**SACPIE Vision:** Through increased family partnerships, we envision:

- **reduced dropout rates**
- **reduced gaps in academic achievement and growth among student groups**
- **increased number of students who continue into higher education following high school graduation or completion**

**SACPIE Mission:** SACPIE will review best practices and recommend to policy makers and educators strategies to increase family partnerships in public education, thereby helping to improve the quality of public education and raise the level of students’ academic achievement throughout Colorado.

**National Standards for Family School Partnerships (PTA, 2008)**

**Standard 1 – Welcoming All Families into the School Community**

Families are active participants in the life of the school, and feel welcomed, valued, and connected to each other, to school staff, and to what students are learning and doing in class.

**Standard 2 – Communicating Effectively**

Families and school staff engage in regular, two-way, meaningful communication about student learning.

**Standard 3 – Supporting Student Success**

Families and school staff continuously collaborate to support students' learning and healthy development both at home and at school, and have regular opportunities to strengthen their knowledge and skills to do so effectively.

**Standard 4 – Speaking Up for Every Child**

Families are empowered to be advocates for their own and other children, to ensure that students are treated fairly and have access to learning opportunities that will support their success.

**Standard 5 – Sharing Power**

Families and school staff are equal partners in decisions that affect children and families and together inform, influence, and create policies, practices, and programs.

**Standard 6 – Collaborating with the Community**

Families and school staff collaborate with community members to connect students, families, and staff to expanded learning opportunities, community services, and civic participation.

**Additional SACPIE 7<sup>th</sup> Standard: Providing Professional Development and Pre-Service Training in Partnering with Families for Administrators and Teachers**

Educators have knowledge and skills in reaching out to every family, creating meaningful partnerships focused on student success.
