## Introduction to the Chart of Accounts

---

All school districts, district charter schools, institute charter schools, charter school collaboratives, charter school networks, and Boards of Cooperative Educational Services (BOCES) must use the standard chart of accounts for financial accounting and reporting. §§22-44-105(4), 22-30.5-104.7, 22-30.5-112, 22-30.5-603, C.R.S.; 1 CCR 301-11. To increase readability of this document, references to “district” and “school district” include school districts, district charter schools, institute charter schools, charter school collaboratives, charter school networks, and BOCES.

### Process for Review

The Financial Policies and Procedures Advisory Committee believes this standard chart of accounts meets the intent of legislation which called for the creation of the chart of accounts. Furthermore, the FPP Advisory Committee and the Colorado Department of Education (CDE) resolve to review issues as they arise and to make subsequent recommendations to ensure that the chart of accounts improves the ability to meet the intent of the enabling legislation as well as the future financial information needs of the public at large, public school districts and legislative and regulatory bodies.

### Required Versus Optional Elements of the Chart of Accounts

The charter of accounts is developed as a comprehensive budgeting, accounting and reporting code structure for use in school district financial management. Some elements of the system are required; others are available for optional use, depending on the district’s needs. Required elements are designated in **BOLD** on the following pages. See Appendix N, “Rolling to the Bold.”

If a district does not use a particular fund, does not operate a given program or does not provide a specific support service, then budgeting, accounting and reporting for these funds, programs or support services is not required.

### Component Units

Financial data concerning Component Units of any nature, which are included in the audited financial statements, must be included in the December Finance data collection. Similarly, activity that is not included in the financial statements should not be included in the data submission. Charter school reporting must be included in the data submission. In all cases, an independent governmental audit for the charter school operations must accompany the district’s audit.

### Data Pipeline -Finance December Collection

The chart of accounts allows CDE to collect district financial data in a consistent layout, with codes aligned to statute and regulation. The data collection must match the independent financial audit submitted to the Office of the State Auditor and to the Colorado Department of Education. A substantial and good faith effort should be made to ensure proper codes for fund and object/source/balance sheet correspond to the audit. Districts submitting data that is not identical to the district’s independent financial audit will receive an audit finding and will be required to respond to CDE, School Finance Unit, during submission of the district’s Assurances for Financial Accreditation.

## Statutory/Regulatory References for Account Code Elements

The various elements specified in the account code structure are included to comply with applicable statutes and regulations. Colorado Revised Statutes (C.R.S.), Code of Colorado Regulations (CCR) and the Code of Federal Regulations (C.F.R.) stipulate the requirements for the funds and accounts used by districts. The following is a list of the account code elements that are included in the account code structure based on the identified statutory or regulatory provisions.

<b>Fund</b>	§ 22-44-102(6), C.R.S.	“. . . all of the financial transactions for a particular fund shall be recorded in said fund.”
	§ 22-45-102(1), C.R.S.	“Separate accounts shall be maintained for each of the several funds prescribed by this article.”
	§ 22-45-103(1), C.R.S.	“The following funds are created for each school district for purposes specified in this article:” (a) General fund (b) Bond redemption fund (c) Capital reserve fund (d) Special building and technology fund (e) Risk management reserves (f) Transportation fund (h) Full-day kindergarten fund (no longer in use)  (j) Supplemental capital construction, technology, and maintenance fund (k) Total program reserve fund
	1 CCR 301-11, 2245-R-3.00	“In addition to the funds created in statute (§ 22-45-103, C.R.S.), the following funds and account groups are available for school district financial accounting and reporting.” 3.01 Charter School Fund 3.02 Colorado Preschool Program (CPP) sub-fund of the general fund 3.03 Special Revenue Funds Governmental designated-purpose grants may be accounted for in special revenue funds. 3.03(1) Food Serve Fund 3.04 Pupil Activity Fund 3.05 Building Fund 3.06 Enterprise Fund 3.07 Internal Service Fund 3.08 Fiduciary (Trust and Custodial) Funds 3.08(1) Private-purpose trust fund 3.08(2) Custodial fund 3.09 Permanent Fund 3.10 Foundations 3.11 Certificate of Participation (COP) Debt Service Fund

<b>Job Classification</b>	§ 22-44-105(4)(b)(III), C.R.S.	“The financial and human resource reporting system shall provide standard definitions for employment positions such that full, accurate disclosure of administrative costs is made within the budgets and the financial statements of every school district.”
<b>Designated Grant</b>	80.20 (a)(2) 34 C.F.R. Part 200	Recipients of federal funds must maintain separate accounting of revenue and expenditures by program, by fiscal year and by carry-over period.
	§ 22-44-105 (4)(b)(III), C.R.S.	“The financial reporting system shall make it possible to collect comparable data by program and school site.”

### Definitions of Account Code Elements

The first eleven account code elements listed compromise the account string used for December Finance data collection. The additional account code elements, which are optional, are available to meet individual district reporting needs. These additional account code elements are removed from the account string for data collection.

1. **District Code** – a unique code tied to each reporting entity.
2. **Administrative Unit** – a unique code identifying the specific administrative unit that is tied to the reporting entity.
3. **School Code** – a unique code assigned by CDE for every school building at a school district to facilitate school site level reporting. In some cases, districts requested multiple school codes for one school building. Expenditures for a school code are required for each school code reporting students in the October Count data submission.
4. **Fund** – an independent fiscal and accounting entity with a self-balancing set of accounts for recording cash and other financial resources. It contains all related assets, liabilities and residual equities or balances or changes therein. Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations or other restrictions.

[Return to the Table of Contents](#)

---

5. **Location** – a dimension used as a way to identify schools, attendance centers, operational units, buildings or sites as budgetary units or cost center designators, as a means of segregating costs.
6. **Special Reporting Element (SRE)** – describes the activity for which a service or material object is acquired, much like a function. This element is optional, but may be used with the program element to differentiate program costs.
7. **Program** – a dimension which describes the activity for which a service or material object is acquired. The programs of a school district are classified into six broad areas: Instruction, Support Services, Operation of Non-Instructional Services, Facilities Acquisition and Construction Services, Other Uses and Reserves.
8. **Source/Object/Balance Sheet** – a combination dimension which is used to identify the type of account: Balance Sheet, Revenue (Source) or Expenditure (Object). Object is the service or commodity obtained.
9. **Job Classification** – a dimension which enables school districts to break down expenditures for salaries and employee benefits by the employee’s job classification.
10. **Designated Grant/Project** – an award of financial assistance in the form of cash or a contribution or gift of other assets from another government to an eligible grantee to be used for a specified or designated purpose, activity or facility.
11. **Amount** – the data element to capture the specific amount being reported for the unique combination of reporting elements.
12. **Fiscal Year** – a twelve-month accounting period (July 1 through June 30) to which the annual budget applies.
13. **Instructional Organization** – the general type of school or other organizational entity providing instruction.
14. **Term** – a prescribed span of time when school is open and pupils are under the direction and guidance of teachers.
15. **Special Cost Center** – the smallest segment of a program that is separately recognized in the school district’s records, accounts and reports.
16. **Level of Instruction** – a dimension which allows a school district to track activities by areas of instructional, such as pre-school, elementary, secondary or post-secondary.

### Revenue, Expenditure and Balance Sheet Account Code Structure

All three account types – revenues, expenditures and balance sheet accounts – use the same basic multidimensional account code structure. Districts must report at least a minimum level of detail for the dimensions shown in **BOLD**. This minimum required level of detail for each dimension is outlined in Appendix A, “Required Reporting Level.” The required reporting level is also reflected by **BOLD** print codes within each section of the Chart of Accounts.

Regardless of account type, this basic account code structure contains eleven dimensions and the same number of digits in each dimension. Some of the dimensions in the revenue, expenditure and balance sheet account codes differ in purpose; however, the length, placement and separation of the dimensions are identical for computer programming purposes. Dimensions which are not required for a particular account type and are unused by the district, but are part of the basic account code structure, should be “zero filled.”

The districts may use non-bold dimensions for local reporting purposes; CDE will ignore any such codes in these dimensions. For example, the program code is a non-bold dimension for revenue accounts; therefore, the program code can be used by the district to track detail associated with revenues. For instance, if a district wanted to identify the specific course for which a tuition payment is made, the course number could be recorded in the program code dimension.

The length of each dimension and the composition of the account code structure are designed to allow districts of any size to code financial transactions. Some districts will desire/require more detail than is provided by the basic account code string; these districts are encouraged to add optional dimensions to their account code string. Optional dimensions must be removed from account code strings prior to data pipeline submission.

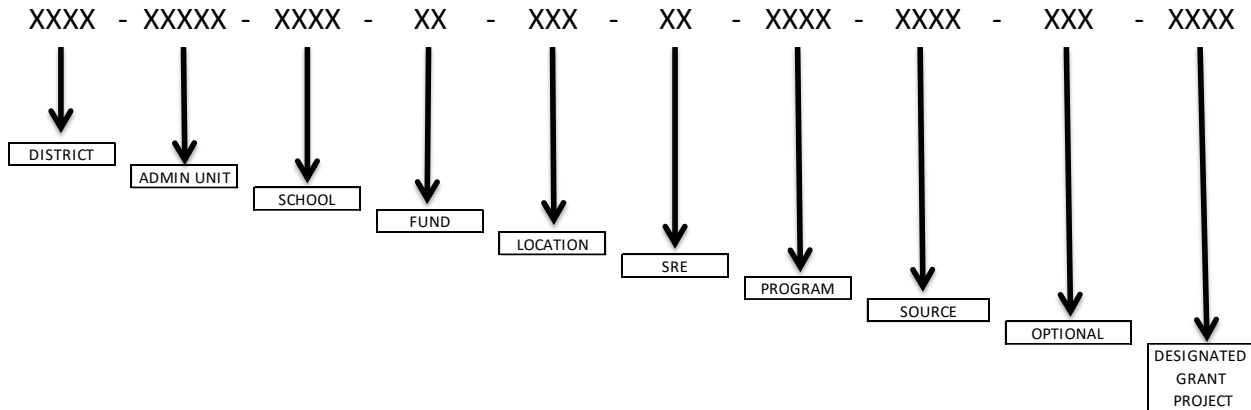

The following illustrations present the basic account code structure for each account type by a series of Xs and hyphens. Each X designates the placement of a numerical digit (which can include zero) in the account code. These graphics are for illustration purposes. See, Data Pipeline Periodic Collections – December Finance, [http://www.cde.state.co.us/datapipeline/per\\_december-finance](http://www.cde.state.co.us/datapipeline/per_december-finance).

## Revenue Accounts

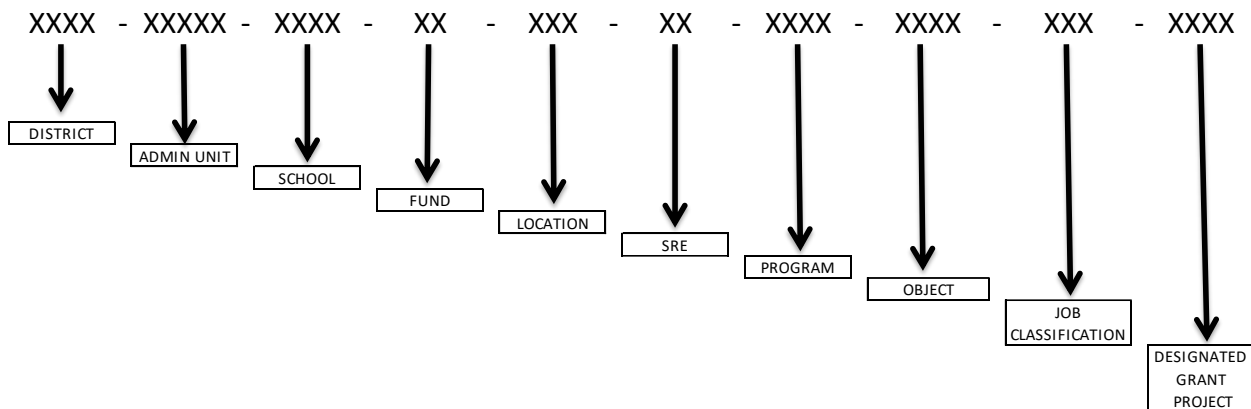

The format and sequencing of the elements in the revenue account code are:

\* Location codes are required for charter schools.

## Expenditure Accounts

The format and sequencing of the elements in the expenditure account code are:

At the discretion of the district, the following are examples of expenditure account dimensions which may be added to the code structure:

1. Fiscal Year
2. Instructional Organization
3. Term
4. Special Cost Center
5. Level of Instruction

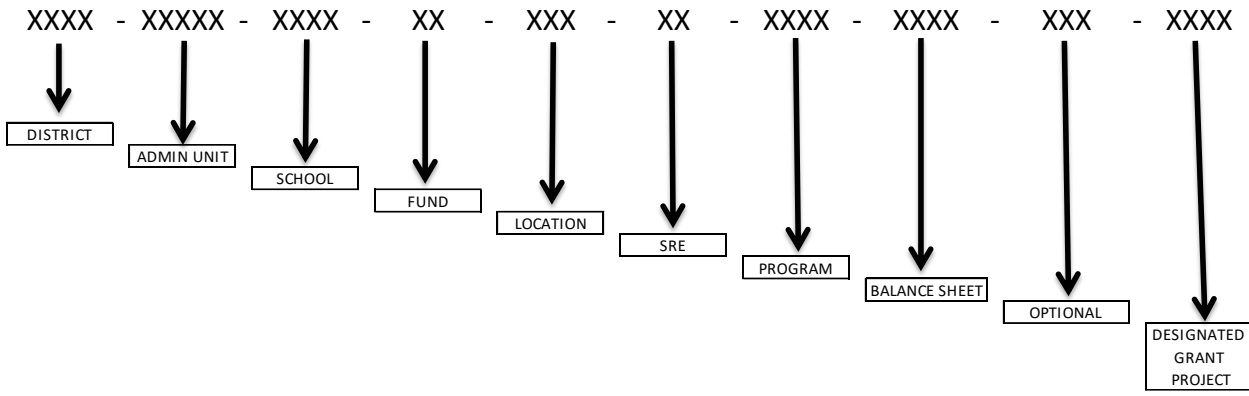

If these dimensions are used, they must be removed from account code strings prior to data pipeline submission.

## Balance Sheet Accounts

The format and sequencing of the elements in the Balance Sheet account code are:

\* Location codes are required for charter schools.

Districts must report all **BOLD** codes that are applicable to CDE, including balance sheet accounts.

### Adding Account Codes within Dimensions

Most districts will need to customize this Chart of Accounts to meet local reporting needs. As discussed earlier in this section (under “Revenue, Expenditure and Balance Sheet Account Code Structure”), districts must report at least to the levels of detail indicated by **BOLD** codes; however, most districts will need to report to higher level(s) of detail at least for certain transactions. Each district must decide what levels of detail are appropriate for providing financial information for decision-making and accountability to management, the board of education and other local parties.

The following sections present and define codes for each dimension of the account code string. These codes have been carefully developed with a high degree of input from school districts. The level of detail available from these predefined codes will exceed what is required for many types of transactions. However, almost every district will have instances of transactions where the level of detail available from predefined codes is not sufficient. In areas where it is predictable that districts will want to add codes, this document notes which codes are available for district use. There are a few areas where this document notes that codes are reserved; reserved codes must not be used for purposes other than those specified. A district may need to add codes in an area where there is no indication that codes are available for district use. A district can add codes within the structure of predefined codes as long as data “rolls up” into appropriate **BOLD** account types. *See Appendix N, “Rolling to the Bold.”*

## Fund

---

A fund is an independent fiscal and accounting entity with a self-balancing set of accounts for recording the source and use of cash and other financial resources. It contains all related assets, liabilities and residual equities or balances or changes therein.

Funds are established to carry on specific activities or attain certain objectives of the school district according to special legislation, regulations or other restrictions for the purposes described.

*Fund 01 is reserved for district use in tracking cash funds. The following funds with designated fund numbers are available for use by school districts.*

### General Funds

**10 General Fund.** Used to account for and report all financial resources not accounted for and reported in another fund. GASB 1300.104 and GASB Statement No. 54. Further, § 22-45-103(1)(a), C.R.S., states that all revenues, except those revenues attributable to the Bond Redemption Fund, the Capital Reserve Fund, the Special Building Fund, the Insurance Reserve Fund and any other fund authorized by the State Board of Education, shall be accounted for in the General Fund. Any lawful expenditure of the school district, including any expenditure of a nature that could be made from any other fund, may be made from the General Fund.

Typically, categorical programs (e.g., special education, gifted and talented education, *career and technical education*, transportation and E.L.P.A. (English Language Proficiency Act)), are funded by both state categorical revenues and General Fund subsidies. It is recommended that these categorical programs be reported in the General Fund rather than in a special revenue fund.

Refer to the note in fund 22, Governmental Designated-Purpose Grants Fund, for additional information regarding supplemental support from the General Fund.

**11 Charter School Fund.** Used to track financial activities of the charter schools. The district is not required to include charter school transactions in its financial database for normal day to day operations. However, Charter School transactions must be included in the district's database for Data Pipeline submission reporting. When charter school transactions are recorded in the district's database, use fund 11. Other funds may also be used to track charter school financial transactions, if applicable, such as Pupil Activity Fund and Governmental Designated-Purpose Grants Fund. Location codes 900 through 969, which are reserved exclusively for charter schools, must be used to identify specific charter schools within the district. See Appendix K, "Charter Schools," for an explanation of charter school reporting requirements.

**18 Risk-Management Sub-Fund of the General Fund (optional).** If used, this fund allows a district to maintain a self-balancing set of records specific to risk management. The fund's original purpose was to track moneys allocated pursuant to § 22-54-105(2), C.R.S., which is no longer required. Used to account for the purposes and limitations specified by § 22-45-103(1)(e), C.R.S. and used to account for financial transactions as identified in § 24-10-115, C.R.S.

[Return to the Table of Contents](#)

---

- 19 Universal Preschool Program (UPK)/Colorado Preschool Program (CPP) Sub-Fund of the General Fund (optional). If used, this fund allows a district to separate the UPK/CPP accounting and maintain a self-balancing set of records specific to the UPK/CPP requirements for allocations. Used to account for the purposes and limitations specified by § 22-28-108(5.5), C.R.S. and § 26.5-4-208, C.R.S.

Used for tracking expenditures for the UPK/CPP. The funding and expenditures may be tracked within the general fund, using grant code 3897 for UPK and 3141 for CPP. If the district uses fund 19 for more than the preschool program, activity for the preschool program must be isolated using the grant codes 3897 and 3141. Any money remaining in the district's preschool program budget at the end of any budget year remain in the program budget for use in the UPK/CPP programs in subsequent budget years. As of FY 2023-24 Universal Preschool Program funding (UPK) will be provided from the Department of Early Childhood (DEC), FY 2022-23 is the last year funding from the Colorado Preschool Program (CPP). Therefore, as of FY 2023-24 the Preschool Allocation will no longer be required.

### Special Revenue Funds

Used to account for and report the proceeds of special revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. GASB 1300.105 and GASB Statement No. 54. A separate fund may be used for each restricted/committed source. The following special revenue funds are designated for use by school districts.

- 20 Special Revenue Fund – Other (*optional*). If used, this fund allows a district to identify special revenue funds other than those listed in this section. The funds listed in this section are isolated for data pipeline and auditor's integrity report purposes. Funds 26 through 29 are available for district use and roll to Fund 20 for data pipeline and auditor's integrity report purposes.
- 06 **Supplemental Capital Construction, Technology and Maintenance Fund.** The revenue from a tax levied for the purpose of providing ongoing cash funding for the capital construction, new technology, existing technology upgrade and maintenance needs of a school district and no other money other than interest and income credited to the fund, shall be deposited in the supplemental capital construction, technology and maintenance fund of the district. Used to account for the purposes and limitations specified by § 22-45-103(j), C.R.S. If determined to be special revenue in nature. If determined to be a capital projects fund use fund 46.
- 07 **Total Program Reserve Fund.** The revenue from a tax levied pursuant to § 22-54-107(5), C.R.S., is deposited into this fund. The district may expend money from the total program reserve fund only to offset the amount of a reduction in the district's state share caused by application of the budget stabilization factor in fiscal years when the district's total program mill plus specific ownership tax revenue is insufficient to cover the district's total program. Any money remaining in the fund at the end of a fiscal year must remain in the fund and may be used in future years only as provided for in this paragraph.
- 21 **Food Service Fund.** Used to record financial transactions related to food service operations. If the district receives USDA school breakfast/lunch money, this fund is required and if not required to be used is not available for use by non-school food authorities.

[Return to the Table of Contents](#)

- 22 Governmental Designated-Purpose Grants Fund (*optional*). Used to record financial transactions for grants received for designated programs funded by federal, state or local sources. If the program is identified by a Assistance Listing Number (ALN formerly known as CFDA) number (except food service programs which are required to use fund 21), it is recommended that the applicable program be reported in this fund.

Note: If there is supplemental support from the General Fund, the General Fund portion should be shown in the General Fund as an expenditure or transfer. The Designated-Purpose Grants Fund portion should be shown as an expenditure in the Governmental Designated-Purpose Grants Fund. The local/state supplemental funding must not be coded to the federal grant code used.

The designated grant/project element of the account code in both the General Fund and the Governmental Designated-Purpose Grants Fund must contain the same designated grant program number, if reportable by the specific grant.

- 23 Pupil Activity Special Revenue Fund (*optional*). Used to record financial transactions related to school-sponsored pupil intrascholastic and interscholastic athletic and other related activities. These activities are supported in whole or in part by revenue from pupils, gate receipts and other fund-raising activities. When activities of student organizations are reported as a special revenue fund, revenues and expenditures must be recorded at the level of detail identified in **BOLD** print. If such activities are reported as a custodial fund, fund 74 is to be used to record transactions; see fund 74 description. Appendix C, "Pupil Activity," provides information of the two different types of funds that may be used for these activities. Appendix C also includes statutory references related to reporting fees. Use fund 23 if general fund subsidies are likely. General Fund subsidies are not allowed for fund 74.

- 25 **Transportation Fund.** Used to account for revenues from a tax levied or fee imposed for the purpose of paying excess transportation costs pursuant to the provisions of § 22-40-102(1.7)(a), C.R.S., or § 22-32-113(5)(a), C.R.S., respectively. Further § 22-45-103(1)(f), C.R.S., requires a district to use this fund when such a tax is levied or such a fee is imposed. When use of this fund is required, transportation categorical program revenues received from the state pursuant to article 51 of title 22, C.R.S., shall be recorded in this fund. A District may impose and collect a fee for the payment of excess transportation costs without voter approval. Districts must deposit any revenues received from the imposition of the fee into this fund.

### Debt Service Funds

Used to account for and report resources that are restricted, committed or assigned to expenditure for principal and interest. Debt service funds should be used to report resources if legally mandated. The use of the Bond Redemption Fund for non-voter-approved debt is not permitted. § 22-45-103(b)(III), C.R.S. *See also*, GASB 1300.107 and GASB Statement No. 54.

- 31 **Bond Redemption Fund.** Used to account for the accumulation of resources for and the payment of principal, interest and related expenses on long-term general obligation debt or long-term voter-approved financed (lease)-purchase debt.

32-38 Voter Approved Debt Funds. Available for district use and will roll to Fund 31.

[Return to the Table of Contents](#)

---

- 39 Certificate of Participation (COP) Debt Service Fund (*optional*). A debt service type fund may be established to allow school districts to account for the accumulation of resources and payment of principal, interest and related expenditures on any COP debt. Do not use this code for voter-approved debt.

### Capital Project Funds

Used to account for and report financial resources that are restricted, committed or assigned to expenditure for capital outlays acquisition or construction of major capital facilities and other capital assets (other than those financed by proprietary funds and trust funds). GASB 1300.106 and GASB Statement No. 54.

