## Informational Webinar: Individualized Problem Solving within RtI

**November 6, 2017**

**3:30 PM - 4:00 PM**

Colorado has been selected by the National Center for Intensive Intervention to participate in a five year technical assistance project to implement an individualized problem solving process within RtI.

- Learn about our upcoming TA opportunity to plan and implement an individualized problem solving process within RtI
- Focused on students who have not responded to Tier I & II interventions, this opportunity will be concentrated on Tier III interventions

This work is “aimed at district or school teams involved in initial planning or implementation of data-based decision making as it relates to [individualized problem solving] as a framework for providing intensive intervention in academics and behavior.”

(National Center on Intensive Intervention, 2017)

- Additional information about the webinar is forthcoming and will be posted on the Office’s websites.
