

First Grade

Comprehensive Health

Colorado Academic Standards Comprehensive Health and Physical Education Standards

"In the great work of education, our physical condition, if not the first step in point of importance, is the first in order of time. On the broad and firm foundation of health alone can the loftiest and most enduring structures of the intellect be reared." ~Horace Mann

~~~~~

"We know what the Greeks knew: that intelligence and skill can only function at the peak of their capacity when the body is healthy and strong, and that hardy spirits and tough minds usually inhabit sound bodies." ~John F. Kennedy

~~~~~

Preparing students for the 21st century cannot be accomplished without a strong and sustained emphasis on all students' health and wellness. It no is longer acceptable to think of "gym class" and "hygiene lessons." Today's world has exploded with physical, mental, and social influences that affect not only learning in school, but also the lifelong health of the citizens that schools are preparing for graduation. Health and physical education prepare students to function optimally as students, global citizens, and workers who demonstrate personal responsibility for one's health and fitness through an active, healthy lifestyle that fosters a lifelong commitment to wellness.

Health education and physical education are separate disciplines, each with a distinct body of knowledge and skills. However, the two disciplines are naturally interdisciplinary and clearly complement and reinforce each other to support wellness. Schools have a unique role and responsibility to address both health and physical education from preschool through twelfth grade to instill and reinforce knowledge and skills needed to be healthy and achieve academically.

Colorado's comprehensive health and physical education standards lay out a vision for these vitally important disciplines, and describe what all students should know and be able to do at each grade level through eighth grade and in high school. The authors of this document were preschool through twelfth-grade educators, higher education professors, business representatives, and community members. The group developed a set of competencies starting with "the end in mind." What concepts and skills would a "prepared graduate" in the 21st century possess when he or she left high school? The answers to this question framed the work that led to the development of four standards in comprehensive health and physical education for preschool through twelfth grade.

Standards Organization and Construction

As the subcommittee began the revision process to improve the existing standards, it became evident that the way the standards information was organized, defined, and constructed needed to change from the existing documents. The new design is intended to provide more clarity and direction for teachers, and to show how 21st century skills and the elements of school readiness and postsecondary and workforce readiness indicators give depth and context to essential learning.

The "Continuum of State Standards Definitions" section that follows shows the hierarchical order of the standards components. The "Standards Template" section demonstrates how this continuum is put into practice.

The elements of the revised standards are:

Prepared Graduate Competencies: The preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

Standard: The topical organization of an academic content area.

High School Expectations: The articulation of the concepts and skills of a standard that indicates a student is making progress toward being a prepared graduate. *What do students need to know in high school?*

Grade Level Expectations: The articulation (at each grade level), concepts, and skills of a standard that indicate a student is making progress toward being ready for high school. *What do students need to know from preschool through eighth grade?*

Evidence Outcomes: The indication that a student is meeting an expectation at the mastery level. *How do we know that a student can do it?*

21st Century Skills and Readiness Competencies: Includes the following:

- ***Inquiry Questions:***
Sample questions are intended to promote deeper thinking, reflection and refined understandings precisely related to the grade level expectation.
- ***Relevance and Application:***
Examples of how the grade level expectation is applied at home, on the job or in a real-world, relevant context.
- ***Nature of the Discipline:***
The characteristics and viewpoint one keeps as a result of mastering the grade level expectation.

Continuum of State Standards Definitions

STANDARDS TEMPLATE

Content Area: NAME OF CONTENT AREA

Standard: The topical organization of an academic content area.

Prepared Graduates:

- The P-12 concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting

High School and Grade Level Expectations

Concepts and skills students master:

Grade Level Expectations: The articulation, at each grade level, the concepts and skills of a standard that indicates a student is making progress toward being ready for high school.

What do students need to know?

Evidence Outcomes

Students can:

Evidence outcomes are the indication that a student is meeting an expectation at the mastery level.

How do we know that a student can do it?

21st Century Skills and Readiness Competencies

Inquiry Questions:

Sample questions intended to promote deeper thinking, reflection and refined understandings precisely related to the grade level expectation.

Relevance and Application:

Examples of how the grade level expectation is applied at home, on the job or in a real-world, relevant context.

Nature of the Discipline:

The characteristics and viewpoint one keeps as a result of mastering the grade level expectation.

