

2019-2020 Student Interchange – Student School Association

Purpose:

The purpose of the Student School Association (SSA) file is to capture the school(s) in which a student attends in your district throughout the currently selected school year for funding and accountability purposes.

Dependencies:

Student has been assigned a SASID and has been updated in the RITS system.

A record for the SASID/student exists in the Student Interchange-Student Demographic file.

***Important!** If there is not a record in the Demographics file, then the record will not be included in the snapshot.

Record Expectation:

In the Student Interchange-Student School Association File the LEA should submit any incident of mobility (entry, exit, grade change, etc.) for each school within the LEA at any point in the currently selected school year. Since the SSA file contains funding information, a district is required to have a record at this level. For this file, a student must have at least one record and may have multiple records at the school level.

Use Summary: (Fields from this file are used in the following CDE Collections which require LEA/AU effort):

Public School Finance Funding Status – An indication of level of funding a student is eligible to receive and the source of that funding. This includes an indication if a student is eligible for full-time or part-time funding or if they are not eligible for funding. Specific guidelines in meeting the criteria for establishing full-time and part-time membership, refer to the procedures manual and the Rules for the Administration of the Public School Finance Act.

Multi-district online schools must use online funding codes (92, 95, or 96) unless the student is participating in ASCENT

Date First Enrolled in the U.S. – This field collects the date a student first enrolled in any public or non-public US school (not including Puerto Rico). The value should be report in MMDDYYYY format or zero-filled when applicable.

1. Districts may zero-fill this field and CDE will calculate the date of first enrollment based upon the date a student first had an entry date in a CDE student interchange data collection.
2. If a date has been entered for a student CDE will not override that field with a calculated value, though the entered value may not be more recent than the date CDE calculates.
3. Students with an entry type of 14 (Entry from another state) as their earliest entry in their educational history may not have this field zero-filled.
4. Schools on US military bases count as US schools
5. Home School does not count as a “public or non-public school.”

2019-2020 Student Interchange – Student School Association

Note:

- Students with an entry code of 05 (Entry from another country) and 16 (Entry from homeschool) will generate a warning asking a district to confirm the Date of First Enrollment.
- Student in grades greater than 010 (first grade) will generate a warning if their entry type is 01 (new to educational system) or 06 (entry from unknown educational setting).
- Student’s date of first enrollment will be calculated based on the earliest entry date in the grades kindergarten and greater.

2019-2020 Student Interchange – Student School Association

Pursuant to Section 22-33-104.5(6)(a), C.R.S.; 1 CCR 301-39-5.13, home-based education students are eligible to receive a maximum of **part-time** funding by the reporting district if the student meets the part time funding requirements: “the pupil is enrolled and is attending a district educational program which provides at least 90 hours of teacher-pupil instruction and teacher-pupil contact in the semester of the pupil enrollment count date or the alternative count date.”

Please note that just because a home school student is receiving educational services from the district, it does NOT mean they are eligible for funding. These students would still need to meet the funding eligibility requirements.

In addition, regardless of the amount of education a district is providing to a home school student, the maximum funding a home based / home school student can receive is part time.

Full time funding does **not** apply:

There has been confusion with some districts who have reported home school student as eligible for full time funding because the student is:

1. Attending a home options program/school (which usually meets the 90 hour requirement for part time funding) and
2. Enrolled in CE courses (3 credit hours = part time).

The districts assume that because these students are part time at the district location and part time in CE the student is eligible for Full Time funding. This is NOT the case. It’s up to the district to determine what educational services they will make available to home school students, however the most funding they can receive is part time.

Some Common Examples:

1. Home school student for whom the district has an “Intent to Home school” on file, but for whom the district is providing NO educational services:
 - a. Do not include the student in the Student October Count data submission
 - b. Include in the summary by grade reported to CDE
2. Home school student who is enrolled at a district school taking one class.:
 - a. Include in the Student October Count data submission,
 - b. But because the one class does not allow for a minimum of 90 semester hours, this student would be funded with an “86” funding code
3. Home school student who is enrolled at a district school and is taking three classes at the local high school (the equivalent of part time funding for a traditional student):
 - a. Include in the Student October Count data submission
 - b. But limited to part-time funding because the student is designated as a home school student (meaning their primary educational

2019-2020 Student Interchange – Student School Association

services are being provided in a home based educational setting).

Note: these students can be taking classes at a traditional school, an online school, or at a home options school.

- 4. Home school student is enrolled in a district home school program (which meets the 90 hour requirement for part time) and is also taking one CE course (3 credit hours) at the local Institute of Higher Education (IHE):
 - a. Include in the Student October Count data submission
 - b. But would be limited to part time funding because the student is designated as a home school student (meaning their primary educational services are being provided in a home based educational setting).

03	School District or BOCES Program – Student is receiving <u>all</u> of their educational services through a program that is run and operated by another district or BOCES .
04	Third Party Program – Student is receiving <u>all</u> of their educational services through a program that is run and operated by a third party with which a district has a contractual agreement. <i>A third party program does not meet the definition of (1) a nonpublic school (i.e., private or parochial school), (2) a public agency (i.e., Head Start), (3) school district, (4) an Approved Facility School, or (5) BOCES or BOCES educational program.</i> Examples of a third party educator include, but are not limited to: <ul style="list-style-type: none"> • Programs operated and staffed entirely by an institution of higher education (IHE) <ul style="list-style-type: none"> ○ Including students participating in ASCENT • Privately run HSED preparation programs • Education services provided to expelled students by a private company
