

What is the Random Moment Time Study (RMTS)?

RMTS is part of the *Health First Colorado* reimbursement methodology implemented by Colorado Department of Health Care Policy and Financing.

- Randomly assigned time studies containing five questions are emailed to direct service providers
- Responses determine the percentage of time spent providing IEP services
- Statewide percentages are used to determine *Health First Colorado* reimbursement districts will receive
- Providers may receive one or more studies per quarter
- Responses are mandatory

What is the Annual Cost Report?

Cost Report identifies annual district costs for providing IEP, 504 Plan, or other plan of care services.

Includes direct service providers salary/benefits, transportation, medical supplies and equipment

Portion of these costs distributed to district school *Health First Colorado* Program to fund health and health related services to all students

Colorado School Health Services Program

ADMINISTRATOR'S GUIDE

Presented by the
Colorado Department of Education
and
The Department of Health Care
Policy and Financing

What is the School Health Services Program?

The School Health Services Program allows:

- School districts to seek reimbursement from *Health First Colorado*
- Partial reimbursement for *Health First Colorado*-eligible students with IEPs health and medical services

Districts are required to use reimbursement funds for additional or enhanced health/health-related services for all students.

What is my role?

Administrators are vital to the success of the program as ambassadors to staff and district leadership.

- Contact district *Health First Colorado* Coordinators for program details:
 - How does the program support student health?
 - Which health services are funded with *Health First Colorado* reimbursement?
- Support the program by providing *Health First Colorado* direct service documentation trainings

What is the *Health First Colorado* Administrative Claiming (MAC)?

MAC is an additional source for *Health First Colorado* reimbursement:

- MAC partially reimburses districts for cost of providing *Health First Colorado/Child Health Plan Plus (CHP+)* outreach to uninsured families
- MAC partial reimburses the of costs distributed to districts used to:
 - Increase the district's outreach to uninsured students and families
 - Provide assistance with access to health care

Families are assisted with applying for:

- *Health First Colorado/CHP+*
- Provided community resources and
- Assisted with accessing:
 - Health
 - Dental
 - Mental health providers
