

SAT[®] SCHOOL DAY

Student Answer Sheet Instructions

This guide shows you how to complete the SAT[®] School Day answer sheet. Typically before test day, your school will conduct a session to allow you to complete certain fields on the answer sheet to save time on test day. There are three parts to be completed: required student information for scoring, taking advantage of your four free score sends, and participating in the optional questionnaire. Only students that returned a completed consent form will participate in the optional questionnaire.

How Answering The Optional Questionnaire Helps Your College Search

Looking for a good college fit can be challenging. The College Board is here to help. Student Search Service[®] is a free program that connects you with colleges and universities across the country and around the world that are looking for students just like you.

If you participate in Student Search Service, your information may also be shared with eligible colleges, scholarship programs, and other educational organizations. Participating organizations may receive information you provide on the answer sheet, including your email address, mailing address, as well as information that you have added to your College Board online BigFuture[™] profile, but they will not receive information about disabilities, your actual test scores, or your phone number.

Your answer sheet contains questions about you, your high school experiences, and your thoughts about college. Answering the questions and then opting in to Student Search Service (marking “yes” in box 43) helps you connect with colleges and scholarships looking for students just like you. You don’t have to respond, but we strongly recommend that you do, because your answers:

- Give your counselors and college admission officers information they can use to help you plan for the future.
- Provide information to the College Board that helps us ensure that the SAT is a fair and accurate test for all students. Your answers to some questions won’t appear on your score report but will be used by the College Board for research and planning.
- Help colleges and universities create a picture of the academic preparation, extra- and cocurricular involvement, and post-high-school plans of your graduating class. See the *SAT School Day Student Guide* to learn more.

Confidentiality

Institutions that receive your SAT scores and related data are required to keep them confidential and to follow College Board guidelines for using information. After testing, see the *SAT School Day Student Guide* for more details, including how to opt out of the Student Search Service if you change your mind.