Prepared Graduate Competencies in Comprehensive Health and Physical Education

The prepared graduate competencies are the preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

Prepared Graduates in Movement Competence and Understanding:

- Demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activity
- Demonstrate understanding of movement concepts, principles, strategies, and tactics as they apply to learning and performing physical activities

Prepared Graduates in Physical and Personal Wellness:

- Participate regularly in physical activity
- Achieve and maintain a health-enhancing level of physical fitness
- Apply knowledge and skills to engage in lifelong healthy eating
- Apply knowledge and skills necessary to make personal decisions that promote healthy relationships and sexual and reproductive health
- Apply knowledge and skills related to health promotion, disease prevention, and health maintenance

Prepared Graduates in Emotional and Social Wellness:

- Utilize knowledge and skills to enhance mental, emotional, and social well-being
- Exhibit responsible personal and social behavior that respects self and others in physical activity settings

Prepared Graduates in Prevention and Risk Management:

- Apply knowledge and skills to make health-enhancing decisions regarding the use of alcohol, tobacco, and other drugs
- Apply knowledge and skills that promote healthy, violence-free relationships
- Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Colorado Academic Standards Comprehensive Health and Physical Education

The Colorado Academic Standards in comprehensive health and physical education are the topical organization of the concepts and skills every Colorado student should know and be able to do throughout their preschool through twelfth-grade experience.

1. Movement Competence and Understanding (Physical Education)

Includes motor skills and movement patterns that teach skill and accuracy in a variety of routines, games, and activities that combine skills with movement; demonstrates the connection between body and brain function; and creates patterns for lifelong physical activity.

2. Physical and Personal Wellness (Shared Standard)

Includes physical activity, healthy eating, and sexual health and teaches lifelong habits and patterns for a fit, healthy, and optimal childhood and adulthood; examines society, media, family, and peer influence on wellness choices; practices decision-making and communication skills for personal responsibility for wellness; and identifies the consequences of physical inactivity, unhealthy eating, and early sexual activity. Includes health promotion and disease prevention, and teaches responsibility and skills for personal health habits as well as behavior and disease prevention; sets personal goals for optimal health; examines common chronic and infectious diseases and causes; and recognizes the physical, mental, and social dimensions of personal health.

3. Emotional and Social Wellness (Shared Standard)

Includes mental, emotional, and social health skills to recognize and manage emotions, develop care and concern for others, establish positive relationships, make responsible decisions, handle challenging situations constructively, resolve conflicts respectfully, manage stress, and make ethical and safe choices; examines internal and external influences on mental and social health; and identifies common mental and emotional health problems and their effect on physical health.

4. Prevention and Risk Management (Shared Standard)

Includes alcohol, tobacco, and other drug prevention; violence prevention; and safety; teaches skills to increase safe physical and social behavior in at home, in school, in the community, and in personal relationships; provides specific knowledge on avoidance of intentional and unintentional injuries; and practices decision-making and communication skills to avoid drug use, bullying, and dating violence.

The standards are organized in the following manner:

- **Physical Education Standards**
 1. Movement Competence and Understanding
 2. Physical and Personal Wellness
 3. Emotional and Social Wellness
 4. Prevention and Risk Management

- **Comprehensive Health Education Standards**
 2. Physical and Personal Wellness
 3. Emotional and Social Wellness
 4. Prevention and Risk Management

4. Prevention and Risk Management	<ol style="list-style-type: none"> 1. Demonstrate strategies to avoid hazards in the home and community

21st Century Skills and Readiness Competencies in Comprehensive Health and Physical Education

Colorado's Description of 21st Century Skills

Colorado's description of 21st century skills is a synthesis of the essential abilities students must apply in our rapidly changing world. Today's students need a repertoire of knowledge and skills that are more diverse, complex, and integrated than any previous generation. Comprehensive health and physical education are inherently demonstrated in each of Colorado's 21st century skills, as follows:

Critical Thinking and Reasoning

Health and physical education are disciplines grounded in critical thinking and reasoning. Developing and maintaining lifelong wellness habits involves decision-making and communication skills that sometimes can determine life-and-death outcomes. The skills and knowledge gained in health and physical education provide the structure that makes it possible to prevent risk behavior and adopt healthy lifestyles. Without good health and physical activity, critical thinking and reasoning are compromised.

Information Literacy

The disciplines of health and physical education equip students with the tools and habits of mind to organize and interpret a multitude of rapidly changing information resources. Students who are literate in health and physical education can analyze effectively primary and secondary sources, detect bias, use learning tools, including technology and media, and clearly communicate thoughts using sound reasoning.

