

2023-2024 Student Interchange – Graduation Guidelines

Changes from 2022-2023 are highlighted in yellow.

Purpose:

The purpose of the Graduation Guidelines (GG) file is to record student outcomes that CDE must use to calculate and report, per C.R.S. 22-11-204(4), including the percentage of students who have graduated, having met minimum standards in the state board's graduation guidelines menu of options established pursuant to C.R.S. 22-2-106(1)(a.5) and the percentage of students who have met the state board's higher achievement level standards (higher bar) established pursuant to C.R.S. 22-11-104(2)(a).

Important:

Completion of this interchange is not required for Student October. Data entered here for Student October is not included in the Student October snapshot nor does it impact Student October funding. This file is only required for Student End of Year and will not impact other collections.

Dependencies:

Student has been assigned a SASID and updated in the RITS system.

A record for the SASID/student exists in the Student Interchange—Student Demographic file.

A record for the SASID/student exists in the Student Interchange—Student School Association file.

Record Expectation:

Records in this file should represent the graduation guidelines a student completed during the school year. Guideline completion can also be reported retroactively if that completion was omitted during the school year the student initially earned the guideline score or if completion was not reported by a previous district. Schools should retain copies of score reports, transcripts or industry certificates used as the basis of reporting graduation guideline completion and provide that documentation to receiving districts for validation purposes if the student transfers. Report the district and school the student currently attends regardless of where they were in attendance when they received the guideline score.

The LEA should submit:

- 1) One record for each graduation guideline the student has completed.
- 2) A score within the acceptable range for the reported guideline type and name.

A student should have one record for each guideline they have completed.

Use Summary: (Fields from this file are used in the following CDE Collections which require LEA/AU effort):

Field Descriptions:

NOTE: Zero-fill all non-applicable fields. No blanks are allowed.

Reporting School District/BOCES Code – A unique code assigned to a district by CDE. [Refer to School District/BOCES Code table.](#)

Student's State ID (SASID) – A unique ten-digit number must be assigned to each student by CDE.

School Code – A unique code assigned by CDE to a school building for the school the student is currently attending. Refer to "School Building Codes" posted at http://www.cde.state.co.us/datapipeline/org_orgcodes for a listing of school codes.

This is an optional field and may be zero-filled, '0000'.

Student's First Name – A name given to an individual at birth, baptism, or during another naming ceremony, or through legal change.

2023-2024 Student Interchange – Graduation Guidelines

Changes from 2022-2023 are highlighted in yellow.

Student’s Last Name – The name borne in common by members of a family.

Student’s Gender – An individual’s sex.

01	Female – identifies as female (including a transgender student who identifies exclusively as female)
02	Male – identifies as male (including a transgender student who identifies exclusively as male)
03	Nonbinary – does not identify exclusively as male or female. Nonbinary does not refer to a transgender student who identifies exclusively as either male or female.

Student’s Date of Birth – The month, day, and year on which an individual was born (i.e., 09151989).

Guideline Type – Every student must meet a guideline in both English and Math to satisfy the state graduation guidelines requirement. Please indicate if this record is meant to serve as a measure of a student meeting an English or Math guideline.

Each guideline evaluates both Math and English proficiencies. A student must meet guidelines for both Math and English; however, they do not need to follow the same guideline for both. (For example, a student can demonstrate English proficiency through an ACCUPLACER score and Math proficiency through a District Capstone.)

Please Note: When reviewing the Graduation Guidelines Menu of Options, English measures are synonymous with Reading/Writing/Communicating and Math measures are synonymous with Mathematics. For reporting purposes, “English” and “Math” are utilized.

0	English
1	Math

Guideline Names and Scores – Please review the table below for approved guidelines, the abbreviation code for each guideline name, and the acceptable scores for each guideline, and the minimum benchmark score for each guideline.

Guideline Name – An abbreviation for the guideline being reported. Some guidelines can only be reported as an English or Math score and not both (like the ACCUPLACER Elementary Algebra guideline can only be reported as a Math guideline).

Guideline Score – A score value associated with the given guideline name. The accepted codes will vary based upon the guideline name given. CDE will accept scores that do not meet the state determined benchmarks so that LEAs may report all students who attempt each guideline rather than only those who

met the graduation guideline benchmark score. In some cases, a score may just be a flag value indicating a student passed using the given guideline type. **Do not include leading zeros for this data field. Only values within the accepted score range for the given Guideline Name are valid.**

Example: A value of 1 can be reported as passing the graduation guideline for a District Capstone but would not be an acceptable value for a record with the SAT guideline reported, which must range from 200-800

School Year of Completion – This is the school year that the graduation guideline was completed. This field should be reported using both calendar years without a hyphen (i.e., 20202021 for the 2020-21 school year). In cases where the guideline benchmark scores have increased, the benchmark scores in place during the School Year of Completion will be used to evaluate guideline completion. If the guideline score is for the current school year or is unknown this field can be zero-filled or filled with the current school year.

End of field definitions

The graduation guidelines law provides that students with disabilities (with an IEP), English learners, and students in gifted and talented programs may receive district determined alternative accommodations to the graduation guidelines requirements.