- 41 **Building Fund.** Used to account for all resources available for acquiring capital sites, buildings and equipment. Examples of such resources include bond sale proceeds, grants, donations and interfund transfers. Fund 41 required to be used for Bond sales reported to capital acquisitions.
- 42 **Special Building and Technology Fund.** Used to account for all resources generated by taxes levied pursuant to § 22-45-103(1)(d), C.R.S., for the construction of schools (e.g., the acquisition of land and construction of structures) or for the acquisition of instructional computer technology. If a district levies the tax, this fund is required.
- 43 Capital Reserve Capital Projects Fund (*optional*). Used to account for the purposes and limitations specified by § 22-45-103(1)(c), C.R.S., including the acquisition of sites, buildings, equipment and vehicles. Fund 43 may be used as a capital reserve fund which is classified as a capital projects fund.
- 46 **Supplemental Capital Construction, Technology and Maintenance Fund.** The revenue from a tax levied for the purpose of providing ongoing cash funding for the capital construction, new technology, existing technology upgrade and maintenance needs of a school district and no other money other than interest and income credited to the fund, shall be deposited in the supplemental capital construction, technology and maintenance fund of the district. Used to account for the purposes and limitations specified by § 22-45-103(j), C.R.S. If determined to be capital project in nature. If determined to be a special revenue fund, see fund 06.

### Enterprise Funds

May be used to report any activity for which a fee is charged to external users for goods or services. For example, an enterprise fund may be used to account for operations that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the full costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through use charges. Activities are required to be reported as enterprise funds if any one of the following criteria is met. Governments should apply each of these criteria in the context of the activity's principal revenue sources: The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit is not payable solely from fees and charges of the activity. Laws and regulations require that the activity's costs or providing services, including capital costs, be recovered with fees and charges, rather than with taxes or similar revenues. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service). GASB 1300.109.

- 51 Not Available for Use.

---

52-59 Available for district use.

### **Internal Service Funds (*optional*)**

Used to account for the financing of goods or services provided by one department or agency to other departments or agencies of the government and its component units or to other governmental units, on a cost-reimbursement basis. Internal service funds should only be used if the reporting government is the predominant participant in the activity. Otherwise, the activity should be reported as an enterprise fund. GASB 1300.110. The recording of user fee revenue generated by charging other funds within the district for services provided when such services are accounted for in internal service funds causes a double counting of revenues and expenditures when data from all funds are aggregated. To prevent the overstatement of revenue and expenditure amounts on CDE reports for financial reporting purposes, districts must code revenues to the appropriate source codes (1973-1978). Examples of internal service funds include central warehousing and purchasing, central data processing and central printing and duplicating. See Appendix P, “Internal Service Funds,” for information about recording internal service fund transactions.

61-62 Available for district use.

63 Risk-Related Activity Fund (*optional*). Used if a second fund, in addition to fund 64 below, is needed; CDE will combine (“roll”) fund 63 into fund 64 for data reporting purposes. Used to account for financial transactions for services that are purchased from an Internal Service Fund by other funds (cost-recovery basis), including self-insurance covering the district and its employees. Fund 63 may be used for property risk-management and to purchase liability, workers’ compensation and other insurance types from which other funds purchase these services. The applicable expenditures are reported in the originating fund.

64 Risk-Related Activity Fund (*optional*). Used to account for financial transactions for services that are purchased from an Internal Service Fund by other funds (cost-recovery basis), including self-insurance covering the district and its employees. Fund 64 may be used for property risk-management and to purchase liability, workers’ compensation and other insurance types from which other funds purchase these services. The applicable expenditures are reported in the originating fund.

65-69 Available for district use.

### **Fiduciary Funds (Trust and Custodial Funds)**

Used to account for assets held by a governmental unit in a trustee capacity or as an agent for individuals, private organizations and/or other governmental units. The key distinction between trust funds and custodial funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held. A custodial fund does not involve a formal trust agreement and the government’s role is more custodial.

**72 Private-Purpose Trust Fund.** Used to report any trust arrangement under which the principal and/or income benefit individuals or organizations and the funds are not used as part of the operations of the district. An example of a private-purpose trust would be a formal agreement to provide scholarships to students in the district. This fund may be used for expendable or non-expendable scholarship programs. Assets held under a trust must also be legally protected from the creditors of the government.

[Return to the Table of Contents](#)

---

- 73 Custodial Fund.** Used to account for assets held for other funds, governments or individuals. Funds are custodial in nature and do not involve measurement of operations. Custodial funds generally serve as clearing accounts.
- 74 Pupil Activity Custodial Fund.** Used to record financial transactions related to school-sponsored pupil organizations and activities. These activities are self-supporting and do not receive any direct or indirect district support within fund 74. For the Pupil Activity Custodial Fund, the same level of detail as the Pupil Activity Special Revenue Fund (fund 23) will be provided with the exception of additional detailed reporting to determine the net investment income (Gross investment income less investment costs) for Custodial Funds. Appendix C, “Pupil Activity,” shows information on reporting of pupil activity in fund 23 and in fund 74. Appendix C also includes statutory references related to reporting fees.

### Permanent Fund

- 79 Permanent Fund.** Used to report resources that are legally restricted to the extent that only earnings and not principal, may be used for purposes that support the reporting government’s programs – that is, for the benefit of the government or its citizenry. Permanent funds do not include private purpose trust funds) GASB 1300.108.

### Other Funds

- 85 Foundations.** Funds 85-89 are used for reporting foundation activity or other non-charter school discretely presented component units. The audit will reflect this activity in a specific fund based on the purpose of the foundation. 1 CCR 301-11, 3.10. Funds 85-89 will roll to Fund 85.
- 90 District Reporting Element.** Used with Balance Sheet Codes 7511, 7512, 7513, 7514, 7515 and 7519 (contra account) to report District Debt. Refer to Appendix R for specific examples and the level of detail on reporting district debt. Also used with Source Codes 1170, 1171, 1172, 1173, 1174 and 1179 to report voter approved Override Revenues.

## Location

---

The location dimension is used as a way to identify organizational units such as:

1. schools,
2. attendance centers,
3. operational units,
4. buildings,
5. sites,
6. budgetary units,
7. cost centers.

Identification of such organizational units provides a convenient way to budget and segregate expenditures by organizational unit. Also, the location code can assist with payroll check distribution.

The location dimension is structured to allow for identification of the type of activity (such as instructional or support) and the organization group (such as elementary school, middle school or high school). This enables the sorting and aggregation of data for reporting purposes. Location codes greater than 599 are used for cost centers, rather than specific buildings.

When compiling reports to reflect school district expenditures, CDE will use location codes in conjunction with program codes to report school district instructional programs by level. However, CDE will use program codes only, rather than program codes and location codes, to report school district support expenditures.

Note for BOCES. See Appendix D, “BOCES,” for an example of how to maintain the required recording structure for location codes while identifying various school districts served.

**100 Elementary Schools.** Normally classified as elementary instruction by state and local practice and composed of any span of grades from pre-school through but not above grade 8. Do not use location codes in the 100 series for charter schools; districts must use location codes 900 through 919 for elementary charter schools.

Example:

- 101 Adams Elementary School
- 102 Baker Elementary School

001-099 Available for district use to identify elementary schools.

**200 Middle (Junior High) Schools.** Normally falls between an elementary school and a high school and usually consists of some combination of grades between grades 5 and 9. Do not use location codes in the 200 series for charter schools; districts must use location codes 920 through 929 for middle school charter schools.

Example:

- 201 Columbine Middle School
- 202 Deer Creek Junior High School

[Return to the Table of Contents](#)

---

**300 Senior High Schools.** Comprises any span of grades beginning with the next grade following a middle (junior high) school and ending with grade 12. Do not use location codes in the 300 series for charter schools; districts must use location codes 930 through 939 for high school charter schools.

Example:

- 301 East High School
- 320 Franklin Alternative High School

► **400 Career and Technical Schools.** Used to designate secondary schools which are separately organized for the purpose of offering education and training in career and/or technical skills and occupations. Do not use location codes in the 400 series for charter schools; districts must use location codes 940 through 949 for online/career/technical charter schools.

Example:

- 401 Grand Career School
- 402 Highland Technical School

**461-469 On-Line Activity.** Used to designate where on-line activity is taking place. A unique and specific location code should be used for each on-line school or program within the District that have applied and are recognized by the Office of Blended and Online Learning. Charter schools with on-line activities should use the 900-969 charter school location codes. All on-line school and program location codes are bolded and on-line school and program detailed activities must be reported. On-line schools should be reported with the assigned unique school code, while the on-line program should be reported with the associated unique school code (or allocated to unique school codes). Reporting of single purchase service account for online is not allowable. Location codes 461 through 469 are available and are BOLD (e.g., location 463 does not roll to 461, it rolls to 463).

**500 Combination Schools.** Schools that house on a permanent basis more than one type of instructional organization; e.g. an elementary school and a middle school. Do not use location codes in the 500 series for charter schools; districts must use location codes 950 through 969 for combination charter schools.

Example:

- 501 Combined Elementary/Middle (Junior High) Schools
- 502 Combined Middle (Junior High)/Senior High Schools
- 503 Combined Elementary/Middle/High Schools
- 509 Other Combined Schools

**600 Centralized Services.** Activities or services associated with district-wide or centralized administration, program direction, curriculum services, business services and related support services. (This category includes the board of education; superintendent; centralized administration and support for instructional, curriculum, media, special education, athletics and other programs; and district-wide staff development, human resources, payroll, accounting, information systems, etc.) *Not to be used with charter schools.*

**700 Service Centers.** Centralized operations for specific support activities rather than for buildings or facilities. *Not to be used with charter schools.*

Example:

- 710 Operations and Maintenance Center
- 720 Transportation Center
- 730 Warehouse
- 740 Food Service Center

[Return to the Table of Contents](#)

---

- 800 District-wide Costs.** Costs which are not directly associated with district operations, programs, activities or services and which are not related to the level of services provided by the district. (Such costs include principal and interest on debt; bond issuance costs; property, liability, unemployment and workers' compensation insurance; judgments or legal claim settlements; etc.) *Not to be used with charter schools.*
- 900-969 Reserved for district use for charter schools only.** All charter school transactions reported in the district's Data Pipeline submission file must be coded to appropriate locations in this range. See Appendix K, "Charter Schools," for an explanation of charter school reporting requirements. All charter school location codes are bolded: i.e. location 903 does not roll to 900, it rolls to 903.
- 900 – 919 Elementary Charter Schools.** Location codes 900 through 919 must be used for elementary charter schools.
- 920 – 929 Middle School Charter Schools.** Must be used for middle school (junior high) charter schools.
- 930 – 939 High School Charter Schools.** Must be used for high school charter schools.
- ▶ **940 – 949 Online/Career/Technical Charter Schools.** Must be used for online/career/technical charter schools.
- 950 – 969 Combination Charter Schools.** Location codes 950 through 969 must be used for combination charter schools.
- 970 Other Operational Units.** Location codes 970 through 989 are available for district use for other operational units not specified elsewhere.  
Example: 971 Athletic Stadium
- 990 Private/Parochial Schools.** Used to identify private or parochial schools. Location codes 990-999 are available for district use.

## Special Reporting Element

---

In the instances defined below, the Special Reporting Element describes the activity for which a service or material object is acquired. The SREs of a school district are classified into six broad areas: Instruction, Support Services, Non-Instructional Services, Facilities Acquisition and Construction Services, Other Uses and Reserves. SREs and sub-SREs consist of activities which have somewhat the same general operational objectives. Categories of activities comprising each of the divisions and subdivisions are grouped according to the principle that the activities can be combined, compared, related and mutually exclusive.

► The use of the SRE, other than 95, is voluntary. It is recommended that if a district chooses to implement this element, the districts may follow the scheme provided below. However, since this is an optional field districts may use the SRE based on district needs, except for the bolded SRE 95 which is used to designate a Consolidated School wide Program.

10      **Instruction.** Instruction includes the activities dealing directly with the interaction between teachers and students. Teaching may be provided for students in a school classroom, in another location such as a home or hospital and in other learning situations such as those involving co-curricular activities. It also may be provided through some other approved media such as television, radio, telephone and correspondence. Included here are the activities of paraprofessionals, aides, classroom assistants, clerks or graders and the use of teaching machines or computers which assist in the instructional process of interaction between teachers and students.

- 11      Regular Education.
- 12      Special Education.
- 13      Career and Technical Education.
- 14      Co-curricular Education/Activities.
- 15      Adult Education for K-12 Students.
- 19      Other Education.

20      **Support Services.** Support services provide administrative, technical (such as guidance and health) and logistical support to facilitate and enhance instruction. These services exist as adjuncts for fulfilling the objectives of instruction, community services and enterprise programs.

[Return to the Table of Contents](#)

---

- 21 Students. Activities designed to assess and improve the well-being of students and to supplement the teaching process.
  - 22 Instructional Staff. Activities associated with assisting the instructional staff with the content and process of providing learning experiences for students.
  - 23 General Administration. Activities concerned with establishing and administering policy for operating the school district.
  - 24 School Administration. Activities concerned with overall administrative responsibility for a school or combination of schools.
  - 25 Business. Activities concerned with paying, transporting, exchanging and maintaining goods and services for the school district. Included are the fiscal and internal services necessary for operating the school district.
  - 26 Operation and Maintenance of Plant. Activities concerned with keeping the physical plant open, comfortable and safe for use and keeping the grounds, buildings and equipment in effective working condition and state of repair. These include the activities of maintaining safety in buildings, on the grounds and in the vicinity of schools.
  - 27 Student Transportation. Activities concerned with conveying students to and from school, as provided by state and federal law. These activities include trips between home and school and trips to school activities.
  - 28 Central. Activities, other than general administration, which support each of the other instructional and support services programs. These activities include planning, research, development, evaluation, information, staff and data processing services.
  - 29 Other. All other support services not classified elsewhere in the 20 series.
- 30 Non-Instructional Services. Activities concerned with providing non-instructional services to students, staff or community.
- 31 Food Services Operations. Activities concerned with providing food to students and staff in a school or school district. This service area includes preparing and serving regular and incidental meals, lunches or snacks in connection with school activities and food delivery.
  - 32 Enterprise Operations. Activities that are financed and operated in a manner similar to private business enterprises – where the stated intent is that the costs are financed or recovered primarily through user charges.
  - 33 Community Services Operations. Activities concerned with providing community services to students, staff or other community participants. Examples of this function would be the operation of a community swimming pool, a recreation program, a child care center, etc.
  - 34 Education for Adults. Activities concerned with providing services for adults.
- 40 Facilities Acquisition and Construction Services. Activities concerned with acquiring land and buildings; remodeling buildings; constructing buildings and additions to buildings; initially installing or extending service systems and other built-in equipment; and improving sites.

[Return to the Table of Contents](#)

---

- 41 Site Acquisition Services. Activities concerned with initially acquiring and improving new sites.
  - 42 Site Improvement Services. Activities concerned with improving sites and with maintaining existing site improvements.
  - 43 Architecture and Engineering Services. Activities of architects and engineers related to acquiring and improving sites and improving buildings.
  - 44 Educational Specifications Development Services. Activities concerned with preparing and interpreting descriptions of specific space requirements for the various learning experiences of students to be accommodated in a building. These specifications are interpreted to the architects and engineers in the early stages of blueprint development.
  - 45 Building Acquisition and Construction Services. Activities concerned with acquiring or constructing buildings.
  - 46 Building Improvement Services. Activities concerned with building additions and with installing or extending service systems and other built-in equipment.
  - 49 Other Facilities Acquisition and Construction Services. Facilities acquisition and construction activities which cannot be classified above.
- 50 Other Uses. A number of outlays of governmental funds are not properly classified as expenditures, but still require budgetary or accounting control. These are classified under Other Uses. These include debt service payments (principal and interest) and certain transfers of moneys from one fund to another.
- 51 Debt Service. Servicing the debt of the school district, including payments of both principal and interest and debt issuance costs. The receipt and payment of principal on short-term loans are handled as an adjustment to balance sheet account 7451.
  - 52 Fund Transfers. Transactions which withdraw money from one fund and place it in another without recourse.
- 60-89 Available for district use.
- 90 Reserves. Consists of moneys Set-Aside for specific purposes and identifies those portions of the fund balance (the excess of revenues over expenditures) which are segregated for future purposes and/or are not available to finance expenditures of the subsequent accounting period. Some reserves are statutorily or constitutionally mandated while others are in compliance with generally accepted accounting principles or practices.
- SRE codes for reserves are used in budgeting only. A budget transfer may be made from the reserve to the expenditure account. Specific reserve types may be identified using the program 9000 series.
- 94 COVID-19 Activities. for the tracking of declared emergency (such as COVID-19) activities. This is an optional code for the districts/charter schools that want a method to track any and all activities (revenue and expenditures) related to COVID-19.

[Return to the Table of Contents](#)

---

- 95 Consolidated School wide Program.** This SRE code identifies Consolidated School wide Programs. It is used in conjunction with a unique location code and/or school code if used for each school wide plan site and Object Code 0855. Object Code 0855 identifies the School wide Plan Distribution, as an option to detailed object coding. SRE 95 should be used for the coding of all expenditure activities related to a specific school's school wide plan. SRE should also be used in all General Fund (10) Abatement Accounts and all Governmental Grants Fund (22) or General Fund (10) Grant Accounts for the grant programs that have been included in the specific school wide plan. See Appendix T, "Consolidated School wide Programs," for additional information.

## Program

A program is a plan of activities and procedures designed to accomplish a predetermined objective or set of objectives. The program dimension provides the school district a framework to classify expenditures to determine total costs of attaining such predetermined objectives. The program dimension allows a school district to charge costs, instructional and support, directly to the benefiting program.

### Instructional Program

Instruction includes those activities dealing directly with the interactions between staff and students. Teaching may be provided for students in a school classroom or in another location (e.g., a home, hospital co-curricular activity location, etc.) Instruction may be provided through approved media such as television, radio, telephone or correspondence. Instruction includes the activities of paraprofessionals (aides) or classroom assistants of any type which assist teachers in the instructional process.

The Financial Policies and Procedures Advisory Committee has designed this dimension of the chart of accounts so that instructional program costs can be identified by specific subject area. Recording expenditures by subject area may be difficult when the curriculum is integrated or when human resources, payroll and financial systems are not fully integrated.

Instructional programs are divided into subprograms which are more discrete descriptions of the overall program. These subprograms should not be construed to dictate an organizational structure for the district's programs, departments, classes, etc. Rather, they enable the district to identify the cost elements which may be combined as the district sees fit. In each major program category, an "xx90" series has been added for "other" for use at the district's discretion. The use of any unassigned codes other than the "xx90" series is not advisable, as those codes are reserved for possible future designation by CDE.

- Instructional supplies and materials used in the classroom should be coded to the appropriate instructional program, not to central administration or other support services.
- Training for teachers should not be coded to an instructional program, but to 2213, Instructional Staff Training Services.

Elementary school and middle school instructional program costs may be reported by subject or, alternatively, may be reported by general education programs 0010 General Elementary Education and 0020 General Middle School Education or by general education programs 0060 through 0090. A district should choose whichever level of detail is appropriate based upon local reporting needs for the elementary and middle school levels. In order to produce an apples-to-apples comparison, CDE will use location codes to aggregate instructional program data reported for elementary and middle schools regardless of whether these data are reported by subject or by a general education program such as 0070 Gifted and Talented or 0080 General Instructional Media.

High school instructional program expenditures must be reported by subject, to include salaries and benefits and all costs related to the program, for high school level only. High school program costs by subject may be recorded using actual expenditure amounts or using costs which are determined by any reasonable method of allocation based actual costs. The use of program code 0030 General High School Education is restricted to those limited instances in which there is no feasible way of allocating instructional costs by subject. An example of such a cost that appropriately can be coded to 0030 is substitute teacher costs.

Instructional programs range from 0010 to 2099. For a quick overview of instructional program codes, see Appendix I, "Instructional Program Codes in Brief."

## General Instructional Programs

- 0010 General Elementary Education.** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the elementary school. Typically, this classification includes students from Kindergarten through grades 5 or 6. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0018 Kindergarten through Eighth Grade (K-8).** Planned learning activities and experiences that are provided for students in the setting identified by the school district as a K-8 school. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0020 General Middle/Junior High School Education.** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the middle or junior high school. Typically, this classification includes students from grades 6 or 7 through grades 8 or 9. Alternatively, instructional costs for these students can be coded using subject program codes.
- 0030 General High School Education (*subject to exceptions*).** Planned learning activities and experiences that are provided for students in the setting identified by the school district as the high school. Typically, this classification includes students from grades 9 or 10 through grade 12. Instructional costs for these students **MUST BE CODED TO SUBJECT PROGRAM CODES 0100 THROUGH 2099**. Exceptions to this rule: general instructional program codes 0050 through 0090 may be used if more appropriate; and, program 0030 may be used when there is no feasible way to allocate instructional costs by subject. For instance, high school substitute costs may be coded to program 0030. Also, supplies which are purchased “in common” for the benefit of multiple programs may be coded to program 0030. However, severance payments must **NOT** be coded to program 0030; rather, severance payments are coded to program 0090.
- 0040 General Preschool Education.** Planned learning activities and experiences that are provided for preschool students. Typically, these instructional costs help preschool students develop skills for later success in Kindergarten. Day care costs should **NOT** be charged here; rather, day care costs should be coded to support program 3200 or 3300 series.
- 0050 General Post-Secondary Education for K-12 Students.** Costs associated with K-12 students taking instructional course work at an institution of higher learning such as a community college. Scholarships awarded to students to pursue post-secondary educational opportunities may be charged here. Instructional costs associated with students attending the district’s career and technical schools should **NOT** be coded to program 0050. Rather, instructional career and technical costs are charged to subject program codes 0100 through 2099 for K-12 students and to support program codes in the 3400 series for adult students.
- 0051 Programs for Adult/Continuing.** A program for adults and out of school youth (typically 16 years of age and older who are not regularly enrolled in school) who have completed, interrupted or not begun their formal education and are pursuing skills or knowledge in other than regularly prescribed courses. These include adult basic programs and other programs that have as their purpose the upgrading or retraining of occupational skills, the pursuit of special interests or enrichment.

[Return to the Table of Contents](#)

---

- 0060 General Integrated Education.** Includes planned learning activities and experiences that are provided for students of multiple levels and/or that combine multiple subject areas. An example is a technical research and writing class that cannot be appropriately coded as a writing class nor as a science class since it involves both subject areas.
- 0070 Gifted and Talented Education.** Programs for pupils who have been identified by professionally qualified personnel as being gifted and talented in areas such as academic subjects, fine arts and career and technical areas. Instructional costs for Advanced Placement classes should NOT be coded to program 0070 but, rather, should be coded to the appropriate subject or general education program.
- 0080 General Instructional Media.** Includes planned learning activities and experiences for students which involve the use of media resources. Management and supervision costs of running and maintaining media centers should NOT be charged to instructional program 0080 but, rather, should be charged to the support program 2220 series.
- 0090 Other General Education.** Includes any general education expenditures not categorized above. Severance payments to teachers must be charged to this program and NOT to a subject program code. Severance payments to support staff must be coded to program 2900.

## High School Instructional Programs

Required for High School Instruction. *Optional for other grade levels.*

► As of FY2024-2025 the Instruction programs 0100-1699 are consolidated to the primary purpose for the program and an 'Other' classification. See Appendix I and I-2 for additional information.

**0100 Agriculture.** Agriculture is comprised of the group of related courses or units of subject matter which are organized for carrying on learning experiences concerned with preparation for or upgrading in occupations requiring knowledge and skills in agriculture production, agricultural supplies, agricultural mechanization, agricultural products (processing) ornamental horticulture, forestry and agricultural resources. The services related to agriculture are emphasized in the instruction to provide opportunities for pupils to improve their competencies in agricultural occupations. An agricultural occupation may include one or any combination of these programs. Included in this subject-matter area are the items of information which identify various aspects of agriculture.

