P-TECH Student Coding
October Count & End of Year

"A p-tech school, or the host school for a p-tech program, shall notify the department prior to a p-tech student's twelfth-grade year if the student will continue to be enrolled in the p-tech school for grades thirteen or fourteen" *[C.R.S 22-35.3-104(1)(c)]*. Per Colorado P-TECH law, students can transfer into a P-TECH school/program no later than at the beginning of their 3rd (junior) year of high school. All students that are participating in a P-TECH school/program during their 3rd (junior) and 4th (senior) years of high school must be reported with **Postsecondary Program code of 15 (in October Count),** and a **Retention Code of 00 (in End of Year)** in order to be eligible to receive P-TECH funding for their 5th and 6th years.

The student coding progression in this graph assumes that the student met the district's minimum graduation requirements **at the end of the 4th year and graduated with a regular diploma**.