Collaboration

The health and physical education content areas directly involve students in teams, problem-solving groups, and community connections to support the overall health of the individual and the community. Students offer ideas, strategies, solutions, justifications, and proofs for others to evaluate. In turn, students use feedback to improve performance and interpret and evaluate the ideas, strategies, solutions, and justifications of others.

Self-Direction

Understanding and participating in health and physical education requires a productive disposition, curiosity, personal motivation, and self-direction. Health and physical education are more than passive learning. Individual active participation, practice, and competence are underlying principles of these content areas.

Invention

The health and physical education disciplines are a dynamic set of content area disciplines, ever expanding with new research, ideas, and understandings. Invention is the key element of the expansion as students make and test theories and skills, create and use tools, search for patterns and themes, and make connections among ideas, strategies, and solutions.

Colorado’s Description for School Readiness

(Adopted by the State Board of Education, December 2008)

School readiness describes both the preparedness of a child to engage in and benefit from learning experiences, and the ability of a school to meet the needs of all students enrolled in publicly funded preschools or kindergartens. School readiness is enhanced when schools, families, and community service providers work collaboratively to ensure that every child is ready for higher levels of learning in academic content.

Colorado’s Description of Postsecondary and Workforce Readiness

(Adopted by the State Board of Education, June 2009)

Postsecondary and workforce readiness describes the knowledge, skills, and behaviors essential for high school graduates to be prepared to enter college and the workforce and to compete in the global economy. The description assumes students have developed consistent intellectual growth throughout their high school career as a result of academic work that is increasingly challenging, engaging, and coherent. Postsecondary education and workforce readiness assumes that students are ready and able to demonstrate the following without the need for remediation: Critical thinking and problem-solving; finding and using information/information technology; creativity and innovation; global and cultural awareness; civic responsibility; work ethic; personal responsibility; communication; and collaboration.

How These Skills and Competencies are Embedded in the Revised Standards

Three themes are used to describe these important skills and competencies and are interwoven throughout the standards: *inquiry questions; relevance and application; and the nature of each discipline*. These competencies should not be thought of stand-alone concepts, but should be integrated throughout the curriculum in all grade levels. Just as it is impossible to teach thinking skills to students without the content to think about, it is equally impossible for students to understand the content of a discipline without grappling with complex questions and the investigation of topics.

Inquiry Questions – Inquiry is a multifaceted process requiring students to think and pursue understanding. Inquiry demands that students (a) engage in an active observation and questioning process; (b) investigate to gather evidence; (c) formulate explanations based on evidence; (d) communicate and justify explanations, and; (e) reflect and refine ideas. Inquiry is more than hands-on activities; it requires students to cognitively wrestle with core concepts as they make sense of new ideas.

Relevance and Application – The hallmark of learning a discipline is the ability to apply the knowledge, skills, and concepts in real-world, relevant contexts. Components of this include solving problems, developing, adapting, and refining solutions for the betterment of society. The application of a discipline, including how technology assists or accelerates the work, enables students to more fully appreciate how the mastery of the grade level expectation matters after formal schooling is complete.

Nature of Discipline – The unique advantage of a discipline is the perspective it gives the mind to see the world and situations differently. The characteristics and viewpoint one keeps as a result of mastering the grade level expectation is the nature of the discipline retained in the mind’s eye.

2. Physical and Personal Wellness

Includes physical activity, healthy eating, and sexual health and teaches lifelong habits and patterns for a fit, healthy, and optimal childhood and adulthood; examines society, media, family, and peer influence on wellness choices; practices decision-making and communication skills for personal responsibility for wellness; and identifies the consequences of physical inactivity, unhealthy eating, and early sexual activity. Includes health promotion and disease prevention, and teaches responsibility and skills for personal health habits as well as behavior and disease prevention; sets personal goals for optimal health; examines common chronic and infectious diseases and causes; and recognizes the physical, mental, and social dimensions of personal health.