0190 Other Agriculture. Include here other organized subject matter and experiences emphasized in agriculture which are not listed or classifiable in one of the above categories.

**0200 Art.** Art is comprised of the organized body of subject matter or related courses involving visual, tactile and kinesthetic expression and the history of art.

0290 Other Art. Include here other organized subject matter and experiences emphasized in art which are not listed or classifiable under one of the major categories above, including emerging art concepts.

**0300 Business.** Business includes the body of related subject matter or related courses and planned learning experiences which are designed to develop in pupils the attitudes, knowledge, skills and understanding concerned with business principles and practices having applications for personal use and/or activities in the business world. Business also includes a wide variety of aspects of general education (e.g., subject matter from other subject areas such as English (language arts), social sciences/social studies and mathematics).

0390 Other Business Courses. Include here other organized subject matter and activities which are not classified above.

**0400 Distributive/Marketing Education.** Distributive education includes various combinations of subject matter and learning experiences related to the performance of activities that direct the flow of goods and services, including their appropriate utilization from the producer to the consumer or user. These activities include selling and such sales supporting functions as buying, transporting, storing, promoting, financing, marketing research and management. Distributive education is comprised of programs of occupational instruction in the field of distribution and marketing. These programs are designed to prepare individuals to enter or progress or improve competencies in distributive occupations.

Emphasis is on the development of attitudes, skills and understanding related to marketing, merchandising and management. Instruction is offered at the secondary, post-secondary and adult education levels and is structured to meet the requirements of gainful employment and entrepreneurship at specified occupational levels. Distributive occupations are found in such areas of economic activity as

[Return to the Table of Contents](#)

---

retail and wholesale trade, finance, insurance, real estate, services and service trades, manufacturing, transportation, utilities and communications.

0490 Other Distributive Education. Include here other organized subject matter and activities emphasized in distributive education not listed above or classifiable in one of the above major categories.

**0500 English Language Arts.** English language arts is comprised of the body of related subject matter or the body of related courses organized for carrying on learning experiences concerned with developing (1) an understanding of the language system, (2) proficiency and control in the use of the English language, (3) appreciation of a variety of literary forms, (4) understanding and appreciation of various aspects of past and present cultures as expressed in literature and (5) interests which will motivate lifelong learning.

0590 Other English Language Arts. Include here other organized subject matters and experiences emphasized in English language arts which are not listed above.

**0600 Foreign Languages.** The body of subject matter in this area is comprised of a variety of foreign languages, including English as a foreign language. Classified under this heading are the various classical and modern languages. Usually the activities involved in teaching and learning of a foreign language are planned in terms of selected objectives: (1) to assist the pupil in acquiring progressive proficiency in the control of the skills of listening comprehension, speaking, reading and writing and the skills in structural analysis; (2) to develop the pupil's capacity to apply these acquired skills in understanding, analyzing and interpreting a variety of forms of past and current thought; and (3) to increase the pupil's knowledge and understanding of the countries, cultures and attitudes of the peoples whose language is being learned.

► 0650 English Language Learners (ELL) Activities concerned with English Language Learners (ELL) - a student who is limited-English-proficient. Primary languages of the student may include Spanish, Vietnamese, Arabic, Karen, Burmese, Somali, Amharic, Russian or Nepali.

0690 Other Foreign Languages.

**0700 Health Occupations Education.** Education for health occupations comprises the body of related subject matter or the body of related courses and planned experiences designed to impart knowledge and develop understanding and skills required to support the health professions. Instruction is organized to prepare pupils for occupational objectives concerned with assisting qualified personnel in providing diagnostic, therapeutic, preventive, restorative and rehabilitative services to people, including understanding and skills essential to provide care and health services to patients.

Education for health workers usually is conducted by recognized education agencies and appropriate health institutions and services that can make available the quality and kind of experiences needed by the trainee in developing the competencies required for his occupational goal.

Instructional programs which prepare persons for occupations that render health services directly to patients provide planned instruction and experience in appropriate clinical situations. For occupations that render health services which do not involve direct services to patients, planned instruction and experience in laboratories and/or appropriate work situations are provided as an integral part of the instructional program.

## Support Service Program

Support service programs are those activities which facilitate and enhance instruction. Support services include school-based and general administrative functions and centralized operations for the benefit of students, instructional staff, other staff and the community.

Staff training for instructional staff is coded to 2213 – Instructional Staff Training Services. Other licensed staff training is coded to the program related to the specific employee (e.g., 2120 for counselors, 2400 for school administrators). Non-licensed staff training generally is coded to program 2834, except for transportation (2700) and food service (3100) or may be coded to a support program related to the specific employee (e.g., 2400 for school administration, 2600 for maintenance workers). Mileage related to training should be charged to the same program used for the training.

**2100 Support Services – Students.** Activities designed to assess and improve the well-being of students and to supplement the teaching process. These services pertain to interaction between students and teachers by designing the educational program for the needs of individual students.

2110 Attendance and Social Work Services. Activities designed to improve student attendance at school and which attempt to prevent or solve student problems involving home, school and community. Registration activities for adult education programs are included here.

2111 Supervision of Attendance and Social Work Services. The activities associated with directing, managing and supervising attendance and social work.

2112 Attendance Services. Activities such as promptly identifying nonattendance patterns, promoting improved attitudes toward attendance, analyzing causes of nonattendance, acting early on nonattendance problems and enforcing compulsory attendance laws.

2113 Social Work Services. Activities such as investigating and diagnosing student problems arising out of the home, school or community; providing casework and group work services for the child, parent or both; interpreting the problems of students for other staff members; and, promoting modification of the circumstances surrounding the individual student which are related to his or her problem.

2114 Student Accounting Services. Activities of acquiring and maintaining records of school attendance, location of home, family characteristics and census data. Portions of these records become a part of the cumulative record which is sorted and stored for teacher and guidance information. Pertinent statistical reports are prepared under this program as well.

2119 Other Attendance and Social Work Services. Attendance and social work services other than those described above.

2120 Guidance Services. Activities involving counseling with students and parents; consulting with other staff members on learning problems; evaluating the abilities of students; assisting students as they make their own educational and career plans and choices; assisting students in personal and social development; providing referral assistance; and, working with other staff members in planning and conducting guidance programs for students.

- 2121 Supervision of Guidance Services. Activities associated with directing, managing and supervising guidance services.
- 2122 Counseling Services. Activities concerned with the relationship between one or more counselors and one or more students as counselees, between students and students and between counselors and other staff members. These activities are to help the student understand his or her educational, personal and occupational strengths and limitations; relate his or her abilities, emotions and aptitudes to educational and career opportunities; utilize his or her abilities in formulating realistic plans; and achieve satisfying personal and social development.
- 2123 Appraisal Services. Activities that assess student characteristics, that are used in administration, instruction and guidance and assist the student in assessing his or her purposes and progress in career and personality development.
- 2124 Information Services. Activities for disseminating educational, occupational and personal social information to help acquaint students with the curriculum and with educational, career and technical opportunities and requirements. Such information might be provided directly to students through activities such as group or individual guidance or it might be provided indirectly to students, through staff members or parents.
- 2125 Record Maintenance Services. Activities for compiling, maintaining and interpreting cumulative records of individual students, including systematic consideration of such factors as (1) home and family background, (2) physical and medical status, (3) standardized test results, (4) personal and social development and (5) school performance.
- 2126 Placement Services. Activities that help place students in appropriate situations while they are in school. These situations could be educational situations, part-time employment while they are in school and appropriate educational and occupational situations after they leave school. These activities also help ease the student's transition from one educational experience to another. The transition may require, for example, admissions counseling, referral services, assistance with records and follow-up communications with employers.
- 2129 Other Guidance Services. Guidance services which cannot be classified above.
- 2130 Health Services. Physical and mental health services which are not direct instruction. Included are activities that provide students with appropriate medical, dental and nursing services.
- 2131 Supervision of Health Services. Activities associated with directing and managing health services.

## Object/Source/Balance Sheet

---

The Object/Source/Balance Sheet is the eighth code of the account string. It is a multiple-purpose four-digit code. The first digit identifies the account type and determines the dimension and purpose. See details below.

---

First Digit.....	Account Type .....	Dimension .....	Purpose
0 .....	expenditure.....	object.....	Describes the service or commodity obtained as the result of a specific expenditure.
1 .....	revenue .....	local source .....	Describes the specific type of revenue from a local funding source.
2 .....	revenue .....	intermediate source	Describes the specific type of revenue from an intermediate funding source.
3 .....	revenue .....	state source .....	Describes the specific type of revenue from a state funding source.
4 .....	revenue .....	federal source.....	Describes the specific type of revenue from a federal funding source.
5 .....	revenue .....	other source .....	Describes the specific type of revenue from other funding sources.
6 .....	balance sheet.....	equity.....	Equity accounts such as fund balance and retained earnings.
7 .....	balance sheet .....	liability .....	Current liabilities and long-term liabilities.
8 .....	balance sheet.....	asset .....	Current assets and capital assets.

---

The following pages provide definitions for all three account types: expenditures (see OBJECT), revenues (see SOURCE), and Balance Sheet (see BALANCE SHEET).

Proper use of object codes and source codes WHEN RECORDING TRANSACTIONS INVOLVING BOCES AND CHARTER SCHOOLS ensures duplicate expenditures and revenues can be eliminated when CDE consolidates reports. See Appendix D, BOCES, and Appendix K, Charter Schools.

## Object (Expenditure)

The object dimension is used to describe the service or commodity obtained as the result of a specific expenditure. There are nine major object categories, each of which is further divided. Object definitions follow.

**0100 Salaries.** Amounts paid for personal services to both permanent and temporary school district employees, including personnel substituting for those in permanent positions. This includes gross salary for personal services rendered while on the payroll of the school district.

0110 Salaries of Regular Employees. Full-time, part-time and prorated portions of the costs for work performed by permanent employees of the school district.

0120 Salaries of Temporary Employees. Full-time, part-time and prorated portions of the costs for work performed by employees of the school district who are hired on a temporary or substitute basis.

0130 Salaries for Overtime. Amounts paid to employees of the school district in either temporary or permanent positions for work performed in addition to the normal work period for which the employee is compensated under regular salaries and temporary salaries above. The terms of such payment are subject to federal, state and local regulations and interpretation.

0140 Salaries for Leave. Amounts paid by the school district to employees on leave, such as sabbatical leave, maternity leave, etc.

0150 Additional/Extra Duty Pay/Stipend. Amounts paid to employees of the school district in either temporary or permanent positions for work performed in addition to the employee's regular work assignment. Additional/extra duty pay/stipend includes compensation for such assignments as coaching, co-curricular activity sponsorship, supplemental pay for curriculum development, for night school, etc.

0160 Post-Employment Salaries. Amounts paid to individuals who no longer are employed by the district. This includes early retirement incentive plan payments.

0190 Other Salaries.

Included are course registration fees (that are not tuition reimbursement), charges from external vendors to conduct training courses (at either school district facilities or off-site) and other expenditures associated with training or professional development by third-party vendors. All expenditures should be captured in this account regardless of the type or intent of the training course or professional development activity. Training for instructional staff should be coded to function 2213. Training for other staff should be coded to the function of the employee.
  
- 0390 Other Purchased Professional and Technical Services

[Return to the Table of Contents](#)

**0400 Purchased Property Services.** Services purchased to operate, repair, maintain and rent property owned or used by the school district. These services are performed by persons other than school district employees. While a product may or may not result from the transaction, the primary reason for the purchase is the service provided.

0410 Utility Services. Expenditures for utility services other than energy services supplied by public or private organizations. Water and sewer services are included here. Telephone and telegraph are not included here but are classified under object 0530 (or 0500). Energy services are classified under object 0620 (or 0600).

0411 Water/Sewage.

0420 Cleaning Services. Services purchased for cleaning (apart from services provided by school district employees).

0421 Disposal Services. Expenditures for garbage pickup and handling, including composting and recycling, not provided by school district personnel.

0422 Snow Removal Services. Expenditures for snow removal not provided by school district personnel.

0423 Custodial Services. Expenditures to an outside contractor for custodial services.

0424 Lawn Care. Expenditures for lawn and grounds upkeep, minor landscaping, nursery services, etc., not provided by school district personnel.

0425 Laundry Services.

**0430 Repairs and Maintenance Services.** Expenditures for repairs and maintenance services not provided directly by school district personnel. These include contracts and agreements covering the upkeep of buildings and equipment. Note: This is considered an Instructional Supply/Material code for repairs and maintenance of Instructional Equipment ONLY when it is coded with an Instructional Program Code (0001 through 2099).

0431 Non-technology Related Repairs and Maintenance. Contracts and agreements covering the upkeep of buildings and non-technology equipment. Costs for renovating and remodeling are not included here, but are classified under object 0450

0432 Technology Related Repairs and Maintenance. Expenditures for repairs and maintenance services for technology equipment that are not directly provided by school district personnel. This includes ongoing service agreements for technology hardware (e.g., personal computers and servers).

0440 Rentals. Costs for renting or short-term leasing land, buildings, equipment and vehicles.

[Return to the Table of Contents](#)

---

- 0441 Rental of Land and Buildings. Expenditures for leasing or renting land and buildings for both temporary and long-range use by the school district.
- 0442 Rental of Equipment. Expenditures for leasing or renting equipment for both temporary and long-range use of the school district. This includes machinery and equipment operated by the district, but does not include bus and other vehicle rental.  
Note: This is considered an Instructional Supply/Material code ONLY when it is coded with an Instructional Program Code.
- 0443 Rental of Vehicles. Expenditures for leasing or renting vehicles for both temporary and long-range use of the school district. This includes vehicle rentals (other than bus rentals) when operated by the school district, financed (lease)-purchase arrangements if they are not capital financing arrangements (leases) and similar rental agreements.
- 0444 Rental of Buses. Expenditures for leasing or renting buses for both temporary and long-range use of the school district. This includes bus rentals when operated by the school district, financed (lease)-purchase arrangements if they are not capital financing arrangements (leases) and similar rental agreements.
- 0445 Rental of Supplies. Expenditures for renting supplies for both temporary and long-range use of the school district. An example of a rented supply is graduation GAPS and gowns.

0450 Contractor Services. Includes amounts paid to contractors for minor renovating and remodeling facilities. Expenditures related to new construction and major renovation should be charged to object code 0722.

Note: Object codes 0451 through 0469 are available for district use.

0490 Other Purchased Property Services. Purchased property services which are not classified above. Costs for telephone and telegraph are not included here but are included in object code 0530 (or 0500).

► **0500 Other Purchased Services.** Amounts paid for services rendered by organizations or personnel not on the payroll of the school district (separate from Professional and Technical Services or Property Services). While a product may or may not result from the transaction, the primary reason for the purchase is the service provided. Note: Purchased service objects may be used to record the costs of user fees assessed against district programs by a district service provider when the district service is recorded in an internal service fund. See “Appendix P - Internal Service Funds.” For subscription-based software purchases (and short-term agreements with a term of less than one year), use object 0535. For long-term subscription-based agreements with a term of more than one year, use object code 0736).

0510 Student Transportation Services. Expenditures for transporting students to and from school and other activities. Expenditures for the rental of buses which are operated by personnel on the payroll of the school district are not recorded here but under object 0444 (or 0400).

[Return to the Table of Contents](#)

- 0511 Student Transportation Purchased WITHIN the BOCES (or Administrative Unit (AU)).** Payments to the BOCES (or AU) or other school districts within the BOCES (or AU) for transporting students to and from school and school-related events. Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”
- 0512 Student Transportation Purchased from Other Colorado Districts or BOCES (or AUs) or Charter Schools.** Payments to other Colorado school districts or BOCES (or AUs) for transporting students to and from school and school-related events. Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”
- 0513 Contracted Field Trips.** Payments for transportation of students between school and away-from-school instructional activities. Field trips conducted by district personnel cannot be coded to this purchased service object. However, object 0851 is available for charging transportation costs to district programs which benefit from transportation services. Also, costs for meals and lodging should not be coded here, but rather to object 0580.
- 0514 Student Transportation Purchased from Parents.** Payments to persons (generally parents) for transporting students to and from school. This includes payments to individuals who transport themselves.
- 0515 Student Transportation Purchased from Contractors.** Payments to contractors for transporting students to and from school and school-related events.
- 0516 Student Transportation In-service.** Payments for in-service training of student transportation staff.
- 0517 Student Transportation Purchased from School Districts Outside the State.** Payments to other school districts outside the state for transporting students to and from school and school-related events.
- 0519 Other Purchased Student Transportation.** Payments for student transportation to and from school and school-related events not classified above.
- 0520 Insurance Premiums.** Expenditures for all types of insurance coverage, including property, liability, fidelity, unemployment compensation, workers’ compensation and student insurance. Employee health benefits first must be coded to the 0200 series (Employee Benefits) with the appropriate job class code.

[Return to the Table of Contents](#)

---

- 0521 Liability Insurance. Payments for district liability insurance.
- 0522 Property Insurance. Payments for district property insurance. Object code 0522 should be used with program code 2620 (or 2600).
- 0523 Vehicle Insurance. Payments for district vehicle insurance. Object code 0523 should be used with program code 2650 (or 2600), 2720 (or 2700) or 3130 (or 3100).
- 0524 Fidelity Insurance. Payments for district fidelity bond premiums. Object code 0524 should be used with program code 2850 (or 2800).
- 0525 Unemployment Compensation Insurance. Payments for unemployment compensation coverage. Object code 0525 should be used with program code 2850 (or 2800). Do not use this code if Object Code 0215 (Unemployment) is used.
- 0526 Workers' Compensation Insurance. Payments for workers' compensation insurance. Object code 0526 should be used with program code 2850 (or 2800). Do not use this code if Object Code 0216 (Worker's Compensation) is used.
- 0527 District Multiple-Coverage Insurance and/or Other District Insurance. Payments for district multiple-coverage insurance or other district insurance not listed in other object codes 0520-0528. The primary program code to use for this object code is 2850 (2800), however, other programs may be used for "other district insurance", if necessary.
- 0528 District Student Insurance. Payments for district student insurance. Object code 0528 should be used with program code 2850 (or 2800).
- 0529 Contra Account Object for Offset of Internal Service Fund(s) Revenue.** Used to record negative expenditures as an offset to the contra source code (1979) for internal service activity expenditures that would equal the total revenue reported in source codes "1973-1978". The appropriate Program Code could also be used if expenditures were to be contra to various program expenditures.

Note: The purpose of this contra account is to provide a process to eliminate expenditures related to the revenue received as a result of expenditures for services purchased by other funds.

- ▶ 0530 Communications. Services provided by persons or businesses to assist in transmitting and receiving messages or information. This category includes telephone and voice communication services; data communication services to establish or maintain computer-based communications, networking and Internet services; video communications services to establish or maintain one-way or two-way video communications via satellite, cable or other devices; postal communications services to establish or maintain postage machine rentals, postage, express delivery services and couriers. Expenditures for software, both 'downloaded' and 'off-the-shelf,' should be coded to objects 0650 or 0735. Expenditures for subscription-based software purchases (and short-term agreements with a term of less than one year), use object 0535. For long-term subscription-based agreements with a term of more than one year, use object code 0736.
- ▶ 0535 Subscription Based Software (short term agreement). Used to account for short-term (year-to-year agreement) or small amount software licensing agreements not subject to GASB 96 - SBITA

[Return to the Table of Contents](#)

0540 Advertising. Expenditures for announcements in professional publications, newspapers or broadcasts over radio and television. These expenditures include advertising for such purposes as personnel recruitment, legal ads, new and used equipment and sale of property. Costs for professional advertising or public relations services are not recorded here but are charged to object 0330 (or 0300).

0550 Printing and Binding Expenditures for job printing and binding, usually according to specifications of the school district. This includes designing and printing forms and posters as well as printing and binding school district publications. Preprinted standard forms are not charged here, but are coded under object code 0610.

Note: Object 0550 may be used to record the costs of user fees assessed against district programs by a district print shop when the district print shop is recorded in an internal service fund. See Appendix P, Internal Service Funds.”

0560 Tuition. Contracted expenditures to reimburse other educational agencies for instructional services to students residing in the legal boundaries described for the paying school district.

**0561 Tuition Paid WITHIN the BOCES (or AU).** Tuition paid to the BOCES (or AU) or other school districts within the BOCES (or AU). Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”

**0562 Tuition Paid to Other Colorado Districts or BOCES (or AUs) or Charter Schools.** Tuition paid to other Colorado school districts or BOCES (or AUs). Include here payments made to other school districts for billings associated with educational services provided at state juvenile detention centers. Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”

**0563 Tuition to School Districts Outside the State.** Tuition paid to other school districts and BOCES outside the State.

**0564 Tuition to Private Sources.** Tuition paid to private schools or non-approved agencies.

**0565 Tuition to Agencies with Colorado Department of Education-Approved Rates.** Excess costs for out-of-district placed pupils.

**0566 Tuition – Audit finding.** This Object Code should now be used only for positive or negative adjustments to previous Out of District withholdings due to Colorado Department of Education (CDE) audit findings.

**0569 Tuition – Other.** Tuition paid to the state and other governmental organizations as reimbursement for providing specialized instructional services to students residing within the boundaries of the paying school district. Tuition to agencies with Colorado Department of Education-approved rates should not be reported with Code 0569, but rather should be reported with Code 0565.

0570 Food Service Management. Expenditures for the operation of a local food service facility by other than employees of the school district. Included are contracted services being provided by the Food Service Management Company for administrative and management fees, labor and indirect costs being charged by them. All other expenses (e.g., food, paper, cleaning supplies, etc.) are to be broken out by appropriate object codes, such as 0630 for food).

**0572 Fixed Fee Contracts.** Fixed fee contracts for food service – to be used by those Districts who are paying an outside vendor a fixed fee for their food service costs. In this case, the invoiced amount for charges per meal would be coded to this object.

► **0580 Travel, Registration and Entrance.** Expenditures for transportation to & from airports & conferences, meals, lodging and other expenses associated with travel for the school district. Payments for per diem in lieu of reimbursements for subsistence (room and board) are also charged here. Travel costs associated with field trips are coded here except internal transportation costs which must be coded to object 0851 if provided by district-operated transportation services or to object 0513 if contracted or chartered. Only food/meal costs reimbursed with travel expenses should be coded here.

- Non-travel related food: Food purchased for staff, students or the public during meetings and student activities should be coded to 0615 (Food - Other). Food purchased for operations of food services should be coded to 0630.

0581 In-state travel, registration and entrance. Expenditures for travel and registration fees within the state.

0582 Out-of-state travel, registration and entrance. Expenditures for travel and registration fees outside the state.

0583 Mileage Reimbursement. Reimbursement for miles traveled while on business for the school district.

Note: Object codes 0584 through 0589 are available for district use.

0590 Other Purchased Services. Purchased services other than those described above. Any interdistrict payments other than tuition and transportation should be classified here.

**0591 Services Purchased WITHIN the BOCES (or AU).** Payments to the BOCES (or AU) or other school districts within the BOCES (or AU) for services other than tuition or transportation. Examples of such services are data processing, purchasing, nursing and guidance, assessment and membership costs. Tuition must be reported with object 0561. Transportation must be reported with object 0511. Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”

[Return to the Table of Contents](#)

- 0592 Services Purchased from Other Colorado Districts or BOCES (or AUs) or Charter Schools.** Payments to other Colorado school districts or BOCES (or AUs) for services other than tuition or transportation. Examples of such services are data processing, purchasing, nursing and guidance. Tuition must be reported with object 0562. Transportation must be reported with object 0512. Use of this code when appropriate ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”
- 0593 Services Purchased from School Districts Outside the State.** Payments to school districts outside the state for services other than tuition or transportation. Examples of such services are data processing, purchasing, nursing and guidance.
- **0594 Purchased Services from Districts by Charter Schools.** This is the purchased service code to be used for purchased services between districts and charter schools in all program areas. Example: Program 2100, Object 0594 would be used to purchase General Administration Services. Offset to Source Codes 1954, 3954, 4954 and 5954.
- 0595 Purchased Administrative Overhead Costs not to exceed 5% by Charter Schools.** See Appendix K-2
- 0596 Purchased Services from Charter School Food Authority and its’ Related Schools.** This is the purchased service code to be used for purchased services between the Charter School Food Authority and its related schools in the 3100 Food Services Operations program area. Offset to Source Codes 1956, 3956 and 4956, used with the appropriate grant code, which may be zero.
- 0597 Purchased Services by Charter Schools: 1% Institute Charter School Fund.** Purchased service code for Charter School Institute (CSI) charter schools to record the one percent withheld by CSI and transferred to the State for credit to the Institute Charter School Capital Construction Assistance Fund created in § 22-30.5-515.5, C.R.S. Offset to Source Code 1957.
- 0599 Services Purchased from Other Sources.** Payments to service providers for services not classified elsewhere in the object 0500 series.
- 0600 Supplies.** Amounts paid for items that are consumed, worn out or deteriorated through use; or items that lose their identity through fabrication or incorporation into different or more complex units or substances. Items that do not contribute to a district’s capital assets, as evaluated by the district’s capital assets policy, may be coded as supply items or may be coded as 0735, Non-Capital Equipment. Items that contribute to a district’s capital assets must be coded as equipment items in the 0700 series.
- 0610 General Supplies.** Expenditures for purchase of all supplies (other than those listed below) for the operation of a school district, including freight and cartage for the delivery of these supplies.
- **0615 Food outside of Food Services Program.** Food provided for staff, students or the public during meetings, student activities, lesson plans etc. Food used in the food service program should be coded to 0630. Food purchased during travel should be coded to 0580-0589.

[Return to the Table of Contents](#)

Note: Object codes 0611-0614, 0616-0619 are available for district use.

0620 Energy. Expenditures for energy, including gas, oil, coal, gasoline and services received from public and private utility companies.

0621 Natural Gas. Expenditures for gas utility services from a private or public utility company.

0622 Electricity. Expenditures for electric utility services from private or public utility company.

0623 Bottled Gas. Expenditures for bottled gas, such as propane gas received in tanks.

0624 Oil. Expenditures for bulk oil normally used for heating.

0625 Coal. Expenditures for raw coal normally used for heating.

0626 Motor Vehicle Fuels. Expenditures for gasoline, diesel, propane and other fuels for use in motor vehicles.

0629 Other. Expenditures for energy that cannot be classified in one of the foregoing categories

► **0630 Food.** (BOLD for Food Services Fund only.) This code is used for purchased food and milk. This will also include any costs to process USDA Donated Food into alternate end products through commodity processing contracts. Food purchased for staff, students or the public during meetings, student activities should be coded to 0615. Food purchased during travel should be coded to 0580-0589.

**0632 USDA Donated Food Fees.** Used for fees associated with USDA Donated Foods (Commodity) acquisition. This would include delivery fees from the distributor, administrative fees for CDHS and commodity storage fees. Commodity processing fees are to be coded as Food: 0630

**0633 USDA Donated Foods.** (BOLD for Food Services Fund only.) Whether or not the district inventories USDA Donated Foods (Commodity) separately, this code must be used to record the value of USDA Donated Foods. These amounts may be expensed as they are received throughout the year or at the end of the year on a one-time, annualized basis.

Note: Object codes 0631 and 0634- 0639 are available for district use.

**0640 Books and Periodicals.** Expenditures for books, textbooks and periodicals prescribed and available for general use, including library and reference books. This category includes the cost of workbooks, textbook binding or repairs, as well as textbooks which are purchased to be resold or rented. Also recorded here are costs of binding or other repairs to school library books.

Note: Object codes 0641 through 0649 are available for district use.

0650 Electronic Media Materials. Technology-related supplies include supplies that are typically used in conjunction with technology-related hardware or software. Some examples are CDs, flash or jump drives, parallel cables and monitor stands. Software costs below the capitalization threshold should be reported here. Licenses and fees for services such as subscriptions to research materials over the Internet should be reported under 0530 Communications.

Note: Object codes 0651 through 0689 are available for district use.

[Return to the Table of Contents](#)

---

0690 Other Supplies.

Note: Object codes 0691 through 0699 are available for district use.

**0700 Property.** Expenditures for acquiring capital assets, including land or existing buildings; improvements of grounds; initial equipment; additional equipment; and replacement of equipment. Items that do not contribute to a district's capital assets, as evaluated by the district's capital assets policy, may be coded as supply items or, alternatively, such items may be coded as 0735, Non-Capital Equipment.

**0710 Land and Improvements.** Expenditures for the original purchase of land and the original improvements thereon. Purchases of air rights, mineral rights and the like are included here. Also included are special assessments against the school district for capital improvements, such as streets, curbs and drains.

Note: Object codes 0711 through 0719 are available for district use.

**0720 Buildings.** Expenditures for the acquisition of existing buildings or the contracted building of new buildings. Normally, objects in the 0720 series are used in conjunction with a program in the 4000 series. Buildings built and alterations performed by the school district's own staff are charged to objects 0100, 0200, 0610 (or 0600) and 0730, as appropriate.

**0721 Financed (Lease) Holding Improvements.** Expenditures for major permanent structural alterations and for the initial installation or additional installation in existing buildings, of heating and ventilating systems, fire protection systems and other service systems to capital financed (lease) property.

**0722 New Construction.** Expenditures for the contracted construction of buildings

**0723 Major Renovations.** Expenditures for major permanent structural alterations and for the initial installation or additional installation in existing buildings, of heating and ventilating systems, fire protection systems and other service systems to district owned buildings.

Note: Object codes 0724 through 0729 are available for district use. (Object codes 0724 through 0729 will roll to object code 0720.)

**0730 Equipment.** Expenditures for the initial and replacement items of equipment, such as machinery, furniture, fixtures and vehicles. Machinery, furniture and fixtures (including teacher desks, chairs and file cabinets), technology equipment and other equipment that are used for instructional purposes should be charged to appropriate instructional programs.

The district's capital asset policy establishes criteria for when an equipment item must be capitalized and included on the district's property inventory records. Usually this criteria requires equipment costing above a certain dollar amount to be capitalized. Capitalized equipment must be coded with an object 0730 through 0734 or 0736 through 0739. Equipment that does not meet the criteria for capitalization (usually below a dollar amount requiring capitalization) may be coded with object 0735 or in the object 0600 Supplies series.

[Return to the Table of Contents](#)

---

- 0731 Machinery. Expenditures for equipment usually composed of a complex combination of parts (excluding vehicles). Examples are lathes, drill presses, printing presses, microscopes, etc.
- 0732 Vehicles.** Expenditures for vehicles which are licensed that are used to transport persons or objects. Examples are automobiles, trucks, buses, station wagons and vans.
- 0733 Furniture and Fixtures. Expenditures for equipment used for sitting; as a support for writing and work activities; and, a storage space for material items.
- 0734 Technology Equipment. Expenditures for computers and other technology equipment. Examples are computers, laser printers, CD ROM equipment, VCRs, Software, etc.
- 0735 Non-Capital Equipment.** Expenditures for items classified as equipment, but costing less than the district policy for capital assets inventory. Alternatively, non-capital equipment may be coded as a supply to an object in the 0600 series.
- ▶ 0736 Subscription Based Software (long term agreement) – Used to record the initial total amount of software licensing agreements subject to GASB 96 – SBITA
- 0739 Other Equipment. Expenditures for all other equipment not classified elsewhere in the 0730 object series.

**0740 Depreciation.** The portion of the cost of a capital asset which is charged as an expense during a particular period. In accounting for depreciation, the cost of a capital asset, less any salvage value, is apportioned over the estimated service life of such an asset and each period is charged with a portion of such cost. Through the process, the cost of the asset is ultimately charged off as an expense.

In accordance with fund accounting under GAAP, using depreciation is required in proprietary funds only.

**0745 Amortization.** A lease asset should be amortized in a systematic and rational manner over the shorter of the lease term or the useful life of the underlying asset.

In accordance with fund accounting under GAAP, using amortization is required in proprietary funds only.

0750 Loss on Disposal. The excess of net book value above the amount received (trade or cash) at disposal. This object is used in proprietary funds only.

0760 Infrastructure. Expenditures for purchased infrastructure assets by the school district. These items include water/sewer systems, roads, bridges and other assets that have significantly longer useful lives than other capital assets.

**0770 Lease.** The capital outlay related to the acquisition of a lease under GASB Statement No. 87.

0790 Other Property.

**0800 Other Objects.** Amounts paid for goods and services not otherwise classified above.

[Return to the Table of Contents](#)

---

- 0810 Dues and Fees.** Expenditures or assessments for membership in professional or other organizations. This includes any fee assessed for membership. Registration, participation or entrance to an event costs should be coded to object 0580. Fees for professional services should be charged to the appropriate 0300 series code.
- 0820 Judgments Against the School District. Expenditures from current funds for all judgments (except as indicated below) against the school district that are not covered by liability insurance, but are of a type that might have been covered by insurance. Only amounts paid as the result of court decisions are recorded here. This would include student transportation liability claims incurred and paid by the school district. Judgments against the school district resulting from failure to pay bills or debt service are recorded under the appropriate expenditure accounts as though the bills or debt service had been paid when due. The proper coding for employee disputes usually is dictated by the terms of the legal settlement (e.g., employee disputes which award compensation should be coded to salary). Code 0820 is appropriate for non-compensation post-employment settlements.
- 0830 Interest.** Expenditures for interest on debt.
- 0831 Long-term Interest.
  - 0832 Short-term Interest.
  - ▶ 0833 Interest on Leases. Interest (either paid or imputed) on Leases subject to GASB Statement No. 87, Subscription-Based Information Technology Agreements (SBITA) subject to GASB Statement No. 96 and other lease interest. (See Appendix L)
  - 0839 Other Interest.
- 0840 Contingency. This account is provided for budgeting purposes only. Expenditures to be paid from the contingency should be charged to the appropriate program and object classification.
- 0850 Internal Charge/Reimbursement Accounts.** Object codes in this series allow a district to charge costs associated with student field trips, maintenance and other internal services to the programs which benefit from the services. Districts are not required to charge back internal services. Objects 0850 through 0859 will net to zero district-wide. See Appendix E, "Internal Charge Reimbursement Accounts." Internal Charge/Reimbursement Account codes are not used in an internal service fund; rather, internal service fund user fees (charge backs) are coded to sources 1973 through 1979.
- 0851 Transportation/Field trips.** Meals and lodging related to field trips must not be coded here, but rather to object 0580.
  - 0852 Maintenance.**
  - 0853 Technology/MIS.**
  - 0854 Printing/Duplicating.**
  - 0855 School-wide Plan Distribution.** (For use by districts with Consolidated School-wide plans only) See Appendix T, "Consolidated School wide Accounting"

Note: Object codes 0856 through 0859 are available for district use.

[Return to the Table of Contents](#)

---

**0860** Miscellaneous Internal Charge Accounts. Accounts in this series, like in the 0850 series, are used to charge back internal services to programs which benefit from the services. However, districts may choose to recognize revenue rather than abate expenditures. See Appendix J, “Revenue vs. Abatement.” Thus, objects in the 0860 series do not necessarily net to zero.

Note: Object codes 0860 through 0867 are reserved for possible future designation by CDE.

**0868 Overhead Costs.** Used with non-federal grants/projects.

**0869 Indirect Costs.** Used with federal grants/projects.

Note: Districts may choose to record indirect costs and overhead costs either as expenditures and revenues or as abatements. If the expenditure/revenue method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for expenditures and source 1972 (indirect costs) or source 1971 (overhead costs) must be used for revenues. If the abatement method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for both debits and credits. The choice of appropriate program codes is left to the district. See Appendix G, “Indirect Costs.”

**0870** Scholarship Awards. Amounts paid for scholarships awarded to students to pursue post-secondary educational opportunities.

**0890** Miscellaneous Expenditures. Amounts paid for goods or services not properly classified in one of the objects included above. Payments for refunds of prior year revenues are charged to this account. However, do not report here any adjustments made through Colorado Department of Education audits. Audit adjustments are recorded as adjustments to revenue (see Revenue Sources 3200).

**0900 Other Uses of Funds.** This series of codes is used to classify transactions which are not properly recorded as expenditures to the school district but require budgetary or accounting control. These include redemption of principal and interest on long-term debt, housing authority obligations and fund transfers.

**0910 Redemption of Principal.** Outlays from current funds to retire serial bonds and long-term loans.

Note: object codes 0910 through 0919, except for 0913, should only be used for voter approved debt

0911 Long-term Principal.

0912 Short-term Principal.

► **0913 Principal on Financing Arrangements.** Principal portion of payments made for capital financing, Subscription-Based Information Technology Agreements (SBITA), Certificates of Participation activity and non-voter approved debt. See Appendix L, “Capital Leases,” or “Leases, after GASB Statement No. 87” or GASB Statement No. 96 CDE Fact Sheet on SBITA agreements for additional information.

0919 Other Principal.

**0920** Housing Authority Obligations. Outlays from current funds to satisfy housing authority obligation of the school district. A public school housing authority is a public or quasi-public corporation having power to issue authority bonds for public school purposes, construct public school buildings, lease public school buildings to local public school administrative units or transfer title to such units. All expenditures of this nature are classified in this category.

[Return to the Table of Contents](#)

---

- 0940** Payments to Escrow Agents. Payments made to institutions through escrow agents acting on behalf of the school district.
- 0950** Initial Outlay from Lease (Which is not Capital Outlay). Initial payments made by the school district from leases which do not result in the acquisition of capital equipment or facilities. See Appendix L, "Capital Leases," or "Leases, after GASB Statement No. 87". For the capital outlay related to a lease acquired under GASB Statement No. 87, see object code 0770.
- 0960** **Payment to Outside Entity.** Funds that a district must send to the Colorado Division of Vocational Rehabilitation (DVR). This payment supports the DVR request for federal government grant award dollars that will be provided to the district. School to Work Alliance Program (SWAP) is the state grant program with this type of arrangement. Note: The appropriate grant/project code of 3130 must be used in conjunction with this object code.
- 0970** **Special Items.** This code is used to classify special items in accordance with GASB Statement 34. Included are transactions or events within the control of the school district administration that are either unusual in nature or infrequent in occurrence. For some districts, this may include termination benefits resulting from workforce reductions; or costs in connection with an early retirement program offered to all employees represented in one or more classes of employees. Special items may also include events that are not within the control of the district. In the governmental funds, these items should be separately captioned or disclosed.
- 0971** **Extraordinary Items.** This code is used to classify items in accordance with APB Opinion No. 30 which are transactions or events that are both unusual in nature and infrequent in occurrence. For some districts, this may include significant costs related to a natural disaster caused by fire, flood, tornado, hurricane or hail storm; or costs related to an environmental disaster.
- 0990** Other Miscellaneous Uses of Funds.

## Source (Revenue)

The source dimension is used to describe the funding origin (source) and type of revenue. The first digit of the source code identifies the major source of revenue as local, intermediate, state, federal or other. These five major sources of revenue are described below.

- 1. Local Sources.** Revenue from local sources is the amount of money produced within the boundaries of the school district and available to the district for its use. Money collected by another governmental unit as an agent of the school district is recorded as revenue from local sources.
- 2. Intermediate Sources.** Revenue from intermediate sources is revenue distributed by counties, cities and other intermediate sources. In Colorado, the most common intermediate source is the county.
- 3. State Sources.** Revenue from state sources is revenue from funds collected by the state government and distributed to school districts.
- 4. Federal Sources.** Revenue from federal sources is revenue from funds collected by the federal government and distributed to school districts. In determining whether revenue is federal revenue, it is unimportant whether the funds are distributed directly to the school district directly from the Federal Government or through some intervening agency (pass-through entity) such as the Colorado Department of Education or other state agency.

When a school district does not have a method for determining the prorated share of federal, state and other sources of revenue in a commingled grant, the distributing agency should provide this information to the school district.

- 5. Other Sources.** This classification includes “other sources” which constitute fund revenues in a strict fund accounting context, but are not considered revenues to the school district. They include proceeds from long-term debt and the receipt of interfund transfers.

Each of the five major sources of revenue is divided into detailed source codes to provide information about the specific type of revenue. Source code definitions follow.

### Revenue from Local Sources

1000 Revenue from Local Sources.

- 1100 Taxes.** Compulsory charges levied by a government to finance services performed for the common benefit.
- 1110 Property Taxes.** Taxes from levies against the valuation for assessment of all taxable property located within the boundaries of the school district.
- 1120 Specific Ownership Taxes.** Taxes imposed upon certain classified personal property, such as motor vehicles, which tax is computed in accordance with state schedules applicable to each sale of personal property.

---

**1130 Sales and Use Taxes.** Taxes from sales and use of goods, materials and services.

**1140 Delinquent Taxes and Penalties and Interest on Taxes.** Taxes collected during the current fiscal year which were due and payable during a previous fiscal or tax year and related penalties and interest. Negative amounts are allowed. Negative amounts are reductions of revenues, not expenditures.

1141 Abatements and Credits.

1142 Other Refunds.

Note: Source codes 1143 through 1149 are available for district use.

**1170 Amount Authorized – Voter Approved Overrides.**

**1171 Amount Collected – Voter Approved Overrides.**

**1172 Amount Distributed to Charter Schools – Voter Approved Overrides.**

**1173 Amount Distributed to Non-Charter Schools – Voter Approved Overrides.**

**1174 Amount Retained by District – Voter Approved Overrides.**

1179 Contra Account – Voter Approved Overrides

Note: Source codes 1170 – 1179 are used only with fund 90 for data collection purposes.

**1190 Other Taxes from Local Sources.** Taxes from local sources other than those classified above.

1300 Tuition. A charge for instructional services provided.

**1310 Tuition from Individuals.** Tuition for programs other than summer school and inter-term programs. Included here is tuition from individuals for preschool programs.

**1311 Summer School and Inter-Term Tuition from Individuals.** Tuition from individuals for summer school and inter-term programs. All other tuition from individuals should be recorded with source 1310.

1320 Tuition from Other School Districts and BOCES Within the State. Tuition from other school districts and BOCES within the state for instructional services provided. This account includes: revenue received from CDE for out-of-district placed pupils and from other districts for excess costs for special education students; and, revenue received for tuition from other Colorado public school districts and BOCES.

**1321 Tuition from WITHIN the BOCES (or Administrative Unit (AU)).** Tuition from the BOCES (or AU) or school districts within the BOCES (or AU) for instructional services provided by the district or BOCES. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”

[Return to the Table of Contents](#)

---

- 1322 Tuition from Other Colorado Districts or BOCES (or AUs).** Tuition from a Colorado school district or BOCES (or AU) outside the BOCES (or AU) for instructional services provided by the district or BOCES. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Include here revenues received from other school districts for billings associated with educational services provided at state juvenile detention centers. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at state and federal levels. See Appendix D, “BOCES.”
- 1323 Tuition from Excess Costs.** Revenue received from other districts for excess costs of educational services provided to special education students.
- 1324 Tuition from CDE for Out-of-District Placed Pupils.** Only use for positive or negative adjustments to revenue received due to Colorado Department of Education (CDE) audit findings.
- 1330 Tuition from School Districts Outside the State.** Tuition from school districts outside the state for instructional services provided.
- 1340 Tuition from Other Sources.** Tuition from welfare agencies and private sources for educational services provided.
- 1400 Transportation Fees. Fees generated by providing transportation services.
- 1410 Transportation Fees from Individuals.** Fees from individuals for transporting students to and from school.
- 1411 Transportation Fees from Individuals for Activities.** Fees from individuals for transporting students to and from school activities.
- 1420 Transportation Fees from Other School Districts and BOCES (or AUs) within the State. Fees from other school districts and BOCES within the state for transporting students to and from school or activities.
- 1421 Transportation Fees from WITHIN the BOCES (or AU).** Fees received from the BOCES (or AU) or school districts within the BOCES (or AU) for transportation services provided by the district or BOCES. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts at state and federal levels. See Appendix D, “BOCES.”
- 1422 Transportation Fees from Other Colorado Districts or BOCES (or AUs).** Fees from a Colorado school district or BOCES (or AU) outside the BOCES (or AU) for transportation services provided by the district or BOCES. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts at state and federal levels. See Appendix D, “BOCES.”

- 1430 Transportation Fees from School Districts Outside the State.** Fees from other school districts outside the state for transporting students to and from school.
- 1440 Transportation Fees from Other Sources.** Fees from other sources such as welfare agencies and private sources for transporting students to and from school and school activities.
- 1490 Other Transportation Fees.** Other fees for transporting individuals to and from activities not classifiable above.
- 1500 Earnings on Investments.** Interest, dividends and gains or losses on the investment of available funds.
- 1510 Interest on Investments.
- 1520 Dividends on Investments.
- 1530 Gains or Losses on Sale of Investments.
- 1531 Realized Gains (losses) on Investments. Gains or losses recognized from the sale of investments. Gains represent the excess of sale proceeds over cost or any other basis of the date of the sale. Losses represent the excess of the cost or any other basis at the date of sale over sales value. For financial reporting purposes, the net of all realized and unrealized investment gains and losses should be reported as a single line in the financial statements; however, this account and the following account (1532) may be used for internal tracking purposes.
- 1532 Unrealized Gains (losses) on Investments. Gains or losses recognized from changes in value of investments. Gains represent the excess of fair value over cost or any other basis of the date of valuation. Losses represent the excess of the cost or any other basis at the date of valuation over fair value. For financial reporting purposes, the net of all realized and unrealized investment gains and losses should be reported as a single line in the financial statements; however, this account and the previous account (1531) may be used for internal tracking purposes
- 1540 Earnings on Investment(s) on Real Property.
- Note: Source codes 1541 through 1589 are available for district use.
- 1580** Investment costs applicable to the required reporting of Fiduciary activities under GASB Statement No. 84. This will normally be reported as a negative amount, to be used with the reported investment earnings to generate a Net investment earnings amount for reporting purposes for Fiduciary funds only.
- 1590 Other Earnings on Investments not classified above.
- Note: Source codes 1591 through 1599 are available for district use.
- 1600 Food Services.** Revenue from the operation of the food service program.  
NOTE: This is local revenue; federal food service revenue must be coded in the source 4000 series.

**1950 Services Provided Other Units.** Revenue for services provided by the district or BOCES to another governmental or nongovernmental unit. The source 1950 series is not used for revenue from instructional services for which the source 1320 series is used or from transportation services for which the source 1420 series is used.

**1951 Services Provided WITHIN the BOCES (or AU): Local Level.** Revenue for services provided by the district or BOCES to the BOCES (or AU) or school districts within the BOCES (or AU). Source 1951 does not include revenue from instructional services which is recognized using source 1321 and does not include revenue from transportation services which is recognized using source 1421. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at local levels. See Appendix D, “BOCES.”

**1952 Services Provided Other Colorado Districts or BOCES (or AU): Local Level.** Revenue for services provided by the district or BOCES to a Colorado school district or BOCES (or AU) outside the BOCES (or AU). Source 1952 does not include revenue from instructional services which is recognized using source 1322 and does not include revenue from transportation services which is recognized using source 1422. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at local levels. See Appendix D, “BOCES.”

**1954 Services Provided Charter School: Local Level.** Revenue for services provided between the district and district authorized charter school(s). This revenue represents funds that were already recognized as revenue:

- By the district, sent to district authorized charter school and recognized as revenue again
- By district authorized charter schools and then sent to the district as revenue again

Use of this code ensures that all intra-district payments can be eliminated when consolidating district financial data for reporting purposes. Offset to Object Code 0594.

