2022-2023 Teacher Student Data Link Snapshot

Purpose:
The purpose of the Teacher student Data Link Snapshot is to capture the data from the TSDL interchange file which links the students to courses and instructors (if available) for the reported school year. CDE relies on the TSDL snapshot data to populate and create the Student Course Participation and Achievement Report (as required by C.R.S 22-11-503.5) as well as complete required reporting for migrant students. Other CDE reports, such as educator effectiveness, and federal programs, such as the Office of Civil Rights, rely on accurate data.

Dependencies:
Each student has been assigned a Student Identifier (SASID) and updated through the Record Integration Tracking System (RITS). Each staff has been assigned an Educator Identifier (EDID) and updated through the Educator Identity System (EDIS). Data for reporting school year is complete and error free in the Teacher Student Data Link Interchange.

Criteria:
Pull all error-free records from the TSDL Interchange file.
