the school.

Evidence Updates: Mass Insight provided some evidence of modestly improving student outcomes in Aurora, as well as process / implementation updates from other projects around the country. Mass Insight self assesses as using a Tier 2, 3 and 4 evidence base--however, the evidence it lists is not studies of its own work, but rather research supporting the practices it implements.

Has the organization fulfilled the expectations to remain on the Advisory List?