**1956 Services Provided Charter School Food Authority: Local Level.** Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the Charter SFA or revenue received by the contracting charter schools that need to be recognized by the Charter SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. Offset to Object Code 0596, used with the appropriate grant code, which may be zero.

**1957 Services Provided Charter Schools: Institute Charter School Assistance Fund.** Source code for Charter School Institute (CSI) to record the one percent withheld from CSI charter schools and transferred to the State Treasurer for credit to the Institute Charter School Capital Construction Assistance Fund created in § 22-30.5-515.5, C.R.S. Offset to Object Code 0597.

**1959 Services Provided Other Units: Local Level.** Revenue for services provided by the district to: non-Colorado school districts; private schools; other local governmental units; and, non-governmental units. Source 1959 does not include revenue from instructional services which is recognized using the source 1300 series and does not include revenue from transportation services which is recognized using the source 1400 series.

**1960 Parking Fees.** Fees charged for the use of school district parking facilities.

**1970 Services Provided Other Funds.** Revenue internal to the district from other funds or programs for services provided. Source codes 1973 through 1979 are reserved exclusively for internal service fund revenue that is generated by user fees (charge backs).

**1971 Overhead Cost Revenue.** Revenue internal to the district which is generated by charging for costs of a general nature that cannot be readily or accurately identified with specific services. Typically, overhead costs are charged to non-grant programs for administrative and/or centralized support provided by the district.

**1972 Indirect Cost Revenue.** Revenue internal to the district which is generated by charging for costs of a general nature that cannot be readily or accurately identified with specific services. Typically, indirect costs are charged to grants for administrative and/or centralized support provided by the district.

Note: Districts may choose to record indirect costs and overhead costs either as expenditures and revenues or as abatements. If the expenditure/revenue method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for expenditures and source 1972 (indirect costs) or source 1971 (overhead costs) must be used for revenues. If the abatement method is used, object 0869 (indirect costs) or object 0868 (overhead costs) must be used for both debits and credits. The choice of appropriate program codes is left to the district. See Appendix G, "Indirect Costs."

**1973 Internal Service Revenue – Employee Benefit Premiums.** Revenue internal to the district which is generated from employee benefit premiums. This code may be used only in an internal service fund or when internal service activities are involved.

**1974 Internal Service Revenue – Risk Management.** Revenue internal to the district which is generated by charging user fees to other funds for risk management services. Employee premiums should not be charged to source 1974 but rather should be charged to source 1973. This code may be used only in the Risk-Related Activity Fund (Fund 64).

**1975 Internal Service Revenue – Print Shop.** Revenue internal to the district which is generated by charging user fees to other funds and programs for printing. This code may be used only in an internal service fund or when internal service activities are involved.

**1976 Internal Service Revenue – Technology Services.** Revenue internal to the district which is generated by charging user fees to other funds and programs for computer and other technology services. This code may be used only in an internal service fund or when internal service activities are involved.

- 1977 Internal Service Revenue – Warehouse Services.** Revenue internal to the district which is generated by charging user fees to other funds and programs for warehouse services. This code may be used only in an internal service fund or when internal service activities are involved.
- 1978 Internal Service Revenue – Other.** Revenue internal to the district which is generated by charging user fees to other funds and programs for other internal service activity. This code may be used only in an internal service fund or when internal service activities are involved.
- 1979 Internal Service Revenue – Contra Account Source for Offset of Internal Service Fund(s) Expenditures.** Used to record negative revenue as an offset to the contra object code (0529) for Internal Service Funds or when internal service activities are involved.

Note: The purpose of this contra account is to provide a process to eliminate revenue received as a result of expenditures for services purchased by other funds.

- 1980 Advertising. Revenue from sale of advertising.
- 1985 Insurance Claims. Revenue from insurance claims. Alternatively, insurance claims may be treated as reimbursements or abatements against expenditures by crediting appropriate object codes. See Appendix J, “Revenue Versus Abatement.”
- 1990 Miscellaneous Revenue. Other local revenues which are not classifiable above. (Example: E-Rate)
  - 1995 Locally generated revenue tied to Federal Grant Codes.** Typically 21st Century Grant, Adult Education and Family Literacy can generate tuition collected from fees. Source 1995 allows districts to tie this locally generated income to the Federal Grant. Should only be used when allowed by the Federal Grant.

### Revenue from Intermediate Sources

#### **2000 Revenue from Intermediate Sources.**

- 2010 Mineral Leases. Revenue from federal leases which are distributed per state statute by the county commissioners.
- 2020 Public School Lands. Revenue from the lease or rental of public land.
- 2030 Impact Fees/ Grants. Revenue from an intermediate governmental jurisdiction for the benefit of the school district, including Colorado Division of Wildlife impact assistance grants.
- 2040 Cash In Lieu of Land Dedication. Revenue from an intermediate governmental unit in lieu of land.

### Revenue from State Sources

**3000 State Revenue from the Colorado Department of Education.** Revenue from State sources that CDE sends to Districts and BOCES. ALL State revenue must be coded with both a Source Code and Grant/Project Code. These revenues will be displayed on the Grant Revenue Received Reconciliation Report within Data Pipeline.

► **3010 State Revenue from Other State Agencies or Local Agencies (other than CDE).** Revenue from a State source that is sent by a state or local agency other than CDE. ALL State revenue must be coded with both a Source and Grant/Project Code. These revenues will not be displayed on the Grant Revenue Received Reconciliation Report within Data Pipeline. Typically used with Grant codes 3950-3999, which are assigned by the District for use with State grants that are distributed through agencies other than CDE. Also includes, but not limited to grant codes 3120 (CTE), 3243 (Foster Care Transportation), 3896 (UPK), 3897 (UPK), 3898 (PERA On-behalf), 3899 (SWAP)

**3110 State Share (Equalization).** Revenue from the Public School Finance Act of 1994 (as amended).

**3111 Hold Harmless Kindergarten (no longer in use beginning July 1, 2019).** Funding provided pursuant to § 22-54-130, C.R.S., for any district that participated in the Colorado preschool program in FY 2007-08 and that served children authorized to participate in the district's preschool program through a full-day kindergarten portion of the program in FY 2007-08.

**3200 Adjustments to Categorical Revenue.** All positive or negative adjustments (besides Equalization Adjustment) due to Colorado Department of Education (CDE) audit findings (e.g., a Transportation audit finding is coded to Source 3200 with Grant Code 3160).

**3210 Equalization Adjustment.** Positive or negative adjustments to state equalization funding due to Colorado Department of Education (CDE) audit findings or district repayment/return of unused carryover ASCENT slots.

**3300 Return of State Categoricals.** Negative adjustments to state categorical programs resulting from repayments to CDE by "categorical buyout" school districts as required by § 22-54-107, C.R.S. Do not record categorical program funding repayments resulting from CDE audits; instead, such payments should be recorded in the source 3200 series.

**3400 State Revenue from other Legislative Statutory Sources.** Revenue from State sources that CDE sends to district as a result of legislative statutory initiatives that are not grant programs. These State revenues must be coded with a State source code but not a Grant/Project code.

**3401 State Revenue from Mill Levy Override match program.** Revenue from SB 22-202 State Match for Mill Levy Override revenue as dictated and appropriated annually by the State legislature.

- 3951 Services Provided WITHIN the BOCES (or AU): State Level.** Revenue for services provided by the district or BOCES to the BOCES (or AU) or school districts within the BOCES (or AU). Source 3951 does not include revenue from instructional services which is recognized using source 1321 and does not include revenue from transportation services which is recognized using source 1421. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at State levels. See Appendix D, “BOCES.”
- 3952 Services Provided Other Colorado Districts or BOCES (or AU): State Level.** Revenue for services provided by the district or BOCES to a Colorado school district or BOCES (or AU) outside the BOCES (or AU). Source 3952 does not include revenue from instructional services which is recognized using source 1322 and does not include revenue from transportation services which is recognized using source 1422. This revenue represents funds that were already recognized as revenue in another school district or BOCES. Use of this code ensures all interdistrict payments can be eliminated when consolidating reports from multiple school districts and BOCES at State levels. See Appendix D, “BOCES.”
- 3954 Services Provided Charter School: State Level.** Revenue for services provided between the district and district authorized charter school(s). This revenue represents funds that were already recognized as revenue:
- By the district, sent to the district authorized charter school and recognized as revenue again
  - By the district authorized charter school and then sent to the district and recognized as revenue again
- Use of this code ensures that all intra-district payments can be eliminated when consolidating district financial data for reporting purposes. Offset to Object Code 0594.
- 3956 Services Provided Charter School Food Authority: State Level.** Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the Charter SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. Offset to Object Code 0596, used with the appropriate grant code.
- 3959 Services Provided Other Units: State Level.** Revenue for services provided by the district to: non-Colorado school districts; private schools; other local governmental units; and, non-governmental units. Source 3959 does not include revenue from instructional services which is recognized using the source 1300 series and does not include revenue from transportation services which is recognized using the source 1400 series.

### Revenue from Federal Sources

- 4000 Federal Revenue from CDE.** Revenue from federal sources that CDE sends to districts and BOCES. ALL federal revenue must be coded with both a source code and a grant/project code. These revenues will be displayed on the Grant Revenue Received Reconciliation Report within Data Pipeline.

**5111 Refunding Bond Proceeds.** Used to segregate for reporting purposes on Federal Reports – required on F-33 Report.

**5120 Premium/Discount.**

**5121 Refunding Bond Premium/Discount.** Used to segregate for reporting purposes on Federal Reports – required on F-33 Report.

**5130 Accrued Interest.**

**5131 Refunding Bond Accrued Interest.** Used to segregate for reporting purposes on Federal Reports – required on F-33 Report.

**5200 Fund Transfers.** Transactions which withdraw money from one fund and place it in another without recourse. Unless state law prohibits, revenues should be allocated to the appropriate funds when received, rather than accepted in the general fund and later transferred. Interfund loans are not recorded here, but are handled through the balance sheet accounts. To record the debit side of a transfer, the last two digits of the source code must be used to identify the fund number of the destination fund. An example is: A transfer from the General Fund to the Food Service Fund is coded as 5221 and by nature this carries a debit balance; this is a reduction of revenue out of the General Fund. The corresponding Source code in the Food Service fund would be 5210 and carries a credit balance and is an increase in revenue. See Revised Appendix F, “Fund Transfers,” for an example. Please note that Object Code 0930 is no longer used to record the debit (expenditure) side of fund transfers.

**5300 Intergrant Transfers.** An Intergrant Transfer is a transfer of revenue, if allowed, from one grant to another in order to spend those moneys accordingly. Example: transfer Title II Part A “Teacher Quality” grant revenue (grant 4367) to Title I (grant 4010) and spend the transferred Teacher Quality money as Title I money. Transfers are not allowed with all grants (there is a list of allowable grants in Appendix F-2). See Appendix F-3 for federal set aside transfers.

► **5400 Capital Financing Proceeds.** Used to classify the acquisition of capital assets through a capital financing agreement instead of using a conventional loan process. This code will be used for Leases under GASB Statement No. 87 and Subscription-Based Information Technology Agreements (SBITA) under GASB 96.

**5500 Other Long-Term Debt Proceeds including Certificates of Participation.** Proceeds from other long-term debt instruments not captured in the preceding revenue source codes. Included here are Certificates of Participation and proceeds from Capital Financing (Leases). This code will not be used for Leases under GASB Statement No. 87 after implementation, see source code 5400 instead.

- 5700 Charter School Allocation.** Used to record the charter school per-pupil allocation that is required by 22-30.5-112(2)(a)(III)(A), C.R.S. Source code 5700 must be used to record these charter school allocations. To record the debit side of a revenue allocation, the last two digits of the source code must be used to identify the fund number of the destination fund: fund 11 for charter schools. Example: an allocation from the General Fund to the charter school fund is coded 5711 and, by nature, would carry a debit balance. The corresponding source code in the Charter School Fund is coded 5710.
- 5800 Colorado Preschool Program (if using optional fund 19).** As of FY 2023-24 Universal Preschool Program funding (UPK) will be provided from the Department of Early Childhood (DEC), FY 2022-23 is the last year funding from the Colorado Preschool Program (CPP). Therefore, as of FY 2023-24 the Preschool Allocation - use of Source code 58xx, will no longer be required. ~~Used only to record the district's CPP allocation. Source code 5800 may be used to record these CPP allocations. To record the debit side of an allocation, the last two digits of the source code must be used to identify the fund number of the destination fund: fund 19 for District CPP and Fund 11 for Charter School CPP. Example: an allocation from the General Fund (Fund 10) to the District CPP Fund 19 is coded 5819 and to the Charter School CPP fund 11 is coded 5811. The corresponding source code in the CPP Fund 19 or Fund 11 is 5810. Additional funds transferred to fund 19 should be coded using the 5200 transfer coding structure (see Appendix F). See Appendix O, "Preschool Allocations" for an example of 5800.~~
- 5900 Other Sources.** Proceeds from other sources not classified in any account listed above. Please note – 5900 is the preferred Source Code for Contributed Capital.
- **5954 Services Provided Charter School: State Level.** Revenue for bond proceeds shared between the district and district authorized charter school(s). This revenue represents funds that were already recognized as revenue:
- By the district, sent to the district authorized charter school and recognized as revenue again. Use of this code ensures that all intra-district payments can be eliminated when consolidating district financial data for reporting purposes. Offset to Object Code 0594.
- 5990 Special Items.** This account is used to classify special items in accordance with GASB. Included are transactions or events within the control of the school district administration that are either unusual in nature or infrequent in occurrence. For some districts, this may include the sale of certain general governmental capital assets; sale or lease of mineral rights, including oil and gas; sale of infrastructure assets; or significant forgiveness of debt by a financial institution. Special items may also include events that are not within the control of the district. In the governmental funds, these items should be separately captioned or disclosed.
- 5991 Extraordinary Items.** This account is used to classify items in accordance with GASB and Accounting Principles Board (APB) Opinion No. 30. Included are transactions or events that are outside the control of school district administration and are both unusual in nature and infrequent in occurrence. For some districts, this may include insurance proceeds to cover significant costs related to a natural disaster caused by fire, flood, tornado, hurricane or hail storm; insurance proceeds to cover costs related to an environmental disaster; or a large bequest to a small government by a private citizen.

## Balance Sheet

Districts must report to CDE all **BOLD** balance sheet accounts, which apply to the district. Full disclosure of a district's balance sheet accounts is required for auditing purposes.

Districts are advised to use the account structure that is defined in this section for Balance Sheet accounting to avert problems if required Balance Sheet reporting to CDE expands.

**6000 – 6709 Reserved for Colorado Department of Education use only.**

## Fund Equity

Note: CDE will combine any and all bolded balance sheet accounts from 6700 through 6999 to calculate Ending Fund Balance on the Auditor's Electronic Financial Data Integrity Check Figures Report. To report fund equity amounts, districts/BOCES must use the detailed, bolded accounts noted below.

Note: Reporting Encumbrances. For governments that use encumbrance accounting, significant encumbrances should be disclosed in the notes to the financial statements by major funds and nonmajor funds in the aggregate in conjunction with required disclosures about other significant commitments. Encumbering amounts for specific purposes for which resources already have been restricted, committed or assigned should not result in separate display of the encumbered amounts within those classifications. Encumbered amounts for specific purposes for which amounts have not been previously restricted, committed or assigned should not be classified as unassigned but, rather, should be included within committed or assigned fund balance, as appropriate, based on the definitions and criteria.

GASB Statement No. 54 – Fund Balance Reporting and Governmental Fund Type Definitions.

**6710 Non-spendable Fund Balance.** The non-spendable fund balance classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. The “not in spendable form” criterion includes items that are not expected to be converted to cash, for example, inventories and prepaid amounts. It also includes the long-term amount of loans and notes receivable, as well as property acquired for resale. The corpus (or principal) of a permanent fund is an example of an amount that is legally or contractually required to be maintained intact.

6711-6717 Available for district use and will roll to 6710.

6718-6719 Reserved for CDE use only.

**6720 Restricted Fund Balance.** Fund balance should be reported as restricted when constraints placed on the use of resources are either: (a) externally imposed by creditors (such as through debt covenants, grantors, contributors or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

**6721 Tabor 3% Emergency Reserve.**

**6722 TABOR Multi Year Obligations.**

**6726 Risk-Related / Restricted Capital Reserve.**

**6727 BEST Capital Renewal Reserve.**

**6728 Total Program Reserve.**

6729-6739 Reserved for CDE use only.

6740-6749 Available for district use and will roll to 6720.

**6750 Committed Fund Balance.** Amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority should be reported as committed fund balance. Those committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action it employed to previously commit those amounts.

6751-6757 Available for district use and will roll to 6750.

6758-6759 Reserved for CDE use only.

**6760 Assigned Fund Balance.** Amounts that are constrained by the government's intent to be used for specific purposes, but are neither restricted nor committed, should be reported as assigned fund balance.

6761-6767 Available for district use and will roll to 6760.

6768-6769 Reserved for CDE use only.

**6770 Unassigned Fund Balance.** Unassigned fund balance is the residual classification for the General Fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed or assigned to specific purposes within the General Fund. The General Fund should be the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceeded the amounts restricted, committed or assigned to those purposes, it may be necessary to report a negative unassigned fund balance. If that occurs, amounts assigned to other purposes in that fund should be reduced to eliminate the deficit. If the remaining deficit eliminates all other assigned amounts in the fund or if there are no amounts assigned to other purposes, the negative residual amount should be classified as unassigned fund balance. A negative residual amount should not be reported for restricted, committed or assigned fund balances in any fund.

6771-6777 Available for district use and will roll to 6770.

6778-6779 Reserved for CDE.

## Job Classification

---

The job classification dimension enables school district to break down expenditures for salaries and employee benefits by the employee's job classification. This dimension is used at least three ways in school accounting: (1) to classify payroll costs for personnel purposes; (2) to segregate certified and non-certified salaries and benefits; and, (3) to accumulate payroll costs by bargaining unit for purposes of labor negotiations.

According to § 22-44-105(4)(b)(III), C.R.S., “The financial and human resource reporting system shall provide standard definitions for employment positions such that full, accurate disclosure of administrative costs is made within the budgets and the financial statements of every school district.” In order to meet this requirement, the job classification dimension is a required dimension and the codes are defined to describe representative job duties and responsibilities. For coding purposes, the job description rather than the job title must be the primary determinant. The appropriate code is not always obvious.

► The required reporting level of detail for this dimension for Finance December Data Pipeline. See the BOLD codes listed below. However, a much greater level of detail is available. This level of detail is reported in other data pipeline collections and is available to meet local needs by using the codes as defined in this section. Districts are advised against adding codes beyond what is defined in this section since adding codes could create future problems if the required reporting level is expanded.

Note: The headings highlighted in bold pertain to account classification roll-ups, which may not always signify salary schedule separation. CDE does not provide guidance on how districts should choose to differentiate between salary classes.

The job classification dimension is used in two additional data collections and requires collaboration and coordination between finance, payroll, human resources, special education, etc.

Human resources collection.

See [Data Pipeline Snapshots – Human Resources;](#)  
[Data Pipeline Interchanges – Staff](#)

Special Education December Count collection,

See [Data Pipeline Snapshots – Special Education December Count;](#)  
[Data Pipeline Interchanges – Staff](#)

The job classification dimension applies to expenditure accounts with object codes 0100 through 0299. The job classification dimension is not applicable for expenditure accounts with object codes 0300 to 0999; revenue accounts; or, balance sheet accounts. Therefore, in such records, this dimension is available for district use and may be used to track whatever other detail is desired. In such records, it is not necessary to avoid the unique job classification codes as long as data queries can be set up to identify by both object code range and job classification code.

The following job classifications are not necessarily listed in order of level of responsibility.

- 100 Administrator.** An administrator is an individual who performs responsibilities associated with executive management, administrative leadership and organization direction and is responsible for developing, directing and interpreting policies and regulations. Including, executing those policies or regulations through the direction of individuals at all levels. Employee classification and job title does not preclude determination of job classification. Positions that would naturally be associated with a 100 level would be those that report directly to the Board of Education, those considered cabinet level and those positions holding CDE leadership licenses (Special Education Director, Gifted Education Director, Principals, and Assistant Principals).
- 101 Superintendent. Serves as the chief executive officer and primary advisor to the board of education. Responsibilities include overseeing the development of an educational program and all other activities which impact on that program.
- 102 Assistant/Deputy/Associate Superintendent, Senior Executive, Executive Director. Performs high-level executive management functions for a superintendent in the areas of administration and instruction. Such an assignment also includes performing the duties of the superintendent in his or her absence. Includes leadership licensed positions (i.e., Special Education Director and Gifted Education Director) with the appropriate CDE endorsement.
- 103 Non-Instructional Administrator. Directs individuals and manages a function, program or supporting service in a senior leadership role. Other management positions include 335, 342 and 357
- 104 Instructional Administrator. Performs professional management, administrative, research, and/or analytical services in a senior leadership role. This may include personnel responsible for services such as evaluation, teacher development, dissemination, curriculum development and assistant directors of special education.
- 105 Principal (CDE leadership license or authorization). Performs the highest level of executive management functions in an individual school, a group of schools or units of a school system. Responsibilities include the administration of instructional programs, extracurricular programs, community relations, operation of the school plant and the coordination of staff and student activities.
- 106 Assistant/Deputy/Associate Principal (CDE leadership license or authorization). Performs high-level executive management functions in an individual school, group of schools or units of a school system. Primary duties include but are not limited to: (1) supervising student behavior; (2) handling specific assigned duties related to school management; (3) continuing curriculum and staff development; (4) working cooperatively with professional staff; and (5) providing leadership in the instructional program.

## Grant/Project

---

This dimension is intended to provide a means of segregating financial data associated with specific grants and categorical funding projects. A GRANT is an award of financial assistance in the form of cash or a contribution or gift of other assets from another government to an eligible grantee to be used for a specified or designated purpose, activity or facility. Categorical funding is financial assistance to help offset costs of providing services related to specific PROJECTS such as Career and Technical Education, Exceptional Children’s Educational Act (which includes special education and gifted and talented education) and English Language Proficiency Act.

The designated grants/projects dimension serves a dual purpose: verifying that special grant and project revenues which are provided for specified or designated purposes are expended for those purposes; and, identifying total project expenditures, regardless of and in excess of, special revenue. Project expenditures in excess of categorical revenues are assumed to be subsidies.

### When Grant/Project Codes Must Be Used

The designated grants/projects code must be used when recording the following:

- **ALL federal revenues and expenditures and required Balance Sheet records** in all funds except Food Service Fund.
- **ALL federal and local reimbursable revenues and required Balance Sheet records in the Food Service Fund.** Grant/project codes do NOT need to be used with expenditures in the Food Service Fund.
- **State revenues with a CATEGORICAL FUNDING SOURCE CODE** except transportation and small attendance center and **ALL expenditures** related to those PROJECTS in the General Fund and in any other fund.

Note: Categorical project expenditures are usually not identifiable from another account code dimension, including the program code. Thus, the grant/project code must be used for these expenditures so they can be identified. For example, special education costs at an elementary school may be coded to program 0010, 0060 or 0100-2099, but must be coded to grant/project code 3130. Therefore, these special education costs can be identified from the grant/project code.

- Grant revenues received from local sources.

### Dimension Limitations

The Designated Grant/Project dimension is designed to provide a method of reporting specific grant/project information to CDE. The grant dimension is not intended to track comprehensive data regarding the grant, such as fiscal year, mini-grants, subgrants, carryovers or other budget control categories that may be needed by the individual district. Each district should develop its account code structure to include optional elements, as needed, for its own tracking requirements. These elements could include Fiscal Year, Special Cost Center, Subprogram, Project, etc.

### How Grant/Project Codes Are Assigned

The grant/project code is a four-digit code. The first digit identifies the revenue source of the grant or project as local, intermediate, state or federal. The second, third and fourth digits are defined by the district for local and

[Return to the Table of Contents](#)

intermediate grants and by the Colorado Department of Education (CDE) for state and federal grants. See detail below.

Source	First digit	Second, third and fourth digits
Local, Intermediate	0, 1, 2	assigned by the district for local use
State	3	assigned by CDE; see State Grants section
Federal – formula-driven	4	assigned by CDE*
Federal – competitive	5	assigned by CDE & district*
Federal – competitive	6, 7, 8, 9	assigned by CDE*

**\* See Federal Grants section:** the second, third and fourth digits of the grant/project code must be the last three digits of the ALN number. For more details, see the “Federal Grants” subheading which appears on the next page.

### Grant Codes by Source

#### Local and Intermediate Grants

Local and intermediate grant/project codes are those numbered from 0001 to 2999. The local district assigns these numbers. Districts/BOCES choosing to use local and intermediate grant/project codes for non-grant/project tracking purposes must remove any such codes from data reported to CDE.

For All State and Federal Grants in Spreadsheet Form please go to:  
<http://www.cde.state.co.us/cdefinance/sfCOA.htm>

Grant/project codes 3950 through 3999 are available for District use for state grants and projects distributed through agencies other than CDE.

email CDE, Public School Finance Unit, at ([schoolfinance@cde.state.co.us](mailto:schoolfinance@cde.state.co.us)) for federal grant numbers which are not listed, including any new grants.

CDE uses the following guidelines for assigning grant/project codes unless a reporting need requires deviation from the scheme.

1. Federal grant programs are typically identified by program numbers which are listed in . These “ALN numbers” are five digits – the first two digits identify the administering agency and the remaining three digits identify the specific grant program. For purposes of the grants/projects code, the use of the last three digits of the ALN number to identify the specific federal grant program is maintained.
2. Codes beginning with the digit “4” are formula-based.
3. Codes beginning with digits “5” through “9” are competitive.
4. Grants originating from the United States Department of Education (Agency 84) are assigned first numbers of “4,” “5,” or “6.”

[Return to the Table of Contents](#)

---

5. When competitive grants have the same ALN number as formula-based grants, they are often referred to as discretionary grants or as mini-grants. Districts often have multiple mini-grants with a single ALN number. To give CDE and districts some ability to distinguish between mini-grants, two competitive grant/project codes are available for grants originating from the United States Department of Education (Agency 84).
6. Grants originating from federal governmental agencies other than the federal Department of Education are assigned first numbers of “7” or “8”.
7. Grants with no ALN number regardless of department are assigned a first number of “9”.
8. The Complete Listings of State and Federal Grants are in Excel Spreadsheets. These can be downloaded and printed at the CDE website under School Finance, “State and Federal Grants”. <http://www.cde.state.co.us/cdefinance/sfCOA.htm>
9. Grant Set-Aside Tracking: Grant Codes 9100-9199 are used for Local and State Grant Set-Aside. That is to say that the local and state sources being used to support the federal grant set-aside requirement. Grant Codes 9200-9299 are used for Federal Grant Set-Aside. Please refer to Appendix F3 for detailed information on Grant Set-Aside tracking.

## Optional Elements

---

### ► Fiscal Year

The fiscal year is a twelve-month accounting period (July 1 and ends on June 30).

Though this element is optional, many federal programs require separate reporting for current and prior-year grant money. The district would be well-served to implement a technique for tracking fiscal year revenue and expenditures.

The codes correspond with the final digit of the appropriate fiscal year. The following codes and descriptors are designated for use by the school district that opts to use this element in its account code:

Code	Descriptor
0	e.g., 2019-202 <u>0</u> ; previously 2009 – 201 <u>0</u>
1	e.g., 2020-202 <u>1</u> ; 2010 – 201 <u>1</u>
2	e.g., 2021-202 <u>2</u> ; 2011 – 201 <u>2</u>
3	e.g., 2022-202 <u>3</u> ; 2012 – 201 <u>3</u>
4	e.g., 2023-202 <u>4</u> ; 2013 – 201 <u>4</u>
5	e.g., 2024-202 <u>5</u> ; 2014 – 201 <u>5</u>
6	e.g., 2025-202 <u>6</u> ; 2015 – 201 <u>6</u>
7	e.g., 2026-202 <u>7</u> ; 2016 – 201 <u>7</u>
8	e.g., 2027-202 <u>8</u> ; 2017 – 201 <u>8</u>
9	e.g., 2028-202 <u>9</u> ; 2018 – 201 <u>9</u>

### Instructional Organization

The instructional organization is the general type of school or other organizational entity providing instruction.

The following codes and descriptors are designated for use by the school district that opts to use this element in its account code:

Code	Descriptor
1	Elementary School
2	Middle/Junior High School
3	High School
4	Adult/Continuing Education School
5	Junior/Community College
6	Charter School
7	Pre-School
8	Day Care
9	Other School

### Term

The term is a prescribed span of time when school is open and the pupils are under the direction and guidance of teachers.

The following codes and descriptors are designated for use by the school district which opts to use this element in its account code:

[Return to the Table of Contents](#)

---

<u>Code</u>	<u>Descriptor</u>
1	Fall Term – Day
2	Fall Term – Evening
3	Winter Term – Day
4	Winter Term – Evening
5	Spring Term – Day
6	Spring Term – Evening
7	Summer Term – Day
8	Summer Term – Evening

### Special Cost Center

It is recognized that school districts classify expenditures in many other ways. Codes may be added to the expenditure account designator at the discretion of the school district. A special cost center will be the smallest segment of a program that is separately recognized in the school district’s records, accounts and reports.

No codes and descriptors are designated for use by the school district which opts to use this element in its account code. The codes and descriptors should be developed by the district to meet its own needs.

### Level of Instruction

This dimension permits districts to track activities by area of instruction such as preschool, elementary, secondary or post-secondary. In the following dimensions, grade span can be changed to age span when structuring a nongraded school.

- 00 District-Wide. Assigned to any expenditure transaction that applies to the entire school district and not clearly assignable to an instructional level.
  
- 10 Elementary. A school organization classified by state and local practice and composed of any span of grades from preprimary through eighth grade.
  - 11 Pre-Kindergarten. A school organization composed entirely of any span of ages below kindergarten. This category is normally used for students identified as needing special services.
  - 12 Kindergarten. A school organization for children for the year immediately preceding the first grade.
  - 13 Other Elementary. A school organization composed of any span of grades not above grade eight except pre-kindergarten and kindergarten.
  
- 20 Middle/Junior High School. A school organization composed of two or three grades beginning with the next grade following an elementary school. Most middle/junior high school organizations presume a high school will follow the middle/junior high school.
  - 21 Regular Middle/Junior High School. A school organization which offers a “regular” series of instructional courses and activities.
  - 22 Alternative Middle/Junior High School. A school organization which offers an “alternative” series of instructional courses and activities.

---

- 30 High School. A school organization comprising any span of grades beginning with the next grade following a middle/junior high school and ending with grade 12.
- 31 Senior High – Regular. A school organization offering the final years of “regular” high school work necessary for graduation.
- 32 Senior High – Alternative. A school organization offering the final years of “alternative” high school work necessary for graduation.
- 39 Other Senior High. A school organization which varies from the regular and alternative structures identified above.
- 40 Post-Secondary. A school organization for adults and out-of-school youth (16 years of age or older who are not regularly enrolled in school) who have either completed, interrupted or have not begun their formal education or for students attending an institution of higher education.
- 41 Adult/Continuing. A school organization for adults and out-of-school youth (16 years of age or older who are not regularly enrolled in school) who have either completed, interrupted or have not begun their formal education and are pursuing skills or knowledge in other than regularly prescribed courses. These include adult basic schools, advanced adult schools, occupational schools and those schools which have as their purpose the upgrading of occupational skills, retraining existing skills, pursuit of special interests or for enrichment.
- 42 Community/Junior College. An institution of higher education that usually offers the first two years of college instruction and frequently grants an associate degree, but does not grant a bachelor’s degree. It is either an independently organized institution (public or nonpublic), an institution which is part of a school district or an independently organized system of junior colleges. Junior colleges offer college transfer courses and programs; career, technical and semiprofessional occupational programs; or general education programs.

## Appendix C: Pupil Activity

---

When student organizations are reported in a special revenue fund, Fund 23 Pupil Activity Special Revenue Fund, expenditures must be recorded at the level of detail identified by **BOLD** print in the account code definitions throughout this document. Under GASB Statement No. 54, special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

Under GASB Statement No. 84 – Fiduciary Activities, the same level of details is required for the fiduciary fund treatment (Fund 74 Pupil Activity Custodial Fund) with one exception. For custodial funds, the amount of investment income and investment costs must be reported separately, in order to generate a net investment income amount for reporting purposes.

GASB Statement No. 84 outlines the criteria to be used to determine if the use of the custodial fund is appropriate for such activities effective for fiscal years starting in 2019-2020, with early application permitted. The criteria includes the following:

- The assets associated with the activity are controlled by the government, such that the school district holds the assets or has the ability to direct the use, exchange, or employment of the assets. If the school district writes the checks for these activities, they control the assets.
- The assets associated with the activity are not derived either (1) solely from the government’s own-source revenues or (2) from government mandated non-exchange transactions or voluntary non-exchange transactions, unless the government is acting purely as a fiscal agent for grants that they are not responsible for compliance. If the school district is involved with setting fees or determining the gate receipts revenues, they may be generating own-source revenues.
- The assets are for the benefit of individuals and the government does not have administrative involvement with the assets or direct financial involvement with the assets. In addition, the assets are not derived from the government’s provision of goods or service to those individuals. If the school district does not determine the eligibility and/or distribution of the assets, but that activity is directed by someone else, they would not have administrative involvement. However, entities should review their policies and procedures with regard to the handling of pupil activities to assess the level of administrative involvement.

## Appendix D: Boards of Cooperative Educational Services (BOCES)

---

The recording of transactions BY BOCES AND SCHOOL DISTRICTS must allow for the identification of revenues and expenditures that would be double counted if all Colorado school district and BOCES financial data were aggregated.

To accomplish the identification of inter-BOCES/district transactions, object and source codes have been defined and bolded (required) for recording transactions which result in the movement of funds between BOCES and school districts, school districts and BOCES, school districts and school districts and BOCES and BOCES.

These object and source codes identify specific transactions as transportation, tuition and [other] services. Also, these codes distinguish between transactions among member BOCES and districts and among non-member BOCES and districts. Thus, for example, if a BOCES has a special education program that serves students from five area school districts, any inter-BOCES/district transactions relating to that special education program are recorded using codes listed below as “Transactions between MEMBER BOCES and districts.” This could include transactions between school districts as long as the districts are members of the BOCES and the purpose for the transactions is BOCES-related.

However, transactions which are between non-member districts or are not related to the BOCES’ purpose are recorded using the codes listed as “Transactions between non-member BOCES and districts.” For example, two neighboring districts jointly own and operate an athletic stadium. Transactions which result in the inter-district movement of funds for the purpose of operating the stadium would be recorded using codes for “Transactions between non-member BOCES and districts.” This is true even if both districts are members of the special education BOCES (example mentioned in the above paragraph) since athletic stadium operations are not related to the BOCES special education program.

An Administrative Unit (AU) is a school district, board of cooperative services or a combination of school districts or boards of cooperative services, which is approved by CDE and normally provides educational services to exceptional children. AUs function similarly to BOCES. Thus, financial transactions between AU members and non-members are recorded using the same account codes and logic as financial transactions between BOCES members and non-members.

### Transactions between **MEMBER BOCES** and districts

Example of How to Record an Inter-BOCES/district Transaction

**Scenario:** A BOCES has a special education program for students in grades 1 through 3. The program includes students from five area school districts. The BOCES also provides a psychologist and a special education director for several member districts. The BOCES bills a member district for specific services provided; and, the district pays the bill.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
<b>District Transactions</b>								
10	6XX	00	2231	0591	000	3130	1700.00	District cost for special education director
10	6XX	00	2140	0591	000	3130	1600.00	District cost for psychologist
10	1XX	00	1700	0561	000	3130	3500.00	Cost of elementary instruction-special education
<b>BOCES Transactions</b>								
10	6YY*	00	2231*	1951 3951 4951	000	3130	1700.00	Revenue from District YY for special education director
10	6YY*	00	2140*	1951 3951 4951	000	3130	1600.00	Revenue from District YY for psychologist
10	1YY*	00	1700*	1321	000	3130	3500.00	Revenue from District YY for elementary instruction
*Note: Location and program coding is not required for revenues, however, the BOCES may find it useful to use these elements to identify revenues.								

Expenditures incurred directly from providing services are recorded by the BOCES using codes that are defined without regard to BOCES/district relationships, as shown below. However, the BOCES may choose to use location codes specific to member districts to identify costs provided for the benefit of specific districts. See “How Location Codes Can Be Used,” on the following page.

**Expenditures for Special Education Director**

10	6YY	00	2231	0100	100	3130	salary

10	1YY	00	1700	0610	000	3130	supplies

**How Location Codes Can Be Used By the BOCES**

CDE will use location codes numbered 100 through 599 in conjunction with instructional program codes to identify instructional costs by level (i.e., as elementary, middle/junior high school or high school). Therefore, BOCES MUST use the structure for location codes that is defined in the chart of accounts. For example, elementary instructional costs must be coded with a location code that follows the syntax 1YY, middle school instructional costs must be coded with a location code that follows the syntax 2YY, etc.

ONE METHOD for BOCES to track transactions by district being served is to define location codes such that each district has its own two-digit code. Then these two-digit district codes may be combined with the appropriate first digit to create a location code that follows the structure from the chart of accounts.

**Example of Location Codes Used by a BOCES**

Scenario: A BOCES provides services to five member districts for all instructional levels.

District	District Code	Location Codes			
		Elementary	Middle	High	Combination
Hayden	01	101	201	301	501
Poudre	10	110	210	310	510
Fort Morgan	20	120	220	320	520
Canon City	30	130	230	330	530
Trinidad	40	140	240	340	540

If the BOCES also must identify locations where instructional services are provided, additional codes may be defined (if there are enough numbers) or an optional element may need to be added to the account-code string. An example of defining additional codes is shown below.

	Elementary Location Code	Elementary Service Center 1	Elementary Service Center 2	Elementary Service Center 3
Poudre	110	111	112	113
Del Norte	150	151	152	153

An expenditure for services provided at Elementary Service Center 1 for students from Poudre would be coded with location code 111.

### **Sub-Granting is Not Allowed**

The Department (CDE) does not allow the entity that CDE provides with the Federal funding (the BOCES or lead District of a consortium) to subgrant the Federal funding to another entity. In the cases where the District involves another entity (the member Districts), the Financial Policy and Procedures (FPP) committee established the flow-thru coding concept. As an example, see Object Code 0591 and Source Codes 4951, 3951 and 1951. This flow-thru coding (not to be confused with the Federal grant pass through funding concept or sub-granting) was established to allow the other entity to report the activities they performed on behalf of the BOCES. It is therefore up to the BOCES to meet, with member District assistance, the compliance requirements related to Federal funding provided to the BOCES.

## Appendix E: Internal Charge Reimbursement Accounts

Object codes 0850 through 0869 allow for the charging of an internal service such as field trips to the locations and programs which benefit from the service.

This method abates expenditures rather than recognizes revenue in the program providing the service; thus, use of internal charge reimbursement accounts avoids the overstatement of revenues and expenditures. Internal charge reimbursement objects net to zero district-wide. Exception: At the district’s discretion, the credit entry for Overhead Costs and Indirect Costs may be recorded with sources 1971 and 1972, respectively, rather than objects 0868 and 0869, respectively. See Appendix G, Indirect Costs. When revenues are recognized (source codes are used) instead of expenditures abated (object codes are used with negative amounts), internal charge reimbursement objects will not net to zero district-wide, but will equal the total reported as the source code amounts.

These codes are not used for user fees (charge backs) in an internal service fund; rather, internal service fund user fees (charge backs) are coded to sources 1973 through 1979. See Appendix P, “Internal Service Funds.”

### Example of How Internal Charge Reimbursement Accounts Are Used

Fund	Location	SRE	Program	Object/ Asset	Job Class	Grant/ Project	Amount	Description
<b>Annual Expenditures for Transportation Department</b>

## Appendix F: Interfund Transfers

The amounts debited and credited to 5200 must net to zero.

### Example of How to Record an Interfund Transfer

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
10	XXX	00	0000	5222	000	0000	-100,000.00	Transfer out of General Fund (Debit)

[Return to the Table of Contents](#)

## Appendix F-2: Intergrant Transfers

An Intergrant Transfer is a revenue transfer from one grant to another to spend those moneys accordingly. Example: a transfer of Title II Part A “Teacher Quality” grant revenue (grant 4367) over to Title I (grant 4010) and spend the transferred Teacher Quality money as Title I money. Transfers are not allowed with all grants (there is a list of allowable grants at the bottom of this appendix).

Here is an example of transferring \$3,000.00 of Teacher Quality grant revenue over to Title I.

The initial coding for Teacher Quality grant revenue received does not change and let's say the district receives \$6,000.00:

Fund	Location	SRE	Program	Object/Source	Job	Grant	Amount
Credit Revenue and Debit Cash							
22	000	00	0000	4000	000	4367	\$6,000.00

The district decides to transfer \$3,000.00 of Teacher Quality grant revenue over to Title I

Debit: Transfer out of Teacher Quality. Credit: Cash

22	600	00	0000	5322	000	4367	\$- 3,000.00
----	-----	----	------	------	-----	------	--------------

Credit: The transfer into Title I. Debit: Cash

22	000	00	0000	5322	000	4010	\$3,000.00
----	-----	----	------	------	-----	------	------------

Here is a list of grants that have “transfer capability” and a list of grants that can be transferred into:

Under ESSA LEAs/BOCES can transfer from the formula portion of:

- Fund received from CDE would be coded with source 4000
- an Intergrant Transfer would reduce revenue with source 5322

Grant 4367: Title IIA, Teacher Quality

Grant 4424: Title IVA, Student Support and Academic Enrichment

Transfer to:

- an Intergrant Transfer would increase revenue with source 5322

Grant 4010: Title I, Part A

Grant 4365: Title III, English Language Learners

Grant 4367: Title IIA, Teacher Quality

Grant 4424: Title IVA, Student Support and Academic Enrichment

Grant 4298: Title V, Innovative Ed

In addition to the ESSA LEAs/BOCES transfers from the formula portion the following should also use Intergrant Transfer accounts.

Grant 4424 is request for funds includes grant codes (4421, 4422, and 4423)

- Fund received from CDE would be coded to Grant 4424 with source 4000
  - an Intergrant Transfer would reduce revenue in Grant Code 4424 with source 5322
  - an Intergrant Transfer would increase revenue in Grant Codes 4421, 4422 and 4423 with source 5322

Note: Alternative use of Funds Authority (AUFA) districts may elect to alternatively use up to 100% of eligible program funds to meet the needs of a different program. This alternative usage is NOT an actual transfer of resources from one program to another and the funding remains in the original program.

#### CLARIFICATIONS ON INTERGRANT TRANSFERS

Do not get confused with the word “transfers” as it relates to Intergrant Transfers. Under school wide programs, districts are allowed to reflect one amount per grant on the ESSA budget to meet the requirements of the ESSA budget process. However, the district continues to be required to account for and report this school wide program under CDE's chart of accounts with the appropriate grant coding. Because this program is not a true transfer of funding between grant programs, the transfer coding would not apply in this case.

The Intergrant transfer coding applies to districts that are actually moving funds from the original grant source to a different receiving grant source. Based on the expenditures in the receiving grant, Grants Fiscal Management at CDE will fund the requested transfer portion from the original grant program. The district accounts for the funding in the original grant and using the transfer coding moves the funding from the original grant to the receiving grant.

If the district elected to transfer funds between grants and the district also has school wide programs, the district will need to account for the transfer of funding between the grants as provided in this appendix (Appendix F-2). The district will also need to account (under CDE's chart of accounts with the appropriate grant coding) in the grant that provided the expenditures for the school wide program activities.

## Appendix F-3: Intergrant Transfers – Grant Set Aside

Grant Set-Aside tracking is mandatory for Districts and BOCES that receive Title I Part A Funds (Grant 4010) and is based on the Set-Asides identified in their ESSA Consolidated Budget. The Grant Set-Aside will also use the intergrant transfer coding concept.

In addition to the **ESSA Consolidated budget** this will also apply to **ARP - ESSER III** budget.

Here is an example of transferring \$3,000.00 of Title I Part A to the Priority Performance Challenge Set-Aside.

The initial coding for receiving \$30,000 of Title I Part A grant revenue does not change:

Fund	Location	SRE	Program	Object/Source	Job	Grant	Amount
Credit Revenue and Debit Cash							
22	000	00	0000	4000	000	4010	\$30,000.00

In the District’s ESSA Consolidated Budget, the District identified \$3,000 needed to meet the Priority Performance Challenge Set-Aside (Grant 9208).

Debit: Transfer out of Teacher Quality. Credit:

22	600	00	0000	5322	000	4010	\$- 3,000.00
----	-----	----	------	------	-----	------	--------------

Credit: The transfer into Title I. Debit:

22	000	00	0000	5322	000	9208	\$3,000.00
----	-----	----	------	------	-----	------	------------

Normal expenditure coding is used to track the usage of this \$3,000 Set-Aside with Grant 9208 used in all applicable expenditure accounts.

Grant 4414 **ARP - ESSER III** is request for funds includes grant codes (4414 and 9414)

- Fund received from CDE would be coded to Grant 4414 with source 4000
  - an Intergrant Transfer would reduce revenue in Grant Code 4414 with source 5322
  - an Intergrant Transfer would increase revenue in Grant Codes 9414 with source 5322
    - an amount equal to the expenditures reported

This treatment is applicable to the following Grant Set-Aside Codes:

### Federal Grant Set-Aside Codes:

- 9201 Preschool Set-Aside
- 9202 Eligible Homeless Children Set-Aside
- 9203 Family Literacy Set-Aside
- 9204 Neglected Institutions Set-Aside
- 9205 Non-Public School Set-Aside
- 9206 District Managed Activity Set-Aside
- 9207 Highly Qualified Set-Aside

### **State and/or Local Grant Set-Aside**

If the District is using State and/or Local funds to assist with meeting Grant Set-Aside requirements (as identified in the ESSA Consolidated Budget), the following Grant Codes are used and NO transfers of Federal Funds are made. Code Set-Aside expenditures met by State and/or Local revenue, to the following Grant Codes (No revenue are tied to these Grant Codes):

- 9101 Preschool Set-Aside
- 9102 Eligible Homeless Children Set-Aside
- 9103 Family Literacy Set-Aside
- 9104 Neglected Institutions Set-Aside
- 9105 Non-Public School Set-Aside
- 9106 District Managed Activity Set-Aside
- 9107 Highly Qualified Set-Aside
- 9108 Priority Performance Challenge Set-Aside
- 9109 Choice Set-Aside
- 9110 Supplemental Education Services Set-Aside
- 9111 Parental Activities School Set-Aside
- 9112 Parental Activities District Set-Aside
- 9113 Non-Public School Administration
- 9114 Non-Public School Family Engagement
- 9113-9199 CDE Future Use

### **Complete definitions of Grant Set-Aside Codes:**

#### **9201 Preschool Set Aside**

Title I, Part A funds may be used for preschool services for at-risk children within Title I-funded school and school districts, at the distinction of the school or school district. Services include, but are not limited to direct intervention, supplemental intervention materials and professional development opportunities for preschool teachers.

