

## August 2019 - – Istation Newsletter for Colorado Educators

Just as intervention should be catered to the needs of individual students, professional development should be catered to the needs of your district! Istation's Professional Development (PD) team addresses the specific needs of a district or school to move beyond the regular training of simply how to use a program.

Istation's PD specialists have real-world teaching experience and technical support that will help drive adoption, boost implementation, and optimize usage. They will teach you how to integrate Istation data into everyday lessons as well as intervention lessons.

Watch the video below to hear from some of our specialist!

[https://www.youtube.com/watch?time\\_continue=2&v=Kxg7\\_9Hth24](https://www.youtube.com/watch?time_continue=2&v=Kxg7_9Hth24)

After you finish a professional development session with Istation, you will have effective tools to apply to your classroom the very next day!

Happy School Year! We look forward to another year with you as a trusted partner!
