

COLORADO

ATTACHMENT T – Fiscal Year 2024

Condition Governing Title I, Part A Grants to Local Educational Agencies

On August 27, 2019, the U.S. Department of Education (Department) issued a letter to the Colorado Department of Education (CDE) (<https://oese.ed.gov/files/2020/04/Colorado-7.pdf>) that specified additional information needed for review and approval of the State's English language proficiency (ELP) standards and assessments under section 1111(b)(1) and (2) of the Elementary and Secondary Education Act of 1965 (ESEA) and placed a condition on Colorado's Title I, Part A grant award pending receipt of the information. The Department acknowledges that the State has demonstrated progress towards meeting some, but not all, of the requirements. The condition continues to apply to the State's receipt of funds under this award for FY 2024. If this condition is not resolved, the Department may request additional information, revise this condition to require further action, or provide notice of its intent to take further administrative action.