#### **9202 Eligible Homeless Children Set Aside**

All public schools and districts receiving federal funds must reserve funds to provide services to children and youth who are experiencing homelessness. To assist with these services, the law requires that school districts set aside Title I funds, as necessary, to provide services comparable to those that are provided to children in Title I, Part A funded schools. These funds can also support educationally related services to children in shelters and other locations where homeless children may live. The services provided with these funds should support homeless students to succeed in school and to meet the academic achievement standards.

#### **9203 Family Literacy Set Aside**

Local Educational Agencies may set aside funds to support family literacy activities for eligible Title I children, including early childhood education, interactive literacy activities between parents and their children and training

[Return to the Table of Contents](#)

---

for parents regarding how to be the primary teacher for their children and full partners in the education of their children.

#### **9204 Neglected Institutions Set Aside**

A Local Educational Agencies must reserve such funds as are necessary under this subpart to provide services comparable to those provided to children in schools funded under this part to serve: children in local institutions for neglected children and if appropriate, children in local institutions for delinquent children and neglected or delinquent children in community day school programs. These funds are automatically generated within the regular district allocation.

#### **9205 Non-Public School Set Aside**

Districts must provide Title I, Part A services for eligible children attending private schools, their teachers and their families that are comparable to those provided to eligible public school children, their teachers and their families. The Title I, Part A services for private school students must be developed through timely and meaningful consultation with officials of the private schools. The public school district may provide these services directly or through contracts with public and private agencies organizations and institutions. The cost of administering the private school program services is separate and is not to be included to satisfy the equitable expenditures calculation.

#### **9206 District Managed Activity Set Aside**

Local Educational Agencies may reserve funds for district level activities designed to improve student outcomes at Title IA schools. Allowable activities include, additional support for schools with a Priority Improvement or Turnaround Plan Type Assignment; extended learning opportunities (summer school or extended day), parental activities beyond district level parental activities set aside; pay differential

#### **9207 Highly Qualified Set Aside**

If a Local Educational Agencies has teachers who are not highly qualified, the HQ Local Educational Agencies may set aside a maximum of 10% of its Title I, Part A, allocation to assist these teachers in meeting the HQ requirements.

#### **9208 Priority Performance Challenge Set Aside**

Districts with a Priority Improvement or Turnaround Plan Type Assignment must reserve not less than 10% of its Title I Part A funds for high-quality professional development for instructional staff that is specifically designed to address the areas the district and/or its schools did not meet state performance expectations.

#### **9209 Choice Set Aside**

In the case of a school identified for school improvement (Priority Improvement or Turnaround Plan Type Assignment), the local educational agency shall provide all students enrolled in the school with the option to transfer to another public school served by the local educational agency, which may include a public charter school. District must provide or pay for the cost of transportation for participating students. In conjunction with the Supplemental Education Services Set aside, LEA must reserve 15% of its Title I, Part A allocation to provide these services.

#### **9210 Supplemental Education Services**

Supplemental educational services (SES) are additional academic instruction designed to increase the academic achievement of students in schools school identified for improvement (Priority Improvement or Turnaround Plan Type Assignment). In conjunction with the Choice Set Aside, LEA must reserve 15% of its Title I, Part A allocation to provide these services. These services, which are in addition to instruction provided during the school day, may

[Return to the Table of Contents](#)

---

include academic assistance such as tutoring, remediation and other supplemental academic enrichment services that are consistent with the content and instruction used by the local educational agency and are aligned with the State’s academic content and achievement standards. SES must be high quality, research-based and specifically designed to increase student academic achievement.

**9211 Parental Activities School Level Set Aside**

Local Educational Agencies receiving Title I, Part A allocations of \$500,000 or greater must set aside a minimum of 1% of those funds to support parent involvement activities and 95% of these funds must be sub-allocated to the school level. The primary objective of this set-aside is to enable greater and more meaningful parent participation in the education of their children.

**9212 Parental Activities District Level Set Aside**

Local Educational Agencies receiving Title I, Part A allocations of \$500,000 or greater must set aside a minimum of 1% of those funds to support parent involvement activities and 95% of these funds must be sub-allocated to the school level. The remaining 5% of this set aside may be managed at the district level. The primary objective of this set-aside is to enable greater and more meaningful parent participation in the education of their children.

**9213 Non-Public School Administration**

**9214 Non-Public School Family Engagement**

## Appendix G: Indirect Costs

A district has two options for recording indirect costs:

1. The Expenditure/Revenue method or
2. The Abatement Method.

Examples of each method are shown below.

As with Indirect Costs, the district may choose to account for Overhead Costs using either the Revenue/Expenditure Method or the Abatement Method, except the object will be 0868 instead of 0869 and the source will be 1971 instead of 1972.

- Use object code 0868 with non-federal grant/project codes
- Use object code 0869 is with federal grant/project codes

### OPTION 1. The Expenditure/Revenue Method.

Assume indirect costs are being charged to the Title I program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
22	XXX	00	XXXX	869	000	4010	500.00	Expenditure in the Designated-Purpose Grants Fund
10	000	00	0000	1972	000	0000	500.00	Revenue in the General Fund

### OPTION 2. The Abatement Method.

Assume indirect costs are being charged to the Title I program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
22	XXX	00	XXXX	0869	000	4010	500.00	Expenditure in the Designated-Purpose Grants Fund
10	XXX	00	XXXX	0869	000	0000	-500.00	Abatement in the General Fund

Note: With the Abatement Method, the district's internal charge/reimbursement accounts net to zero; however, with the Revenue/Expenditure Method, the district's internal charge/reimbursement accounts do not net to zero, but the total expenditures (0868/0869) should equal the total revenues (1971/1972).

**Co-curricular Activities**

Co-curricular activities are school-sponsored activities or experiences, under the guidance or supervision of qualified adults, designed to provide opportunities for pupils to participate in such experiences on an individual basis, in small groups or in large groups – at school events, public events or a combination of these – for such purposes as motivation, enjoyment and improvement of skills. Student organizations are included and must be coded to instructional programs 1800 to 2099.

## Appendix J: Revenue vs. Abatement

---

### Fees

As a general rule, revenues from fees should be recorded in the appropriate revenue account and should not be entered as an off-set or “netting” of an expenditure. This includes fees collected for participation in activities or instructional courses, parking fees, athletics fees and any fee collected for the subsequent purchase of instructional supplies and materials. In situations where the district is merely acting as a purchasing agent on the student’s behalf, (e.g., a woodshop class provides wood for students strictly on a cost basis), it may be appropriate to net funds collected against the supply expenditure.

### Internal Services (except for those recorded in Internal Service Funds)

When a district opts to charge back internal services that are provided by a cost center reported outside of an Internal Service Fund, the following object codes are used:

- 0851 Transportation/Field Trips
- 0852 Maintenance
- 0853 Technology/MIS
- 0854 Printing/Duplicating.

The program receiving the service will report a cost using the appropriately described object code above. The program providing the service will report a negative expenditure using the same object. See Appendix E, Internal Charge Reimbursement Accounts.

Object codes in the 0860 series, like the 0850 series, are used to charge back internal services to those programs which benefit from the services. These codes include:

- 0868 Overhead Costs
- 0869 Indirect Costs.

Like with 0850 series codes, the district may record a negative expenditure in the program providing the service. However, unlike 0850 series codes, the district alternatively may record revenue using source 1971 Overhead Cost Revenue or source 1972 Indirect Cost Revenue. See Appendix G, Indirect Costs.

### Internal Service Fund Revenue

User fees (charge backs) received into the Internal Service Fund from other funds MUST BE recognized as revenue.

The following source codes are predefined for this purpose:

- 1973 Internal Service Revenue – Employee Benefit Premiums
- 1974 Internal Service Revenue – Risk Management
- 1975 Internal Service Revenue – Print Shop
- 1976 Internal Service Revenue – Technology Services
- 1977 Internal Service Revenue – Warehouse Services
- 1978 Internal Service Revenue – Other
- 1979 Internal Service Revenue – Contra Account

See Appendix P, Internal Service Funds. Amounts which represent duplicated revenues and duplicated expenditures will be identified and/or eliminated by CDE as appropriate to avoid misrepresentation when data is consolidated for reports.

### Insurance Claims

Districts may recognize insurance claims as abatements against expenditures by crediting appropriate object codes; or, alternatively, districts may recognize insurance claims as revenues by using source 1985. Because of numerous scenarios under which insurance claims result, it is recommended that district staff consult with their auditor about proper accounting treatment, especially when amounts are material.

## Appendix K: Charter Schools

---

Financial reporting for charter schools may vary depending upon the terms and conditions of the charter contract, legal and auditor interpretations of statutes and generally accepted accounting principles and other factors.

Certain legal and organizational structures for charter schools (such as foundations, business enterprises, etc.) may result in a charter school being considered an entity apart from, although connected to, the school district. When this happens, financial transactions of the charter school are usually not included in the school district's financial transaction database for normal day to day operations. However, districts are required to include charter school revenues and expenditures in the Data Pipeline submission file.

The chart of accounts provides certain requirements for reporting charter school revenues and expenditures to CDE. These requirements are necessary so charter school data is identifiable. In the event that a district's financial statements illustrate charter school activity as a discreetly presented component unit, CDE will use the required charter school location codes to reconcile the financial statements with the Finance December Data Pipeline generated Auditor's Electronic Financial Data Integrity Check Figures Report.

The following elements have been defined within the chart of accounts for reporting charter school transactions which are included in the district's financial database:

### FUND

Fund 11, Charter School Fund. Fund 11 is available and is required, for charter school transactions that are accounted for in the district's General Fund and used to identify the charter school's General Fund. Fund 11 is considered part of the General Fund; but, a different fund number is used so charter school activities can be identified. Since Fund 11 is part of Fund 10, Fund 11 will be consolidated with Fund 10 data whenever appropriate. This consolidation will include eliminating "interfund" transfers, indirect or overhead costs, etc.

If the charter school receives grant funding, fund 22 is recommended for use in reporting revenue and expenditures relating to the grant.

The charter school may also report transactions in other funds, as applicable, such as the Pupil Activity Fund or Capital Reserve Fund.

### LOCATION

Locations 900 through 969. Location codes 900 through 969, which are reserved exclusively for charter schools, are required for recording charter school revenues and expenditures and balance sheet. Each charter school must have a unique location code that identifies the school and level. So that the level can be identified, the following structure must be used when assigning location codes.

Locations 900 through 919 are used for elementary charter schools.

Locations 920 through 929 are used for middle school (jar high) charter schools.

Locations 930 through 939 are used for high school charter schools.

► Locations 940 through 949 are used for online/career/technical charter schools.

Locations 950 through 969 are used for combination charter schools.

These charter school location codes must be used for all charter school transactions regardless of fund.

### SOURCE

Sources in the 1850 series are available as one way to track charter school revenue. Alternatively, other appropriate source codes may be used. Codes in this series which are defined include:

1851 District Services Provided to Charter Schools

Also, source codes 1852 through 1859 are available for district use.

### ► SUB-GRANTING NOT ALLOWED

The Department (CDE) does not allow the entity that CDE provides with the Federal funding (the District) to subgrant the Federal funding to another entity. In the cases where the District involves another entity (the Charter School), the Financial Policy and Procedures (FPP) committee established the flow-thru coding concept; please see Object Code 0594 and Source Codes 5954, 4954, 3954 and 1954. This flow-thru coding (not to be confused with the Federal grant pass through funding concept or sub-granting) was established to allow the other entity to report the activities they performed on behalf of the District. It is therefore up to the District to meet, with charter school assistance, the compliance requirements related to Federal funding provided to the District.

## Appendix K-2: Charter School Allocations

§ 22-30.5-112, C.R.S.

This appendix is not designed to interpret the requirements of the charter contract or the statute for allocations to charters. The intent of this appendix is to provide a general account coding example based on simple assumptions.

Allocations to Charter Schools must be recorded as described below so that CDE can identify these transactions in the Data Pipeline data collection. This recording requirement is not intended to dictate treatment of charter school allocations on the district financial statements. Proper treatment of charter school allocations on financial statements is the responsibility of the district, often with input from the independent auditor.

### Central Administrative Overhead Costs

Centralized administrative overhead costs means indirect costs incurred in providing

- (A) general administration support services, Programs 23xx, and
- (B) business and central support services, Programs 25xx and 28xx, limited to administration salaries and benefits, Objects 01xx and 02xx, Job class 1xx.

Note the programs, objects and job classes used in the allocation calculations may include all or a portion of the codes within each series, regardless of whether the code is bolded or not.

A district with an enrollment of more than 500 students, may choose to withhold the charter school’s per pupil share of central administrative overhead costs for services actually provided to the charter school, up to five percent (5%) of the charter school’s per pupil revenue allocation.

A district with an enrollment of 500 or fewer students, may choose to withhold the actual amount of the charter school’s per pupil share of central administrative overhead costs incurred by the school district, based on audited figures, or 15% of the charter school’s per pupil revenue allocation.

### Allocation example assumptions

- 1. **10,000** District Pupil FTE
- 2. **\$8,400** District per pupil revenue (PPR)
- 3. **500** Charter School Pupil FTE

Central administrative overhead costs for services actually provided to the charter school

- (A) **\$2,500,000** for general administration support services, Program 23xx, all object codes, and
- (B) **\$1,500,000** for business, Program 25xx, and central, Program 28xx, support services limited to salaries (Object 01xx) and benefits (Object 02xx) for administrative job classes (1xx).

### Calculations

First, calculate the charter school’s per pupil allocation. The charter school funding allocation equals **\$8,400**, district per pupil revenue, times **500**, charter school pupil FTE, equaling **\$4,200,000**.

Second, calculate the maximum allowable withholding for central administrative overhead costs. Because the district’s enrollment is greater than 500 students, the district’s withholding cannot exceed 5% of the charter school’s allocation. The maximum allowable withholding is 5% times **\$4,200,000**, equaling **\$210,000**.

[Return to the Table of Contents](#)

Third, calculate the charter school’s per pupil share of the central administrative overhead costs for services actually provided to the charter school. The total central administrative overhead costs is **\$2.5 million** plus **\$1.5 million** equaling **\$4.0 million**. The per pupil amount of costs is **\$4.0 million** divided by **10,000**, district pupil FTE, equaling **\$250** per FTE. The charter school’s per pupil share of the costs is **\$250** times **500**, charter school pupil FTE, equaling **\$200,000**.

Fourth, calculate the minimum amount between the result in the second and third calculation. The **\$200,000**, representing the charter school’s per pupil share of the central administrative overhead costs for services actually provided to the charter school is less than the maximum allowable amount of **\$210,000** (i.e., five percent of the charter school’s per pupil allocation). Therefore, the district withholds the **\$200,000**.

### Resulting account coding

#### School District

10	000	00	0000	81XX	000	0000		4,000,000

The first line of the entry must include a charter location code. Source code 5711 is the required allocation code; notice the last two digits “11” represent the destination fund (Charter School Fund). The balance sheet code 81xx is cash.

### Purchased Services

The charter school may contract with the district for the direct purchase of district services in addition to those included in central administration overhead costs (e.g., food services, custodial services, maintenance, curriculum, media services, libraries, etc.) Assume the charter purchased services for as transportation (**\$15,000**) and custodial services (**\$10,000**); charges calculated by the district according to statute. The object code for purchased services (0594) is different from the central administrative overhead costs (0595).

## Appendix K-3: Charter School Intercept Payments

Charter schools that have issued bonds may enter into an agreement with the State Treasurer to make bond payments on their behalf by withholding the amount from their state public school funds. § 22-30.5-406(1)(c)(I), C.R.S.

The following method should be used to account for the intercept portion of the charter school's state equalization payment. Assume the per pupil allocation equals \$1.0 million, intercept withholding equals \$50,000 (\$1,000 represents the debt reserve and treasury fees), and the eventual bond and interest payment is \$588,000 (\$575,000 principal and \$13,000 interest).

## Appendix L: Capital Leases (Prior to GASB Statement No. 87)

Generally, a lease arrangement subject to annual appropriation does not require voter approval under Taxpayer Bill of Rights (TABOR); but, the accounting for that lease is the same as any other capital lease. The basic steps are shown below.

1. Recognize the proceeds from the lease and the purchase of equipment at the time the district enters into the lease.
2. Monthly lease payments are recorded as interest expense and repayment of principal.

### Example of How to Record Capital Leases

*Scenario.* A district enters into an arrangement to lease computers to equip a high school computer lab for a business program (non-career and technical).

## Appendix L: Leases (After GASB Statement No. 87)

---

GASB Statement No. 87 defines a lease contract as “conveys control of the right to use another entity’s nonfinancial asset (the underlying asset) as specified in the contract for a period of time in an exchange or exchange-like transaction.

It established a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset.

The old concept of capital leases and operating leases has been eliminated. Old operating leases for a period greater than one year will be reported under this new standard, dropping the word “operating”.

Old capital leases that transferred ownership will be reported as capital financing activities instead of being called leases.

For the Lessee Government – the government-wide statements would report an intangible lease asset that represents the lessee’s right to use the leased asset and a long-term liability for the lease. The long-term lease payable will be measured as the present value of the payments under the provisions of the lease. The intangible lease asset will equal the lease liability plus any prepayments and certain initial direct costs. Subsequent to the initial reporting of the lease – the asset will be amortized over the shorter of the useful life or lease term, and the liability will be reduced by lease payments (less amount of interest expense)

Under the modified accrual method for the Lessee Government, the new treatment will be similar to that used for capital financing of capital outlay purchases. At the commencement of the lease would debit a capital outlay-lease expenditure and credit other financing source-lease proceeds. Ongoing activities after that would debit a lease principal expenditure and debit a lease interest expenditure.

Budgetary caution: Similar to other capital financing, the full amount of the capital outlay – lease expenditure will be recognized in the first year of the lease agreement.

For the Lessor Government – both the government-wide statements and the governmental fund statements would report a receivable for the right to receive payments, initially measured based on the present value of future lease payments to be received. A corresponding deferred inflow of resources, measured at the initial value of the lease receivable, to reflect that the receivable related to future periods. Lease revenue and a corresponding reduction in the deferred inflows of resources will be reported systematically over the term of the lease. Interest revenue will also be captured related to the receivable.

## Appendix N: Rolling to the Bold

The Chart of Accounts is designed to meet legal and regulatory requirements and generally accepted accounting principles while providing as much flexibility as possible for the local school district. For instance, code structure and definitions allow for varying degrees of detail depending upon local district reporting needs.

Codes which are necessary to meet legal and regulatory requirements and generally accepted accounting principles are required. These required codes are shown in **BOLD** print throughout this document. Also, these required codes are outlined in Appendix A, “Required Reporting Level.”

CDE will aggregate data upon receipt of electronic data files by “rolling” unbold code data into appropriate **BOLD** code data. An example follows which demonstrates how “rolling to the bold” works.

### How Rolling to the Bold Works

#### *Object Codes*

#### **0700 Property.**

**0710 Land and Improvements.**

**0720 Buildings.**

**0721 Lease Holding Improvements.**

**0722 New Construction**

**0723 Major Renovation**

**0730 Equipment.**

0731 Machinery.

**0732 Vehicles.**

0733 Furniture.

0734 Technology Equipment.

**0735 Non-Capital Equipment.**

0739 Other Equipment.

**0740 Depreciation.**

0750 Loss on Disposal.

0790 Other Property.

Rolling to the bold example for Object codes in the 0700 series:

- 1 Object codes 0700 through 0709 and 0750 through 0799 will roll to bold object code 0700.
- 2 Object codes 0710 through 0719 will roll to bold object code 0710.
- 3 Object 0720 is bold and rolls to itself. Objects are not bold 0724 – 0729 roll to 0720.
- 4 Object 0721 is bold and rolls to itself.
- 5 Object 0722 is bold and rolls to itself.
- 6 Object 0723 is bold and rolls to itself.
- 7 Object 0730 is bold and rolls to itself. Object 0731, 0733, 0734, 0736, 0737, 0738 and 0739 are not bold and roll to 0730.
- 8 Object 0732 is bold and rolls to itself.
- 9 Object 0735 is bold and rolls to itself.
- 10 Object codes 0740 through 0749 will roll to bold Object code 0740.
- 11 Object codes 0750 through 0799 roll to bold Object code 0700

[Return to the Table of Contents](#)

---

Note: All bold codes will exist in CDE’s database as unique items. Thus, for examples, 0732 Vehicles does not roll to 0730 and 0710 does not roll to 0700. However, items will be combined as appropriate for reporting purposes.

To meet local reporting needs, most districts will report at higher level(s) of detail than required by the Chart (as indicated in bold) for certain types of transactions. Thus, codes are predefined at a greater level of detail than required; these are the codes which are not bold. These unbold codes offer guidance and ease to districts which need to report at greater detail than provided for by bold codes alone.

In addition to predefined codes, the district is encouraged to add codes where needed. In many instances throughout this chart, notes have been included that say, “Codes \_\_\_\_\_ through \_\_\_\_\_ are available for district use.” However, even where such notes are not included, the district can add additional codes within the structure of predefined codes as long as data “rolls up” into appropriate bold account codes. Examples follow.

How to Use the “Rolling to the Bold Principle” When Adding Codes

Example. The district wants to be able to identify technology equipment purchases by major vendor. There are seven major vendors. Object code 0734 would be used first. Object codes 0736 through 0739 would be used next. The district would still need two more codes. Objects 0730, 0731 and 0733 could be used as long as the district is not using these codes for their predefined purposes and as long as the district is willing to make changes if any of these codes are made bold in the future. Objects outside the 0730 series could not be used for equipment purchases since expenditures outside the 0730 series would not roll to 0730 and, thus, such expenditures would not be recognized as equipment purchases.

CAUTION: In the future, if CDE is required to collect specific data that was not required to be collected when the Chart was developed, the addition of codes or bolding of predefined unbold codes might be necessary. If the district has used codes such as 0736 through 0738 and these codes are later defined and made bold, the district will need to make changes accordingly.

Summary of Roll-Up Rules

If the Fund, Location, Program, Object, Source, Balance Sheet, Job Classification or grant is BOLD, It rolls to itself.

When the Fund, Location, Program, Object, Source, Balance Sheet, Job Classification is not BOLD and ends in zero, it rolls to itself. When the Fund (or Location, Program, Object, Source, Balance Sheet, Job Classification) is not BOLD and does not end in zero, it rolls to the first Fund (or Location, Program, Object, Source, Balance Sheet, Job Classification) ending in zero. (Example – Funds 32 through 38 would roll to Fund 30).

Exceptions are:

- 1 Funds 26 through 29 roll to fund 20.
- 2 Funds 44 through 49 roll to Fund 41, except for fund 46.
- 3 Fund 63 rolls to Fund 64.
- 4 Locations 001 through 099 roll to Location 100.
- 5 Programs 0001 through 0009 roll to Program 0090.
- 6 Programs 2314-2319, 2322, 2323 roll to Program 2303.
- 7 Program 2910 rolls to Program 2910
- 8 Programs 2900-2909 and 2911-3099 roll to 2900
- 9 Programs 3500 through 3999 roll to Program 2900.
- 10 Programs 5000 through 5099 and Programs 5300 through 8999 roll to Program 5000.

## Appendix O: Preschool Allocations

As of FY 2023-24 Universal Preschool Program funding (UPK) will be provided from the Department of Early Childhood (DEC), FY 2022-23 is the last year funding from the Colorado Preschool Program (CPP). Therefore, as of FY 2023-24 the Preschool Allocation - use of Source code 58xx, will no longer be required.

~~Allocations to Preschools in the Colorado Preschool Program may be recorded as described below. The use of Fund 19 is optional.~~

## Appendix P: Internal Service Activities

The recording of user fee revenue generated by charging other funds within the district for services provided when such services are accounted for in internal service funds causes a double counting of revenues and expenditures when data from all funds are aggregated. To prevent the overstatement of revenue and expenditure amounts on CDE reports, districts must code revenues to the source codes listed below. Then, duplicated revenues which are generated from user fees can be identified and eliminated from reports.

