

Registered Behavior Technician (RBT)™

Session 8: September 26th, 2019 – March 23rd, 2020

Online Learning

Instructor: Kelsey Young, M.A.

Overview

This 40+ hour readiness training is a **free**, self-directed, online training which fulfills the Behavior Analyst Certification Board's (BACB) eligibility training requirements toward attaining a Registered Behavior Technician™ (RBT™) credential. An RBT is a paraprofessional, teacher or practitioner who practices under the close, ongoing supervision of a Board Certified Behavior Analyst (BCBA) or Board Certified Assistant Behavior Analyst (BCaBA). The RBT is primarily responsible for the direct implementation of behavior-analytic services, but does not design intervention or assessment plans. Other participants who might be interested in going through the course for content include: parents, school psychologists, social workers, counselors, speech-language pathologists, occupational therapists, school intervention team members, direct-care staff working in schools, homes or clinical settings, etc.

The curriculum will fulfill the BACB RBT Task List <http://bacb.com/rbt-task-list/> standards.

RBT Task List Content Areas:

1. Measurement
2. Assessment
3. Skill Acquisition
4. Behavior Reduction
5. Documentation and Reporting
6. Professional conduct and Scope of Practice

All lessons must be completed within 180 days. Once a month, students will have the opportunity to meet over Zoom with one of the Certified Instructors to ask questions about the content and discuss case study scenarios that align with the content.

This training program is based on the Registered Behavior Technician Task List and is designed to meet the 40-hour training requirement for the RBT credential. This program does not include the supervision and exam portions of the requirements. The program is offered independent of the BACB. For a complete list of requirements for the RBT credential, visit the BACB website:
