United States®
Census
2020

What is a Census?

A count of all persons
living in the United States on April 1st
conducted every 10 years

Census Day is April 1, 2020

It's Important!

Census counts influence
representation by determining:

The number of seats each state has in
the US House of Representatives

- How state house and senate districts are redrawn
- County Commissioner and City Council Districts

It's Important!

Colorado received \$2,300/person per year,
or over \$13 billion in 2016 for programs like:

- Senior Services
- Health Services
- Public Housing (Section 8)
- Public Assistance (SNAP)
- Women, Infants, & Children (WIC)
- Education
- School Lunch
- Road Improvements
- Programs for Veterans
- Community Colleges
- Tuition Assistance
- Health Centers
- Public Libraries
- Community Centers

It's Easy!

EVERYONE COUNTS Census 2020

Census Resources for School and District Leaders

To assist local communities to prepare for the 2020 Census, CDE has created toolkits with relevant resources for school and district leaders and educators.

Colorado educators and education leaders can expect resources to build awareness of the census in the fall of 2019 and resources for supporting participation in early 2020.

CDE is also working with the state's Complete Count Committee to develop and disseminate communication resources and enable local complete count committees to meet local needs.