Prepared Graduates

The prepared graduate competencies are the preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

Prepared Graduates in the Physical and Personal Wellness standard are:

- Participate regularly in physical activity
- Achieve and maintain a health-enhancing level of physical fitness
- Apply knowledge and skills to engage in lifelong healthy eating
- Apply knowledge and skills necessary to make personal decisions that promote healthy relationships and sexual and reproductive health
- Apply knowledge and skills related to health promotion, disease prevention, and health maintenance

Content Area: Comprehensive Health and Physical Education
Standard: 2. Physical and Personal Wellness in Health

Prepared Graduates:
 ➤ Apply knowledge and skills to engage in lifelong healthy eating

Grade Level Expectation: First Grade

Concepts and skills students master:
 1. Eating a variety of foods from the different food groups is vital to promote good health

Evidence Outcomes	21st Century Skills and Readiness Competencies
<p>Students can:</p> <ul style="list-style-type: none"> a. Categorize foods into the major food groups (DOK 1) b. Identify a variety of foods in each of the food groups that are healthy choices (DOK 1-2) c. Identify foods and beverages that are high in added sugar, and generate examples of healthy alternatives (DOK 1-2) 	<p>Inquiry Questions:</p> <ul style="list-style-type: none"> 1. What makes some foods healthy and other foods unhealthy? 2. Why is it helpful to know which major food group a food belongs to? 3. What if all the foods you ate came from only one food group? 4. What if all foods looked and tasted exactly the same?
	<p>Relevance and Application:</p> <ul style="list-style-type: none"> 1. The tastes, colors, smells, and textures of foods provide sensory experiences that add or take away from enjoying what we eat.
	<p>Nature of Health:</p> <ul style="list-style-type: none"> 1. To maintain a healthy body, it is important to eat a variety of healthful foods.

Content Area: Comprehensive Health and Physical Education
Standard: 2. Physical and Personal Wellness in Health

Prepared Graduates:
 ➤ Apply knowledge and skills related to health promotion, disease prevention, and health maintenance

Grade Level Expectation: First Grade

Concepts and skills students master:
 2. Demonstrate health enhancing behaviors to prevent unintentional injury or illness

Evidence Outcomes	21st Century Skills and Readiness Competencies
<p>Students can:</p> <ul style="list-style-type: none"> a. Demonstrate ways to prevent harmful effects of the sun as well as hearing and vision loss (DOK 1-2) b. Explain that germs cause disease (DOK 1-2) c. Describe the symptoms that occur when a person is sick (DOK 1) d. Demonstrate ways to prevent the spread of germs that cause common, infectious diseases (DOK 1-2) e. Demonstrate proper steps for treating a wound to reduce chances of infection (DOK 1-2) 	<p>Inquiry Questions:</p> <ul style="list-style-type: none"> 1. What makes some people more susceptible to Sun damage? 2. What if we lived in a place that had loud noises all the time? 3. How does a person get a cold? 4. Why do surgeons scrub their hands and put on gloves prior to surgery? <hr/> <p>Relevance and Application:</p> <ul style="list-style-type: none"> 1. Goggles and sun glasses help protects the eyes from injury and damage. 2. The use of soaps and tissues help prevent the spread of germs. 3. Scientists have developed products designed to limit sun exposure. 4. Researchers study how germs spread locally and around the world. <hr/> <p>Nature of Health:</p> <ul style="list-style-type: none"> 1. Strategies exist to prevent damage to the skin from the sun, hearing loss, and vision loss. 2. A person can make positive decisions to protect themselves from getting sick.

3. Emotional and Social Wellness

Includes mental, emotional, and social health skills to recognize and manage emotions, develop care and concern for others, establish positive relationships, make responsible decisions, handle challenging situations constructively, resolve conflicts respectfully, manage stress, and make ethical and safe choices; examines internal and external influences on mental and social health; and identifies common mental and emotional health problems and their effect on physical health.

Prepared Graduates

The prepared graduate competencies are the preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

Prepared Graduates in the Emotional and Social Wellness standard are:

- Utilize knowledge and skills to enhance mental, emotional, and social well-being
- Exhibit responsible personal and social behavior that respects self and others in physical activity settings

Content Area: Comprehensive Health and Physical Education

Standard: 3. Emotional and Social Wellness in Health

Prepared Graduates:
➤ Utilize knowledge and skills to enhance mental, emotional, and social well-being

Grade Level Expectation: First Grade

Concepts and skills students master:
1. Demonstrate how to express emotions in healthy ways

Evidence Outcomes

- Students can:**
- a. Identify a variety of emotions (DOK 1)
 - b. Identify appropriate ways to express and deal with emotions and feelings (DOK 1-2)
 - c. Demonstrate effective listening skills (DOK 1-2)
 - d. Describe and practice situations that require polite and empathetic responses such as please, thank you, and I'm sorry (DOK 1-3)
 - e. Cooperate and share with others (DOK 1-2)
 - f. Identify problem-solving strategies, and demonstrate the ability to make choices using those strategies (DOK 1-3)

21st Century Skills and Readiness Competencies

- Inquiry Questions:**
- 1. How does a person control their feelings?
 - 2. Why is it important to be a good listener?
 - 3. How can I show someone I am listening to them?

