

# Rubric for Evaluating Colorado’s Specialized Service Professionals: School Psychologist Simulation

## Definition of an Effective School Psychologist

Effective school psychologists are vital members of the education team. They are properly credentialed and demonstrate professional expertise in psychoeducational assessment practices, interventions and crisis preparedness and response. Effective school psychologists provide services to help all children and youth succeed academically, socially, behaviorally and emotionally. Effective school psychologists strive to support growth and development in the least restrictive environment, close achievement gaps and prepare diverse student populations for postsecondary and workforce success. They have a foundation in both psychology and education, are experts in addressing barriers to educational success. They engage in data-based decision making to plan and deliver effective and culturally responsive services. They have a deep understanding of the interconnectedness of the home, school and community and collaborate with all members of the education team to strengthen those connections. Through reflection, advocacy and leadership, they enhance the academic achievement and personal/social development of their students.

## Observations, Required Measures and Other Evidence/Artifacts for School Psychologists

**S.B. 10-191 REQUIRES MULTIPLE MEASURES OF EDUCATOR PERFORMANCE MEASURED ON MULTIPLE OCCASIONS THROUGHOUT THE YEAR.** For specialized service professionals this requirement is defined as required measures and optional additional measures (evidence/artifacts). While the rubric serves as the data collection tool for observations, districts and BOCES must determine the method for collecting data regarding required measures and additional evidence/artifacts. This chart serves as a reminder of the required measures that must be discussed annually and evidence/artifacts that may be discussed at the end of the evaluation cycle to confirm the accuracy of ratings.

**SHALL BE BASED ON AT LEAST ONE OF THE FOLLOWING PERFORMANCE MEASURES, WHEN APPROPRIATE TO THE SSP'S ASSIGNED DUTIES:**

- Student perception measures, where appropriate and feasible
- Peer feedback
- Parent or guardian feedback
- Student support documentation

### ADDITIONAL EVIDENCE/ARTIFACTS:

Evaluation of professional practice may include additional measures such as those listed below. These are provided as examples of evidence the evaluator and/or educator being evaluated may share with each other to provide evidence of performance in addition to observations and evaluator ratings collected on the rubric.
