Interpretation Considerations

- Interpretation of school, district, and state results should be made with caution when participation rates are low and/or representativeness\* is limited.
- Cross-state comparisons should consider differences in participation rates and representativeness\* across schools, districts, and student groups.
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years.

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population

## Colorado Measures of Academic Success (CMAS) 2023 State Achievement Results English Language Arts/Literacy and Mathematics Based on the Colorado Academic Standards

### Interpretation Considerations

- Interpretation of school, district, and state results should be made with caution when participation rates are low and/or representativeness\* is limited.
- Cross-state comparisons should consider differences in participation rates and representativeness\* across schools, districts, and student groups.
- Cross-year comparisons should consider differences in participation rates and representativeness\* across years.

\*Representativeness: how well the demographics of the tested student population mirrored the demographics of the enrolled student population
