

CMAS and CoAlt: Science and Social Studies

SUMMARY DATA FILE LAYOUT Spring 2016

Listed below is the file layout for the CMAS and CoAlt: Science and Social Studies Summary Data Files and instructions for accessing the files. The district and school files are in .csv format. The first row of the file contains the headers; subsequent rows contain the data.

The **Summary Data File** (page 4) provides aggregate student performance data for the district or school. The data is aggregated at the whole district or school level as well as a number of demographic group disaggregations, each level of aggregation is reported on a separate row. The list of reported groups is in the **Disaggregated Groups and Descriptions** table (page 2).

- Only students with scores are included in the aggregated score field calculations.
- Students without scores are not included in the denominator for average scores or the percent of students in a performance level.

The district files include the aggregate data for the state (with public reporting suppression rules applied) and their schools in addition to the district level data.

In the Summary Data file, columns A (Level) to AG (Total Number Not Attempt), contain the same data as the Performance Summary Report. The rest of the file has the aggregate data reported on the Student Performance Report, Content Standards Roster, and Item Analysis Summary (CMAS only). This second section of the file is not disaggregated by demographic group. Only the standards appropriate for a particular content area contain information. Standard 4 PGC and GLE fields will be blank for science.

Note: The CMAS and CoAlt: Science and Social Studies, CMAS PARCC: ELA and Math, and Colorado Spanish Language Arts (CSLA) layouts are identical from the Level field (A) to the Total Number Not Attempt field (AG). Some fields may be filler in different files.

Exporting the Summary Data File

1. Sign into PearsonAccessnext.
2. Select **CO CMAS: Science and Social Studies Spring 2016** or **CO CoAlt: Science and Social Studies Spring 2016** from the administration dropdown in PearsonAccess^{next}.
3. Select **Published Reports** under the **Reports** dropdown menu.
4. Check the box next to the name of the file.
5. Select **Download**.

Importing the file into Excel

1. Open Excel.
2. Select the **Data** tab.
3. In the **Get External Data** group, select **From Text**.
4. Locate the downloaded Student Data File.
5. Double-click the file name or select the file and click **Import**.
6. The Text Import Wizard will open.
 - Step 1: Set original data type to **Delimited**. Select **Next**.
 - Step 2: Set delimiter to **Comma** only. Select **Next**.
 - Step 3: To retain leading zeros on fields (e.g. grade), first select all fields in the data preview, then select **Text** as the column data format to import data as text. Select **Finish**.

Disaggregated Groups and Descriptions

| Type | Description | Notes |
|------|--|---|
| 001 | All Students Tested | <p>The number of students who should have been assessed.</p> <p>Includes students with the following invalidation codes:</p> <ul style="list-style-type: none"> • 02 = Interrupted and Not Completed • 04 = Student Test Refusal • 05 = Non-approved Accommodation • 06 = Misadministration • 09 = Parent Refusal <p>This group excludes the following:</p> <ul style="list-style-type: none"> • State and District levels - all Report Suppression Codes except '10' (Expelled) • School level - all Report Suppression Codes and the Student Data File field Expelled = 1. |
| 002 | Students with Valid Scores | The number of students with scored tests. |