- Relevance and Application:**
- 1. People express their emotions in a variety of ways.
 - 2. Playing games are one way to learn how to express emotions.

- Nature of Health:**
- 1. Expressing emotions in appropriate ways is a lifelong skill for school, work and family.

Content Area: Comprehensive Health and Physical Education
Standard: 3. Emotional and Social Wellness in Health

Prepared Graduates:
 ➤ Utilize knowledge and skills to enhance mental, emotional, and social well-being

Grade Level Expectation: First Grade

Concepts and skills students master:
 2. Identify parents, guardians, and other trusted adults as resources for information about health

Evidence Outcomes	21st Century Skills and Readiness Competencies
--------------------------	--

Students can:

- a. Identify trusted adults at home and at school (DOK 1)
- b. Identify trusted adults who promote health such as health care providers (DOK 1)
- c. Identify the importance of talking about feelings with parents and other trusted adults (DOK 1-3)
- d. Demonstrate the ability to ask for help from a trusted adults (DOK 1-3)

Inquiry Questions:

1. Who are your trusted adults?
2. Why should you ask an adult for help understanding health information?

Relevance and Application:

1. School, health care sites, and community and belief centers are places where help might be found.

Nature of Health:

1. Asking for help and health information is a lifelong skill

4. Prevention and Risk Management

Includes alcohol, tobacco, and other drug prevention; violence prevention; and safety; teaches skills to increase safe physical and social behavior in at home, in school, in the community, and in personal relationships; provides specific knowledge on avoidance of intentional and unintentional injuries; and practices decision-making and communication skills to avoid drug use, bullying, and dating violence.

Prepared Graduates

The prepared graduate competencies are the preschool through twelfth-grade concepts and skills that all students who complete the Colorado education system must master to ensure their success in a postsecondary and workforce setting.

Prepared Graduates in the Prevention and Risk Management standard are:

- Apply knowledge and skills to make health-enhancing decisions regarding the use of alcohol, tobacco, and other drugs
- Apply knowledge and skills that promote healthy, violence-free relationships
- Apply personal safety knowledge and skills to prevent and treat intentional or unintentional injury

Content Area: Comprehensive Health and Physical Education
Standard: 4. Prevention and Risk Management in Health

Prepared Graduates:
 ➤ Apply personal safety knowledge and skills to prevent, and treat unintentional injury

Grade Level Expectation: First Grade

Concepts and skills students master:

1. Demonstrate strategies to avoid hazards in the home and community

Evidence Outcomes	21st Century Skills and Readiness Competencies
--------------------------	--

- Students can:**
- a. Identify safety hazards such as poison, fire, guns, water, playground equipment, and household products in the home and community (DOK 1)
 - b. Explain why household products are harmful if ingested or inhaled (DOK 1-2)
 - c. Describe how to safely ride a bike, skateboard, and scooter as well as use inline skates (DOK 1-2)
 - d. Identify safety rules for being around fire (DOK 1)
 - e. Demonstrate strategies to avoid fires and burns (Stop, drop, and roll) (DOK 1)
 - f. Demonstrate how to call 911 or other emergency numbers for help in a situation involving fires (DOK 1)

- Inquiry Questions:**
1. Why is it important to know the difference between what we can and cannot eat?
 2. Why is it important to know that certain items in the refrigerator and pantry cannot be eaten?
 3. What could happen if you were camping, there was a campfire, and everyone decided to leave and go for a hike without putting the fire out first?

- Relevance and Application:**
1. Firefighters practice strategies to prevent fires from starting and to prevent fire from spreading.
 2. Emergency responders practice how to quickly help anyone who ingests and or inhales something not safe.
 3. Children in other countries or communities might need to be aware of different types of hazards.

- Nature of Health:**
1. Use concepts and skills to identify potential hazards and respond appropriately.

Colorado Department of Education