Internal service user fee revenue MUST be coded to one of the following source codes:

- 1973 Internal Service Revenue – Employee Benefit Premiums
- 1974 Internal Service Revenue – Risk Management
- 1975 Internal Service Revenue – Print Shop
- 1976 Internal Service Revenue – Technology Services
- 1977 Internal Service Revenue – Warehouse Services
- 1978 Internal Service Revenue – Other

Recording transactions to Contra Accounts by School Districts using Internal Service Funds will be done through journal entry at year-end, but are not eliminated for audit reporting purposes. The entry shall be in an amount equal to the total of revenue recorded in Source Codes 1973-1978. The accounts to be used for this offset of revenue and related expenditures are as follows:

- 1979 Contra Account Source for Offset of Internal Service Fund(s) Expenditures. Used to record negative revenue as an offset to the contra object code (0529) for risk-related Internal Service Funds. Note: The purpose of this contra account is to provide a process to eliminate revenue received as a result of expenditures for services purchased by other funds.

### Example:

Throughout the year, employee benefit premiums are credited to 64.600.32.3200.1973.000.0000.

After the Data Pipeline file has been approved and everything is finalized, CDE will reopen the data file and the District will make the following journal entry to eliminate the revenue received as a result of expenditures for services purchased by other funds:

Debit – 64.000.00.0000.1979.000.0000                      Credit – 64.800.28.2850.0529.000.0000

### Example of a User Fee Transaction:

Assume the district print shop is accounted for in an internal service fund and has completed a print job for an elementary school instructional program.

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount	Description
10	1XX	00	0010	0550*	000	0000	100.00	User fee charged by district Print Shop
65	000	00	0000	1975	000	0000	100.00	User revenue

[Return to the Table of Contents](#)

---

Note: Even though location codes and program codes are not required for revenue transactions, the district may find use of location codes and/or program codes in user fee revenue account strings helpful for identifying usage by specific programs or sites.

\* Alternatively, an object 06xx supplies code may be used for print shop expenditures.

## Appendix Q: Understanding CDE Warrant (EFT and Check) Stubs

All EFT (Electronic Funds Transfer) emails and checks from CDE contain a description in the remittance advice email or on the check stub allowing districts to properly record these revenues. Remittance advice refers to the EFT remittance advice email or check stub

Remittance advices from CDE reference the Grant/Project numbers included in the Grant/Project section of this Chart of Accounts. The following example shows a typical remittance advice and the method to translate the descriptions to account strings.

STATE OF COLORADO					
Dept of Education					
<b>CATEGORY:</b> DXSP M1		<b>VENDOR NAME:</b> School District 1234		<b>CHECK NO:</b> 8000012345	
		<b>VENDOR CODE:</b> VC00000000123456		<b>ISSUED DATE:</b> 07/20/2021

123459999 3206 Read Act	1	07/18/2021	GAX DAAA 2016000009999	1	150,000.00

**Category:** Disbursement Category of DXSP is a Standard Payment from Department of Education Handling Code, M1 – Mail or C2 – Courier

**Vendor Name:** Contains the legal name of the vendor with the last four digit as the assigned district code

**Vendor Code:** CDE CORE system assigned vendor number

**Check Number:** CDE CORE system assigned check number is a 10 digit number, always starting with an 8

**Issue Date:** The date the check is issued; this is in the format of mm/dd/yyyy

**Invoice Number:** Invoice number provided on the invoice

**Line:** Invoice line number

**Date:** Date invoice was entered into system; this is in the format of mm/dd/yyyy

**Description:** Typically, the first four digits will corresponds to the Grant/Project numbers found in the State and Federal Grant Codes.

**Payment Request Number:** CDE CORE system assigned document identification number

**Line:** CDE CORE system assigned document line identification number

**Amount:** Amount to be paid to the vendor

## Translating CDE Remittance Advices to Actual Account Numbers

### FEDERAL REVENUE FROM CDE

Remittance Advice Description: 4027 IDEA Part B

The “4027” indicates the Grant number to use. Use the State and Federal Grant Codes to determine if this is a state or federal grant requiring a specific source code. All federal revenue must be coded with both a source code and a grant/project code. Federal Revenue received from CDE should be coded with Source Code 4000 and the appropriate Federal Grant Code.

Resulting Account String: 10 (or 22)-000-00-0000-**4000-000-4027**

### STATE REVENUE FROM CDE

Remittance Advice Description: 3206 Read Act

The “3206” indicates the Grant/Project number to use. Use the State and Federal Grant Codes to determine if this is a state or federal grant requiring a specific source code. In nearly all cases, State Revenue from CDE should be coded with Source Code 3000, unless indicated differently in the State and Federal Grant Codes as shown in the Chart of Accounts.

Resulting Account String: 10 (or 22)-000-00-0000-**3000-000-3206**

## Appendix R: District Debt

The recording of District Debt in Fund 90 as balance sheet accounts is necessary in the electronic data file. The information is included on the district accountability report (i.e., the District Report Card). The following balance sheet codes allow districts to report consistently. Accurate information is crucial, as this information is a highly visible and scrutinized part of the district’s Report Card.

District Debt Balance Sheet Accounts required to be reported, even if the amount is zero, are the following:

- 7511 General Obligation Bonds Payable (Principal Only: Do Not Include Interest)
- 7512 Net Effective Interest\*  
 Note: contact the bond underwriter to calculate net effective interest, if required.  
 Note: if 5.25% is the net effective interest, then 525 would be entered in the amount field. See below.
- 7513 Amount Authorized from Most Recent Bond
- 7514 Year of Last Successful Bond Election\*\*  
 Note: if 2010 was the year of the last successful bond election, then 2010 would be entered in the amount field. See below.
- 7515 Total Issued from Last Successful Bond.
- 7519 Contra Account for balance sheet codes 7511-7515

Examples of How District Debt must be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
90	000	00	0000	7511	000	0000	0000950000000
90	000	00	0000	7512*	000	0000	0000000000525
90	000	00	0000	7513	000	0000	0002500000000
90	000	00	0000	7514**	000	0000	0000000002010
90	000	00	0000	7515	000	0000	0002500000000
90	000	00	0000	7519	000	0000	-5950002535

Balance Sheet 7519 is established as a contra account. Balance Sheet 7519 should equal the sum of Balance Sheet codes 7511 through 7515. Use 7519 in the district’s accounting system to zero out district debt information. Note that in the example above, this Balance Sheet code has a negative dollar amount.

## Appendix R-1: Voter Approved Override

The recording of Voter Approved Override in Fund 90 as revenue source codes is necessary in the electronic data file. Accurate information is crucial, as this information is a highly visible.

- 1170 Amount Authorized – Voter Approved Overrides
- 1171 Amount Collected – Voter Approved Overrides
- 1172 Amount Distributed to Charter Schools – Voter Approved Overrides
- 1173 Amount Distributed to Non-Charter Schools – Voter Approved Overrides
- 1174 Amount Retained by District – Voter Approved Overrides
- 1179 Contra Account – Voter Approved Overrides

Examples of How Voter Approved Override must be recorded

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
90	000	00	0000	1170	000	0000	0000259500000
90	000	00	0000	1171	000	0000	0000256445758
90	000	00	0000	1172	000	0000	0000009000000
90	000	00	0000	1173	000	0000	0000000000000
90	000	00	0000	1174	000	0000	0000247445758
90	000	00	0000	1179	000	0000	-772391516

Revenue Source Code 1179 is established as a contra account. Revenue Source Code 1179 should equal the sum of Balance Sheet codes 1170 through 1174. Use 1179 in the district’s finance system to zero out Voter Approved Override Revenue information.

## Appendix S: Bond Refunding

Not all Districts with a Bond Redemption Fund (31) will have bond refunding. Bond refunding occurs when the district refinances bond issuances. Debt is refinanced/refunded for a variety of reasons. Frequently, debt is refunded to take advantage of lower interest rates. It's also refunded to extend maturity rates, revise payment schedules or remove restrictions contained in original (old/initial) debt agreements.

Regardless of the type of debt being refunded, all governmental entities that defease (annul/void) original debt through an advance of refunding should provide a general description of the transaction in the notes to the financial statements (in the district's annual audit) in the year of the refunding. At a minimum, the disclosures should include (a) the difference between the cash flows required to service the old debt and the cash flows required to service the new debt and complete the refunding and (b) the economic gain or loss resulting from the transaction.

Bond refunding and the sources of revenue associated with refunding must be recorded correctly so CDE can identify these transactions in the Data Pipeline submission file. Proper coding of bond refunding is the responsibility of the district, with independent audit notation under "Long Term Debt". This coding requirement ensures proper Federal reporting required on the F-33 Report.

**Source code 5111: Refunding Bond Proceeds.** For current and advance refunding of General Obligation debt resulting in defeasance (the voiding of the previous debt), the face amount of the new debt should be reported as another financing source. This source code must be used any time bonds are refunded. Note: if the new debt is issued in an amount greater than that required for the refunding, only that portion of debt service applicable to the refunding should be considered for source code 5111. Use source code 5110 for non-refunding new debt. Use source code 5400 or 5500 if it is not General Obligation Voter Approved debt.

**Source code 5121: Refunding Bond Premium/Discount.** When a bond is refunded there may also be a portion that is greater than or less than the face amount of the new debt (premium/discount) that should be coded as Source Code 5121.

**Source code 5131: Refunding Bond Accrued Interest.** When an original bond is refunded (defeased), there may be accrued interest related to the refunding bond issuance. If so, Source Code 5131, Refunding Bond Accrued Interest should be used to record that revenue.

**Audit example:** "Other Financing Sources (Uses)" section of the Statement of Revenues, Expenditures and Changes in Fund Balance for Debt Service Fund (Bond Redemption Fund, Fund 31):

Debt Service Fund		
OTHER FINANCING SOURCES (USES)		
Bond Proceeds	33,870,000.00	Source Code 5111 (Refunding Bond Proceeds)
Payment to refunded bond escrow agent	(36,715,197.00)	Object Code 0900 (Other Uses)
Premium on issuance	3,148,967.00	Source Code 5121 (Refunding Bond Premium/Discount)
Bond accrued interest	-	
Operating transfer in (out)	-	
Total other financing sources (uses)	303,770.00	

[Return to the Table of Contents](#)

When a General Obligation bond is refunded, for audit presentation purposes, in the “Notes to Basic Financial Statements”, under “General Obligation Serial Bonds”, there should be a statement of economic gain or loss. Similar Disclosures should be made for non-general obligation debt refunding.

**Audit Example (Refunding):**

On May 26, 2005, the District advance refunded and defeased (debt legally satisfied) \$39,690,000 of General Obligation Unlimited Tax Refunding bonds, Series 2001A with an average interest rate of 5.20% by the issuance of \$41,475,000 General Obligation Unlimited Tax Refunding bonds dated May 26, 2005 with an average interest rate of 4.6%. The defeased bonds are not considered a liability of the District since sufficient funds (\$43,425,578) were deposited with a trustee and invested in U.S. government securities for the purpose of paying the principal and interest of the deposited bonds when due.

The District advance refunded a portion of the 2001A Series bonds to reduce its total debt service payments over the next sixteen years by \$1,294,802 and to obtain an economic gain (difference between the present values of the debt service payments on the old and new debt) of \$1,257,711.

The District defeased certain bonds by placing the proceeds of refunding bond issues in irrevocable escrow accounts to provide for all future debt service payments on defeased bonds. The assets in these accounts and the liability for the defeased bonds are not included in the District’s financial statements. At June 30, 2005, the defeased debt was as follows:

<b>General Obligation Bonds Payable</b>	<b>Date of Issue</b>	<b>Outstanding Principal Balance</b>
Building Bonds	10/1/1995	\$5,965,000
Building Bonds	1/15/1997	\$29,450,000
Building Bonds	4/1/1998	\$10,540,000
Building Bonds	3/1/2001	\$39,690,000
		\$85,645,000

## Appendix T: Consolidated School Wide Accounting

Section 1114 of Title I of the ESEA (ESSA) allows a school in which 40 percent or more of its students are from low-income families to use its Title I funds, along with other Federal, State and local funds, to operate a school wide program to upgrade the entire educational program in a school to improve the academic performance of all students, particularly the lowest-achieving students. A school wide program school may consolidate funds from Title I, Part A as well as funds from nearly (except Reading First) all Federal elementary and secondary programs administered by the U.S. Department of Education to support its school wide plan.

If the district consolidates funds for the school wide programs, the district must follow the guidance provided in this Appendix.

To consolidate funds means that the district has identified the total pool of resources that will be used to implement the school wide plan for each specific school location and will charge the expenditure activities to an account coding that identifies each such school wide program. The school wide plan directs the level of activities that will be included or excluded from the total school wide budget for each school. For example, if the school wide plan only includes the instructional program (0010) activities, the total school wide budget may be as follows:

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
10	101	95	0010	<u>0110</u>	201	0000	1,000,000.00
10	101	95	0010	<u>0200</u>	201	0000	200,000.00
10	101	95	0010	<u>0600</u>	000	0000	50,000.00

The SRE code of 95 is used to identify the consolidated school wide plan. In this example the total school wide budget for school location number 101 is \$1,250,000. Let us also assume that the district's General Fund (State and local) sources will provide \$1,000,000 (or 80%) of this total budget and that the Title I, Part A and Title III, Part A grant programs will provide \$200,000 (or 16%) and \$50,000 (or 4%) respectively.

All of the allowable expenditure activities related to this school's school wide plan will be charged to the account code structure as identified above, using the specific school location code and the SRE code of 95.

Periodically, the allowable expenditure activities will be distributed to the various sources that contributed to the total school wide budget. This distribution may be in the same budget detail as is captured in the SRE code 95 structure or the object code of 0855 may be used as an option to the detailed object coding. Let us assume that one half of the total school wide budget has been expended to date or \$625,000 and that such expenditures have been captured in the same accounts as identified above. Of the \$625,000 total expenditures to date, the General Fund share is 80% or \$500,000, the Title I, Part A grant share is 16% or \$100,000 and the Title III, Part A grant share is 4% or \$25,000.

An example of the use of the 0855 object code is as follows:

Fund	Location	SRE	Program	Object/ Source	Job Class	Grant/ Project	Amount
10	101	95	0010	0855	000	0000	-125,000.00
22	101	95	0010	0855	000	4010	100,000.00
22	101	95	0010	0855	000	4365	25,000.00

Additional accounting lines will be needed to keep the various funds in balance. The above coding will distribute the Federal grant share of the total school wide program activities and will provide an offset to the General Fund to net its share. The detailed object coding would credit the same object coding as the detailed expenditures

[Return to the Table of Contents](#)

captured in the school wide accounts tied to the SRE code of 95 and would debit the same object codes for each Federal grant share of such activities.

## Appendix U: Charter School Food Authority (SFA)

---

With the authorization of charter schools, including the Charter School Institute (CSI) to service as a School Food Authority (SFA) a specific and required method for capturing the activities of the Charter SFA and its related schools was identified and approved by the FPP Committee.

The charter school, including CSI, which is serving as the SFA will report all of the Food Service Program activities under the SFA within its Fund 21 – Food Service Fund and under Program 3100 – Food Services Operations. The use of Fund 21 is required if the SFA is receiving USDA school breakfast/lunch money.

To accommodate the unique coding needed to account for and report the financial activities between the SFA and its related schools, the following flow-thru codes were added to the Chart of Accounts. This is not a subgranting arrangement. The SFA continues to be the responsible party and the related schools are only assisting the SFA with activities conducted on behalf of the SFA.

**Source code 1956 – Services Provided Charter School Food Authority: (Local Level).** Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA or revenue received by the contracting charter schools that needs to be recognized by the Charter SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596**, used with the appropriate grant code, which may be zero.

**Source code 3956 – Services Provided Charter School Food Authority: (State Level).** Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596**, used with the appropriate grant code.

**Source code 4956 – Services Provided Charter School Food Authority: (Federal Level).** Revenue for services provided between the Charter School Food Authority and its related schools. This revenue represents funds that were already recognized as revenue by the Charter School Food Authority and sent to the individual schools within the SFA. Use of this code ensures that all intra-Charter SFA payments can be eliminated when consolidating financial data for reporting purposes. **Offset to Object Code 0596**, used with the appropriate grant code.

**Object code 0596 – Purchased Services from Charter School Food Authority and its related schools.** This is the purchased service code to be used for purchased services between the Charter School Food Authority and its related schools in the 3100 Food Services Operations program area. **Offset to Source Codes 1956, 3956 and 4956**, used with the appropriate grant code, which may be zero.

This coding structure will also assist CDE in the isolation of the Charter School Food Authority and its related schools food services operations, including the CDE-5 reporting, from the individual district's food services operations.

To assist with applying and tracking the financial activities between the Charter School Food Authority (SFA) and its related schools, the Department has developed an optional Excel spreadsheet for use by the SFA and by each school of the SFA network. The spreadsheet includes multiple tabs for each school of the SFA network to track lunch meal data, breakfast meal data and for financial data. The values for meal price, costs and/or reimbursement figures should be discussed with and agreed to by the SFA. The sample spreadsheet is available at:

[Return to the Table of Contents](#)

<http://www.cde.state.co.us/nutrition/nutricharterschools>

This spreadsheet will assist in tracking various Federal and State child nutrition grants. It is currently setup to track the following, but may be modified to include others as needed:

Grant code 4555	Federal National School Lunch Program
Grant code 4553	Federal School Breakfast Program
Grant code 3169	State Start Smart Program.

On the meal tabs – the schools will input total meal counts for lunch and breakfast, if any, served by month for each specific month. An input form is available for each month of the fiscal year of 20xx-20xx. A separate form is available for lunch data and for breakfast data. In addition, the schools will need to input the total meals ordered information for lunch and breakfast, if any, for each specific month on the Meals Ordered (Monthly) line.

The financial data tab is linked with the lunch and breakfast meal data. The lunch and breakfast meal data will populate the specific month on the financial tab.

The financial data tab will reflect the income and expenditures generated by the lunch and breakfast meal data for each month. The lunch and breakfast meal data will also set up an Accounts Receivable from SFA (Balance Sheet (B/S) code 8142) for the calculated amount of State and Federal activities, as well as an Accounts Payable for the food costs.

Schools will also need to reflect the meal activity, including the following on their own accounting system:

Credit – Source code 1956: Grant code 4555	Food Sales – Students Lunch
Credit – Source code 1956	Food Sales – Adults Lunch
Credit – Source code 1956: Grant code 4553	Food Sales – Students Breakfast
Credit – Source code 1956	Food Sales – Adults Breakfast
Debit – Object code 0596	Food – Lunch
Debit – Object code 0596	Food – Breakfast
Credit – Source code 4956: Grant code 4555	National School Lunch Reimbursement
Credit – Source code 4956; Grant code 4553	School Breakfast Reimbursement
Credit – Source code 3956: Grant code 3169	CDE Child Nutrition Reimbursement
Debit – B/S code 8100	Cash
Debit – B/S code 8142: Grant code 4555	Accounts Receivable – SFA (Lunch)
Debit – B/S code 8142: Grant code 4553	Accounts Receivable – SFA (Breakfast)
Debit – B/S code 8142: Grant code 3169	Accounts Receivable – SFA (CDE)
Credit – B/S code 7421	Accounts Payable

An “adjustments” column is available for use by the school for each month of the fiscal year.

Mandatory entry – if net income (loss) reflects a (loss) for that specific month, a journal entry must be recorded to zero out the loss as follows:

Debit – B/S code 8100	Cash on the financial tab for the amount of the (loss)
Credit – Source code 1956	Subsidy from other funds (GF) for the amount of the (loss)

[Return to the Table of Contents](#)

To keep the schools financial records balanced, an additional entry as follows should also be made (but not posted to this spreadsheet):

Debit – Source code 1990	Miscellaneous income for the amount of the (loss)
Credit – B/S code 8100	Cash

Due to the unique nature of the SFA and its related schools, specific coding is being used for this activity.

Source codes of 1956/ 3956/ 4956 and object code of 0596 are being used for the activity that must be reported for Financial Data Pipeline purposes by the SFA and its related schools.

Once the check is received from the SFA for the payment of child nutrition activities captured by the charter school on behalf of the SFA, the following entries should be made:

Debit – B/S code 8100: Cash for the amount from the SFA  
Credit – B/S code 8141: Accounts Receivable – SFA

Note that a separate Accounts Receivable – SFA is set up for each specific activity. If the activity is related to the Federal lunch data, the grant code of 4555 should be used. If the activity is related to the Federal breakfast data, the grant code of 4553 should be used. If the activity is related to the State activity, the grant code of 3169 should be used.

Normally, the individual schools will not need to adjust the information coming from the meal data tabs.

Some additional possible entries that may be made by the individual schools (with SFA approval) are as follows:

If the school is tracking Accounts Receivable due from Parents, the following entries may be made:

Debit – B/S code 8153: Accounts Receivable – Sales  
Credit – B/S code 8100: Cash

And when payments are received from the Parents to clear the Accounts Receivable amounts, the following entries may be made:

Debit – B/S code 8100	Cash
Credit – B/S code 8153	Accounts Receivable – Sales

If the individual school has been granted approval from the SFA to reflect additional operating expenses, the following entries may be made:

Debit – Object code 0596	Salaries
Debit – Object code 0596	Employee Benefits
Credit – Source code 1956	Subsidy from other funds (GF)

Note that the specific line on the worksheet should be used for the allowable activity, but that all of the operating expenses are posted with the same object coding of 0596. Again, the school may not generate a net (loss) and therefore must use the Subsidy from the other funds (GF) line to cover any such deficit.

If the operating expenses are being moved from other expenditure lines within the schools General Fund, the following additional entries may be needed (but not posted to this spreadsheet):

[Return to the Table of Contents](#)

---

Debit Source code 1990: Miscellaneous income for the total amount of the operating expenses being charged to the food service operation (Program code 3100)

Credit Object code used for the original operating expenses being reclassified.

It should be noted that if the additional operating expenses will not generate a net (loss) due to profits being generated by the program, the source code of 1956 and source code 1990 may be replaced with the use of B/S code 8100 – Cash instead.

If the school received income prior to the actual meal being served, the following entries may be made:

Debit – B/S code 8100	Cash
Credit – B/S code 7481	Deferred Revenue – Sales

If the food vendor was paid for the cost of the calculated meals, the following entries should be made:

Debit– B/S code 7421	Accounts Payable for the amount paid to the food vendor
Credit– B/S code 8100	Cash

Note that some additional lines have been included on the financial data tab for future expansion of the food service program. These additional lines should only be used with the approval of the SFA.

After the individual school has input and adjusted the meals and financial data for that specific month, the file should be saved and emailed to the SFA. The SFA will update their master file for each individual school, as well as for the SFA food service operations.

## ► Summary of Chart of Accounts Changes for Fiscal Year 2024-2025

---

The following material changes were made to the charter of accounts.

1. Dates, cover page, Financial Policies and Procedures (FPP) Advisory Committee page and Table of Contents page all updated. Adjustments were made to formatting and inconsequential edits to word choice.
2. All “arrows” “►” indicating changes made for the FY 2023-2024 Chart of Accounts have been removed.
3. All new “arrows” “►” indicate changes that are effective July 1, 2024 (i.e., Fiscal Year 2024-25)
4. FY 2024-2025 State and Federal Grant/Project Codes Updated
5. Page 16, 17, 160: update title and definition for location code 940-949 Online/Career/Technical Charter Schools.
6. Page 19: add clarifying language to the introductory paragraph of SRE section in COA
7. Pages 26-31, 144-147, 148-158: the Instruction programs 0100-1699 are consolidated to the primary purpose for the program and an ‘Other’ classification. Including updates to Appendix I and addition of Appendix I-2.
8. Page 27, 144, 152: add program code 0650 English Language Learners (ELL)
  - non-bold rolls to 0600
9. Page 37: add program code 2135 Visually Impaired/Vision Services.
  - non-bold rolls to 2100
